

# Utilizing Multiple Measures to Personalize Learning

Board of Education  
March 27, 2019

# Presenters

- Michael Greenfield: Assistant Superintendent for Curriculum & Instruction
- Jaimie Kanter, Director of English Language Arts
- Stephanie Goldman, Assistant Principal, Parsons School
- Veronica D'Andrea, Director of Mathematics
- Valerie Hymes, HAS Principal
- Jennifer Driggers, 1st Grade Teacher, Parsons School

# Presentation Overview

- Our Emerging Vision: Multiple Measures & Personalized Learning
- In Practice: Utilizing Proficiency Scales in the Classroom
- Looking Ahead: Continuing our Journey

# Proficiency Scales: Navigation and Calibration

unreliable & invalid

unreliable, but valid

reliable, not valid

both reliable and valid

# Personalized Learning

# Proficiency Scale

<b>Critical Concept</b>		<b>Analyzing Narratives (3 ELA)</b>
<b>Mastery</b>	4.0	The student will: • Decide which of a character's traits have negative consequences and create problems in a narrative (for example, describe how Odysseus' overconfidence and his men's greed lead to conflict in the book <i>The One-Eyed Giant</i> by Mary Pope Osborne).
	3.5	In addition to score 3.0 performance, partial success at score 4.0 content
	3.0	The student will: <b>AN1—Recount plots with single storylines</b> (for example, recount important events from <i>Sarah, Plain and Tall</i> by Patricia MacLachlan in order, including details about who is involved in the events, what times of year they occur, and what happens as a result). <b>AN2—Explain how character actions affect the events in a narrative text</b> (for example, explain how Elmer's quick-thinking and bravery help him rescue the dragon on Wild Island in <i>My Father's Dragon</i> by Ruth Stiles Gannett).
	2.5	No major errors or omissions regarding score 2.0 content, and partial success at score 3.0 content
	2.0	<b>AN1—The student will recognize or recall specific vocabulary</b> (for example, <i>character, event, impact, event, main character, order, plot, setting</i> ) and perform basic processes such as: • Identify the settings and main characters in a text. • State events in the order they occurred in a text. • Explain how to tell the difference between important events and less important events in a text. <b>AN2—The student will recognize or recall specific vocabulary</b> (for example, <i>action, character, character trait, description, dialogue, event, feeling, motivation, narration</i> ) and perform basic processes such as: • Explain how an author can portray character traits, feelings, and motivations to a reader. • Annotate character actions, dialogues and/or thoughts in a text that reveal the traits, feelings, and motivations of a character. • Generate a list of descriptive words and phrases that describe a character's traits, feelings, and motivations in a text. • Describe how one character is involved in an important event in a text.
<b>Proficiency (Meeting Standard)</b>	1.5	Partial success at score 2.0 content, and major errors or omissions regarding score 3.0 content
	1.0	With help, partial success at score 2.0 content and score 3.0 content
	0.5	With help, partial success at score 2.0 content but not at score 3.0 content
	0.0	Even with help, no success
<b>Approaching Standard</b>		

Analyzing Narratives - 1st Grade

	List qualities of the <b>setting</b> (time and place)	Identify <b>illustrations</b> that show the <b>setting</b> .	Identify the <b>main characters</b>	Describe how a <b>character</b> looks, acts, and feels Identify what a <b>character</b> does during a particular <b>event</b> .	Identify and describe the <b>event(s)</b> Retell narratives in sequential order.	Describe the <b>characters</b>	Describe the <b>settings</b>	Describe the <b>events</b>	Infer a <b>character's actions</b> using text details, illustrations, and background knowledge

**Flexible Content  
and Tools**

Instructional materials allow  
for differentiated path, pace,  
and performance tasks

## Setting, Characterization and Plot

REINFORCE these skills (151-160):	DEVELOP these skills (161-170):	Begin to INTRODUCE these skills (171-180):
Recognizes story characters	Analyzes illustrations to understand literary text	Infers character traits or attributes based on a particular event
Identifies a character based on an illustration	Locates details about characters in literary text	Understands how characters contribute to events in a literary passage
Infers character feelings or thoughts	Locates details about events in literary text	

Form Part Two: Comprehension Conversation (continued)

