

Kaufman Tennis Point System

Guidelines: Each tournament or camp a student participates in over the summer will be rewarded at the start of the school year. There are several variations of rewards that are listed on the back but not limited to these events. For incoming freshman, they will be allowed to participate in the JV/Varsity tryouts. In order to be considered for varsity level, athletes will need to participate in at least four tournaments or accrue fifty points via strength & conditioning or tennis camps. **Students must provide signatures from the tournament directors, lessons director and camp directors. You will not be credited for anything that does not have a signature.**
