

Senior Spotlight: Kayla G.

I was born in Grand Cayman but my family is originally from Saskatchewan, Canada. Most of my family now live in Alberta, Canada in the Trochu, Torrington area. Every summer we go to Canada so it is my second home. I have lived in Grand Cayman for my whole life now, 16 years, and this will be my fourth year attending Cayman International School. Some of my best qualities are that I am optimistic towards life, and I am also kind and loyal to family and friends but also can be lazy at times. One interesting thing that people might not know about is that I have a very big family. My mom is the oldest of six, and my dad is the second youngest of seven.

Outside of school, I spend most of my time at the stables riding horses, I'm there the majority of the week. I also work at Crown Global Life Insurance on the weekends and most Tuesdays. My favorite place on earth is just outside of Torrington, Alberta, on my cousin's farm. It is my second home because that is the place that we spend the most time when we go to Canada. The farm is peaceful, but also full of activities. My cousins also have a dugout to go swimming on the hot summer days. My most rewarding community service experience was when I went to Costa Rica with CIS in 11th grade. Helping out with the schools and meeting the school kids was really nice to see and rewarding when I got to see the finished product and knowing that I helped out a community. If I was to walk the green mile my last meal would be the carnivore pizza from the Moose's Tooth Bar and Grill in Anchorage, Alaska. As an appetizer, I would have bacon wrapped scallops and asparagus. I would also have some turtle cake, cinnamon bun cookies, and a tub of Nutella and raspberries for dessert. After I graduate from CIS I plan to go to university in Alberta, Canada. My top choice right now for university would be the University of Alberta. I will most likely live in Canada and occasionally visit Grand Cayman.