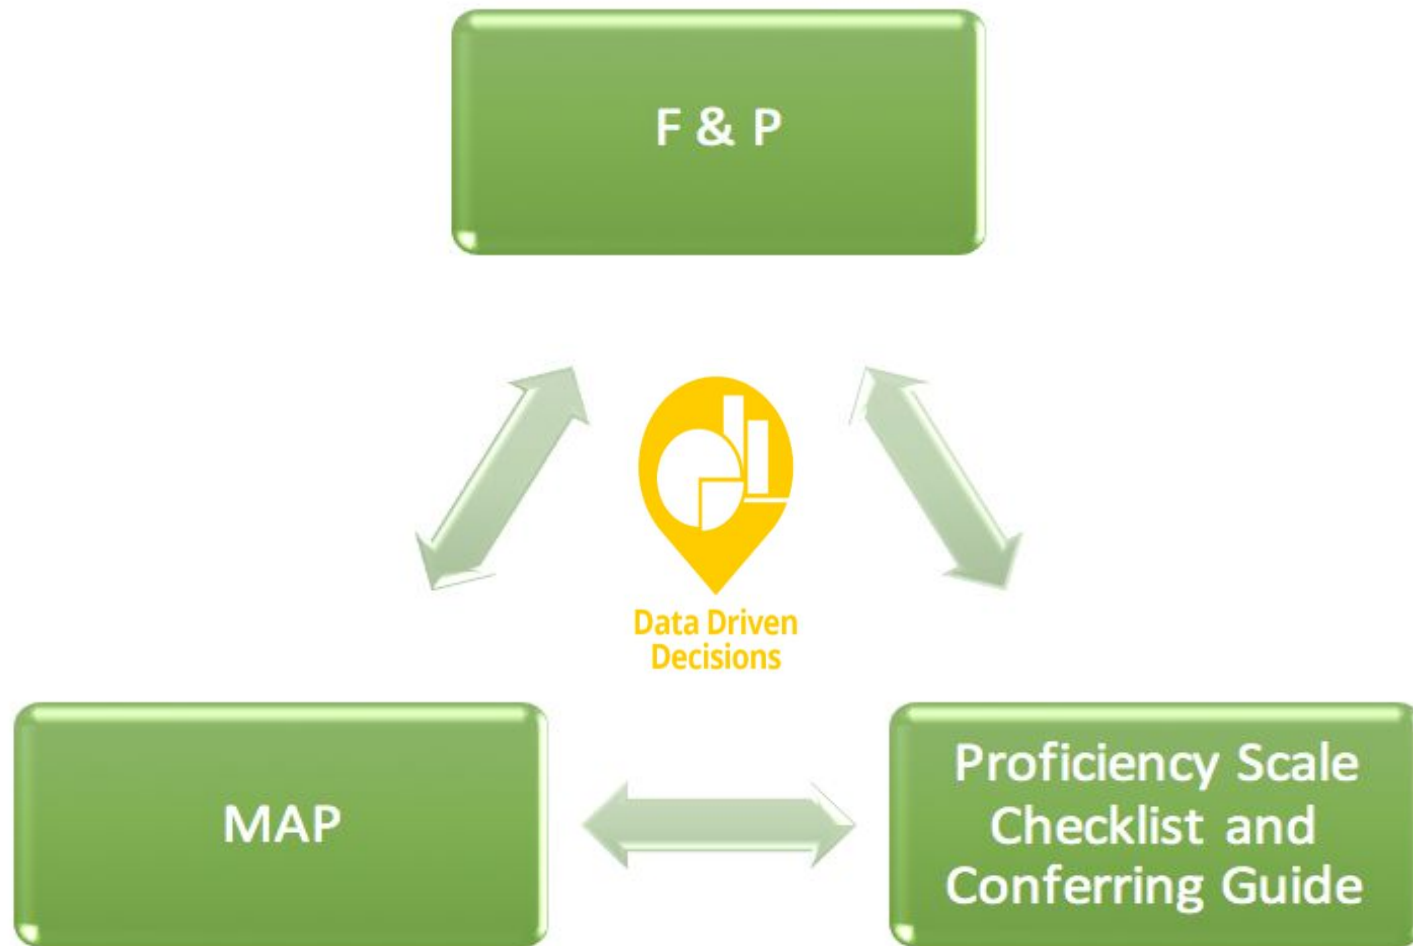

### Anna's New Glasses • Level F

Key Understandings	Prompts	Score
<b>Beyond and About the Text</b> Anna doesn't want to wear glasses because she is probably worried how she will look in them and doesn't know how the other children will react to them. When Anna sees her teacher has the same glasses, she puts on her own glasses and smiles. She is OK with wearing her glasses now. <i>She feels happy because her teacher has the same glasses.</i> Sometimes seeing someone like you makes you more confident. <i>"Because they look the same."</i> The picture on page 14 shows that Anna's new teacher is wearing the same glasses that Anna picked out. <i>"The picture shows Anna and her teacher with the glasses. It's the same."</i> I didn't want to wear _____, but it turned out OK because other people liked it. Note any additional understandings:	<i>she wonders how others will treat her.</i> Talk about how Anna feels at the beginning of the story. How do you know? How does Anna feel at the end of the story? How can you tell? <i>How does the illustration on page 14 help you predict that Anna will put on her glasses?</i> Why do you think Anna feels better when she sees her teacher wearing glasses? Have you ever felt like Anna feels in the story? How?	0 1 <u>2</u> 3

Data Driven  
Decisions

**Multiple Measures**

# Targeted Instruction

Communicates by using mathematical reasoning with objects, drawings, diagrams, equations ...		✓	✓	✓
Justifies solutions				
Makes connections between their own thinking and that of others				
Demonstrates actively listening by asking questions of others			✓	
Makes statements to prove or disprove concepts or presented ideas		✓		
