

## ROCORI POLICY FOR GRADUATION

Adopted: June 24, 1996

Revised: April 22, 2019

Reviewed:

### GRADUATION REQUIREMENTS

***[Note: The requirements set forth in this policy govern the graduation standards that Minnesota public schools must require for a high school diploma for all students.]***

#### I. PURPOSE

The purpose of this policy is to set forth requirements for graduation from the school district.

#### II. GENERAL STATEMENT OF POLICY

Students must pass 18 credits in required courses of which 4 credits will be in Language Arts, 3 credits will be in Science, 3½ credits will be in Mathematics, 4 credits will be in Social Studies, 1 credit will be in Physical Education, ½ credit will be in Health, ¼ credit will be in Career Countdown, ½ credit will be in Consumer Economics, ½ credit will be in Public Speaking, and 1 credit in the arts.

The remaining credits required for graduation will be in elective courses ***for a total of 30 credits attempted and 28 credits passed.***

#### III. DEFINITIONS

- A. "Academic standard" means: (1) a statewide adopted expectation for student learning in the content areas of language arts, mathematics, science, social studies, physical education, or the arts, or (2) a locally adopted expectation for student learning in health, the arts, career and technical education, or world languages.
- B. "Credit" means a student's successful completion of an academic year of study or a student's mastery of the applicable subject matter, as determined by the school district.
- C. "Section 504 Accommodation" means the defined appropriate accommodations or modifications that must be made in the school environment to address the needs of an individual student with disabilities.

- D. "Individualized Education Program" or "IEP" means a written statement developed for a student eligible by law for special education and services.
- E. "English language learners" or "ELL" student means an individual whose first language is not English and whose test performance may be negatively impacted by lack of English language proficiency.
- F. "GRAD" means the graduation-required assessment for diploma that measures the reading, writing, and mathematics proficiency of high school students.

#### **IV. DISTRICT ASSESSMENT COORDINATOR**

An Administrator or Teacher on Special Assignment shall be named the District Assessment Coordinator. Said person shall be in charge of all test procedures and shall bring recommendations to the school board annually for approval.

#### **V. GRADUATION ASSESSMENT REQUIREMENTS**

For students enrolled in grade 8 in the 2012-2013 school year and later, students' state graduation requirements, based on a longitudinal, systematic approach to student education and career planning, assessment, instructional support, and evaluation, include the following:

- A. encouragement to participate on a nationally normed college entrance exam in grade 11 or grade 12;
- B. achievement and career and college readiness tests in mathematics, reading, and writing. The tests must have a continuum of empirically derived, clearly defined benchmarks focused on students' attainment of knowledge and skills so that students, their parents, and teachers know how well students must perform to have a reasonable chance to succeed in a career or college without the need for postsecondary remediation. In addition, the tests must ensure that the foundational knowledge and skills for students' successful performance in postsecondary employment or education and articulated series of possible targeted interventions are clearly identified and satisfy Minnesota's postsecondary admission requirements. To the extent available, the tests should:
  - 1. monitor students' continuous development of and growth in requisite knowledge and skills; analyze students' progress and performance levels, identifying students' academic strengths and diagnosing areas where students require curriculum or instructional adjustments, targeted interventions, or remediation; and
  - 2. based on analysis of students' progress and performance data, determine

students' learning and instructional needs and the instructional tools and best practices that support academic rigor for the student; and

- C. consistent with this paragraph and Minn. Stat. § 120B.125 (*see Policy 604, Section II.H.*), age-appropriate exploration and planning activities and career assessments to encourage students to identify personally relevant career interests and aptitudes and help students and their families develop a regularly reexamined transition plan for postsecondary education or employment without need for postsecondary remediation.
- D. Based on appropriate state guidelines, students with an IEP may satisfy state graduation requirements by achieving an individual score on the state-identified alternative assessments.
- E. Students meeting the state graduation requirements under this section must receive targeted, relevant, academically rigorous, and resourced instruction which may include a targeted instruction and intervention plan focused on improving the student's knowledge and skills in core subjects so that the student has a reasonable chance to succeed in a career or college without need for postsecondary remediation.
- F. Students meeting the state graduation requirements under this section and who are students in grade 11 or 12 and who are identified as academically ready for a career or college must be actively encouraged by the school district to participate in courses and programs awarding college credit to high school students. Students are not required to achieve a specified score or level of proficiency on an assessment under this subdivision to graduate from high school.
- G. A student's progress toward career and college readiness must be recorded on the student's high school transcript.

