

Senior Spotlight: Madison

I was born and raised in Grand Cayman but my family is originally from Texas. I have been attending Cayman International School since nursery when it was just a small building on the highway, making it the only school I've attended. One of my best traits is my passion for the environment and fitness. However, my worst trait that I am working on improving is my procrastination. I'm extremely happy to be a senior and plan on attending the University of Georgia in the fall. One thing most people don't know about me is that I had red hair when I was little. My favorite family tradition is that on the night before Christmas all my cousins go to my grandparent's house to read *The Night Before Christmas*. If I could have one superpower it would be a photographic memory as it would make school, especially Spanish, a hundred times easier. My favorite place on Earth is Snowmass, Colorado because snowboarding is my favorite sport and it has always felt like my second home. Finally, the best advice I've received is to approach everything one step at a time. This helped me over the last two years when I was overwhelmed with IB assignments and deadlines.