Demonstrates understanding different forms of reasoning (ie. deductive reasoning) and how to apply them				
Uses accurate vocabulary				

Communicates by using mathematical reasoning with objects, drawings, diagrams, equations ...	✓	✓	✓	✓
Justifies solutions				
Makes connections between their own thinking and that of others			✓

Targeted Instruction

**MATH TALK** ✕ ÷

**Explain** "My solution is..."  
"My strategy is..."  
explain or show your thinking!

**Agree or Disagree?**  
"I agree with because..."  
offer a new solution!

**Go Beyond** "This makes me think..."  
expand on their idea!

**Ask Good Questions**  
• why did you?  
• how did you?  
• could you have?  
• how can that be?  
• what if?

**Reading Workshop: Exploring Theme**

How does the author convey the theme of the story?  
Explain your thinking.

They both have empathy for each other because both of them are slow. I think the theme is find your talent and share it with others

<sup>(v)</sup>  
Elaborate <sup>to give more information about a topic</sup> on

Can you elaborate on ...

\* How does that connect to ...?

\* Can you give me an example from the text?

**Reading Workshop: Exploring Theme**

How does the author convey the theme of the story?  
Explain your thinking.

the author is conveying that the theme is find your talent and share it with others because he is slow with everything and he felt fast. He was the fastest because of the turtle. he was exploring what effect will frogs will do to animals like turtles. They didn't feel empathy for each other because both of them are very slow. he was slow very empathetic. at the end because he was and he had never and was something better. It was the first time

