

In case your child's native language is not English

Thank you very much for your interest in CHIST.

We are an English-medium International School, and it is required that entrant will be able to participate in classes in English.

Although we offer EAL Programme (English as an Additional Language) at CHIST, this programme is mainly for foreign students whose first language is not English and are not able to choose a school where education is delivered in their native language.

At the interview, we observe whether the applicant has a sufficient language level and can achieve a standard of learning comparable with the language level of the grade they will be entering.

Sometimes it is possible that the interview cannot be fully conducted only with a conversational level of English.

Although there are special cases in which we offer the EAL programme, if the language level of the entrant has almost reached the level of the grade for a very short time of learning English, acceptance will be based on all elements of the applicant.

Please consider the above when you apply for CHIST.

Thank you very much.

Sincerely yours,

CHIST Admissions Office