## **VI. GRADUATION CREDIT REQUIREMENTS**

Students beginning 8<sup>th</sup> grade in the 2012-2013 school year and later must successfully complete, as determined by the school district, the following high school level credits for graduation:

- A. Four credits of language arts sufficient to satisfy all academic standards in English language arts;
- B. Three credits of mathematics, including an algebra II credit or its equivalent, geometry, statistics and probability, or its equivalent, sufficient to satisfy all of the academic standards in mathematics.

- C. Students in the graduation class of 2015 and beyond must complete an algebra I credit by the end of 8<sup>th</sup> grade sufficient to satisfy all of the 8<sup>th</sup> grade standards in mathematics;
- D. Three credits of science, including at least: (a) one credit of biology; (b) one credit of chemistry or physics; and (c) one elective credit of science. The combination of credits must be sufficient to satisfy (i) all of the academic standards in either chemistry or physics and (ii) all other academic standards in science;
- E. Three and one-half credits of social studies, encompassing at least United States history, geography, government and citizenship, world history, and economics sufficient to satisfy all of the academic standards in social studies;
- F. One credit in the arts sufficient to satisfy all of the state or local academic standards in the arts; and
- G. A minimum of seven elective credits.
- H. Credit equivalencies
  - 1. A one-half credit of economics taught in a school's agriculture education or business department may fulfill a one-half credit in social studies under Paragraph E., above, if the credit is sufficient to satisfy all of the academic standards in economics.
  - 2. An agriculture science or career and technical education credit may fulfill the elective science credit required under Paragraph D., above, if the credit meets the state physical science, life science, earth and space science, chemistry, or physics academic standards or a combination of these academic standards as approved by the school district. An agriculture or career and technical education credit may fulfill the credit in chemistry or physics required under Paragraph D., above, if the credit meets the state chemistry or physics academic standards as approved by the school district. A student must satisfy either all of the chemistry or physics academic standards prior to graduation. An agriculture science or career and technical education credit may not fulfill the required biology credit under Paragraph D., above.
  - 3. A career and technical education credit may fulfill a mathematics or arts credit requirement under Paragraph B. or Paragraph F., above.
  - 4. A computer science credit may fulfill a mathematics credit requirement under Paragraph B., above, if the credit meets state academic standards in mathematics.

5. A Project Lead the Way credit may fulfill a mathematics or science credit requirement under Paragraph B. or Paragraph D., above, if the credit meets the state academic standards in mathematics or science.

## **VII. GRADUATION STANDARDS REQUIREMENTS**

- A. All students must demonstrate their understanding of the following academic standards:
  1. School District Standards, Health (K-12);
  2. School District Standards, Career and Technical Education (K-12); and
  3. School District Standards, World Languages (K-12).
- B. Academic standards in health, world languages, and career and technical education will be reviewed on an annual basis.\* A school district must use the current world languages standards developed by the American Council on the Teaching of Foreign Languages.

\* Reviews are required to be conducted on a periodic basis. Therefore, this time period may be changed to accommodate individual school district needs.
- C. All students must satisfactorily complete the following required Graduation Standards in accordance with the standards developed by the Minnesota Department of Education (MDE):
  1. Minnesota Academic Standards, English Language Arts K-12;
  2. Minnesota Academic Standards, Mathematics K-12;
  3. Minnesota Academic Standards, Science K-12;
  4. Minnesota Academic Standards, Social Studies K-12; and
  5. Minnesota Academic Standards, Physical Education K-12.
- D. State standards in the Arts K-12 are available, or school districts may choose to develop their own standards.
- E. The academic standards for language arts, mathematics, and science apply to all students except the very few students with extreme cognitive or physical impairments for whom an IEP team has determined that the required academic standards are inappropriate. An IEP team that makes this determination must

establish alternative standards.

#### **VIII. EARLY GRADUATION**

Students may be considered for early graduation, as provided for within Minn. Stat. § 120B.07, upon meeting the following conditions:

- A. All course or standards and credit requirements must be met;
- B. The principal or designee shall conduct an interview with the student and parent or guardian, familiarize the parties with opportunities available in post-secondary education, and arrive at a timely decision; and
- C. The principal's decision shall be in writing and may be subject to review by the superintendent and school board.