**Student Reflection  
and Ownership**

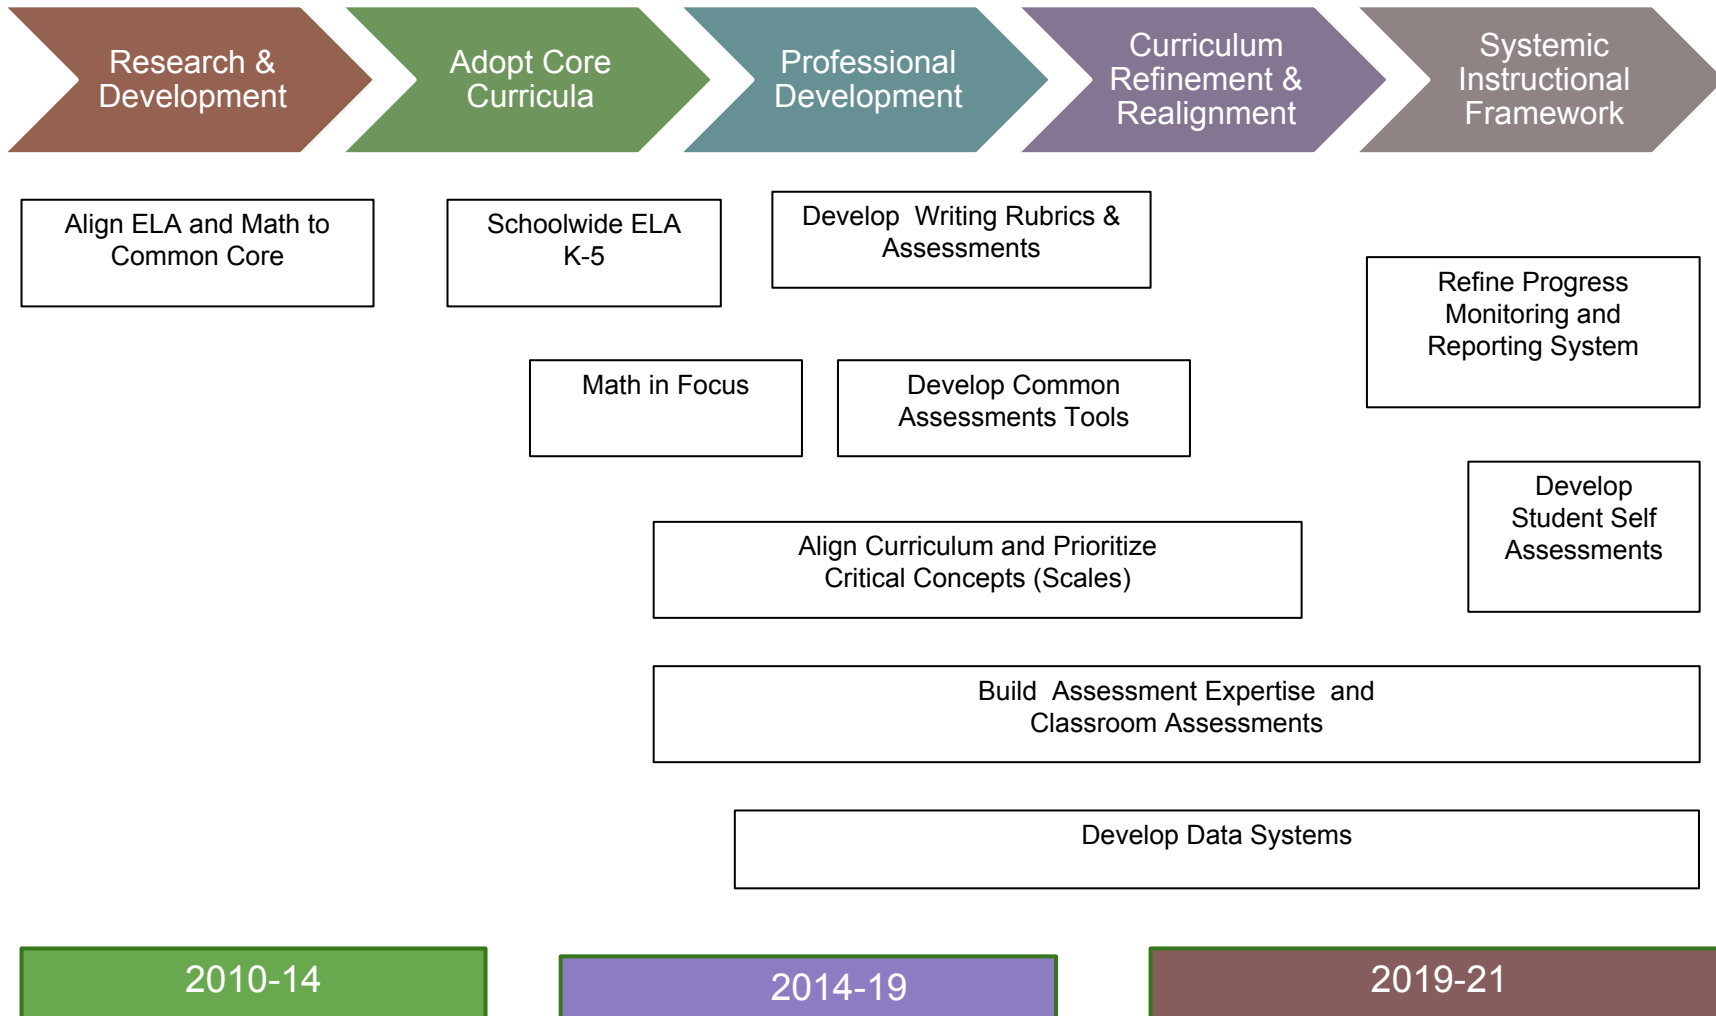

# Next Steps-Looking Back to Move Ahead

# Continuing Our Journey

# Literacy Assessment and Design

## Phase 1

- Creation of a Design Team
- Assessment and Reporting Audit

## Phase 2

- Curriculum Audit (Gap Analysis)
- Deepen Capacity for Assessment Design
- Develop a Variety of Assessments

## Phase 3

- Refine and Expand the Use of Proficiency Scales and Assessments
- Align Proficiency Scales and Assessments to the Reporting System

# Questions & Answers
