Hudson Montessori School Library

Dr. Shinichi Suzuki believed every child can achieve excellence. His method of talent education helps realize the limitless potential within each person. Our Conservatory of Music at HMS Suzuki violin groups will be presenting a concert showcasing these steps toward excellence. From the beginning players to the older more experienced musicians, each piece of music represents stages in development of the young violinist. To find out more about our program, philosophy and Conservatory faculty, come to the concert, contact James Rhodes at jrhodes@hudsonmontessori.org, and visit <https://www.hudsonmontessori.org/beyond-the-classroom/conservatory-of-music-at-hms/suzuki-violaviolin>
