ONLINE REGISTRATION BEGINS JANUARY 14, 2019

EARLY COLLEGE

Orange Unified offers students the opportunity to earn college credit at Santiago Canyon College (SCC) while still in high school. Classes may be taken at SCC or an OUSD high school at NO COST to the student.

MEASURE S

Striving towards making Orange Unified one of the highest performing districts in the region, a large focus of Measure S is on creating new state-of-the-art science classrooms & labs, and enhancing school safety.

PSAT/SAT

A partnership between OUSD and the College Board makes it possible for ALL OUSD high school students to take the exams free of cost and access free online resources and a personalized study plan through Khan Academy.

AVID

Since 2013, OUSD middle and high school students have had access to Advancement Via Individual Determination, a college readiness program designed to help students develop the skills they need to be successful in college.

WELCOME TO ORANGE UNIFIED SCHOOL DISTRICT!

It is an exciting time within the District as we begin modernization of current facilities and construction of state-of-the-art science centers at each comprehensive high school. Track and field improvements at the high schools and the complete renovation of Fred Kelly Stadium will also provide the district's CIF championship teams, students, and the community with the top-notch athletic facilities that they deserve.

Our secondary schools offer a variety of opportunities to prepare students for 21st century colleges and careers, including a ***comprehensive college preparatory curriculum***, ***dual enrollment college classes*** on our high school campuses, and an expansive offering of ***Advanced Placement*** courses. In addition, Orange Unified School District has many unique ***Career Technical Education (CTE)*** courses available for middle and high school students. ***STEM Programs*** at the middle schools and ***Career Pathways*** offered at each high school allow students to explore professions that fit their abilities and interests while gaining industry specific skills and experience. ***Orange LIVE! (Learning through Interactive Virtual Education)*** and ***iSchool*** classes provide students with online opportunities to gain graduation credits and enroll in classes that might be otherwise unavailable.
