

Sunrise Park Middle School

Specific Results from Action Teams

2018-19

Strategy 1

“We will ensure meaningful connections between students, staff, family, and community.”

Specific Results:

- Sunrise Park Middle School will provide clear, consistent communication about school related information to attract and support families and communities of all backgrounds.
- Sunrise Park Middle School will foster authentic connections between staff, families, and students to provide collaboration among everyone as a way to express culture and personal life.
- Sunrise Park Middle School will provide varied opportunities for volunteers from a wide range of backgrounds to enhance the learning of students inside Sunrise Park and out in the community.

Strategy 2

“We will provide highly effective instruction and authentic learning experiences.”

Specific Results:

- Staff consistently have ample time to collaborate and plan for authentic learning opportunities.
- Staff that supports and celebrates student achievement and makes it visible within the school.
- An interdisciplinary, rigorous, standards-based curriculum that encourages students to creatively develop their passions while realizing their individual needs.
- Students in all subjects and grades have a variety of opportunities to practice and learn real-world skills.
- An ongoing partnership with community members, local businesses, and other resources to support authentic learning experiences.
- Staff develop positive and supportive individual relationships with students.

Strategy 3

“We will build an atmosphere that promotes physical, mental and emotional health.”

Specific Results

- Whole School - All school staff will actively and purposefully collaborate to support and develop students’ social-emotional learning.
- Instruction - Teachers will prioritize the mental health of students within instructional practices.
- Non-Classroom Spaces - Students will have access to a supported space in which they can process and reset for learning.

Strategy 4

“We will establish an inspiring learning environment.”

Specific Results

- Learning environments are supported by developmentally appropriate and flexible scheduling that optimize student learning.
- Extra-curricular activities create safe, developmental opportunities that all students can access.
- A foundation of productive partnerships with the community.
- An inclusive environment that welcomes all.
- Environments promote and social/emotional health.
- Environments promote flexibility, academic success, and student ownership.
