

Medical Terminology

Prerequisite: None

Course: 1443CT

Credits: 1

Length: 18 weeks

Placement: 9-12

Course Description

Learn the language of medicine while applying it to real-life emergency situations. Medical Terminology takes students from prefixes, suffixes and root words to dissecting the most complicated of medical terms. Be ahead of your peers and sound like a professional as you progress through the Health Science Program of Study.

Student Activities

Bring language alive as you discuss, research, dissect terms, and create products to help you and your classmates learn medical terminology.
