

Senior Spotlight: Alex C.

Most of my family is from the United States, which is where I was born. I have only lived in two countries: the United States, and here in Cayman. This is my fifth year at CIS, but I have been living in the Cayman Islands for 13 years. The activities that I enjoy outside of school are football and volleyball, which I also play for the CIS athletics teams. I am very passionate about football, which has led me to collect football kits. When I travel, I try to get a football kit from the local teams and add to my constantly growing collection. My favorite movie is *Zombieland* because it is one of the funniest movies I have ever seen. For my last meal, I would want a PB&J sandwich and Irn Bru. I would not want to be famous because there would be too much pressure and exposure to everything that I do.
