2-Moderate correlation

1-Light correlation

Things to Consider

1. Discussion is key so if you need to condense, cut out something other than discussion
2. The program does not contain a lot of practice counting to 100 by 1's.
3. Teaching number formation is not included in the program
4. There is an assumption in routines that class sizes will be less than 20 for 10's and 1's work when realistically most classes will be larger than 20.
5. Teen numbers are not formally introduced until Unit 8 session 2.4
6. Be intentional with building shape vocabulary.
