

Senior Spotlight: Nina R.

I was born and raised in Cayman, my mothers side of my family is Swedish all the way back, and my fathers is British, however, they both moved to Cayman over 20 years ago so they are Caymanians as well. I have lived in Cayman all my life, minus a year because I went to boarding school in England. I have been living in Cayman for 18 years now, and I have been attending CIS for 15 years. I would describe myself as funny, outgoing, and bossy (but in a good way). One thing people might not know about me is that my favorite animal is a Capybara (otherwise known as a water pig.) I collect small glass figurines, some figurines that my mom collected when she was a child were passed down to me and from there on they started to become sentimental birthday and Christmas presents. I have quite a collection now. If I were able to have a superpower I would want to have the power of telekinesis because I think that the ability to control objects with your mind is awesome. My favorite place on earth would have to be Little Cayman. I have so many good childhood memories there and it's just such a peaceful and relaxing place where time slows down. If I had to walk the Green Mile, I would want my last meal to be my dad's home cooked steak, with garlic bread, green beans, and a salad. My dream job is to be a mattress tester because I love naps, and who wouldn't love to get paid to nap?
