

MATHS TEACHER

Vacancy at Jerudong International School for **1st August 2019**.

We are looking for well qualified and inspirational teachers who empathise with the academic and holistic ethos found in top UK and International Schools; and who will wish to become fully involved with both pastoral care and co-curricular activity within the school. Previous overseas experience is not essential. However, the desire to work in a genuinely international community is.

To apply, please complete the Application Form to be found in the Employment Page. Please ensure your CV includes a recent photo, and full contact details, including email address, of two professional referees (one should be the applicant's current and most recent employer).

The closing date for applications is **Friday, 24th May 2019** although early applications would be most appreciated. Initial interviews will be by Skype. UK-based short-listed applicants will then be interviewed in London, with overseas applicants interviewed again by Skype or in Brunei itself.

JOB DESCRIPTION

ACCOUNTABLE TO : Head of Maths

SALARY

The salary is calculated according to experience and qualifications, based on the JIS Teaching Scale. This is very generous. The salary is paid tax free. A gratuity will also be payable at the end of the renewable contract. Teachers also benefit from an excellent accommodation allowance, health insurance, an annual flight allowance, a contribution to relocation expenses and discounted school fees for children.

REQUIREMENTS

We are looking for a well-qualified enthusiastic and inspiring Maths teacher who loves teaching and has a passion for continuing their professional development and sharing good practice. The Maths Faculty is a very collaborative and welcoming environment and a successful applicant would be able to integrate well into the team. The faculty's development targets this year are related to helping students develop their language skills, assessment for learning, and differentiation and a successful applicant would be committed to improve their practice in these areas.

Furthermore, we expect our teachers to fully commit to the holistic ethos of the school and to contribute toward the development of our whole school aims; Thinking Skills, Language, Active Engagement, Leadership, Participation and Integration.

SPECIFIC RESPONSIBILITIES

The successful applicant will be joining a team of 18 enthusiastic mathematicians in a high achieving faculty. The Maths Faculty is held in high regard both within the school and the wider community, and for many students it is considered their favourite subject.

The CIE IGCSE Maths IGCSE at Core and Extended levels is offered to all Year 10 and 11 students, with the Additional Maths IGCSE being offered to those who are able to access it. A level courses will follow the Edexcel scheme. Maths is a very popular subject at A Level, with almost three quarters of all students taking A Level Maths. The successful applicant will need to be able to confidently teach the A Level course and be willing to learn and share ideas as the new curriculum begins. Further Maths is a growing subject which the Faculty is keen to nurture and develop. We also have an International Baccalaureate programme and will be offering the full complement of new courses. Experience teaching Further Mathematics or International Baccalaureate is desirable, but not essential.

The candidate will also be expected to undertake both form tutor and co-curricular responsibilities in addition to their classroom teaching.

WIDER RESPONSIBILITIES

JIS is a busy environment to which every member of the team contributes wholeheartedly. There are high expectations inside and outside the classroom. This is not a school where the car park clears when the bell goes at the end of last lesson. The rewards are significant but potential members of the team need to be prepared to throw themselves into a lifestyle with school at the centre. Applicants who express an interest in any of these areas will be at an advantage.

BOARDING

Almost a quarter of Senior School students are boarders. Experience of, or a willingness to get involved in, boarding houses as a residential or visiting tutor would be desirable and does confer genuine benefits in getting to know our children and understanding the factors that determine their success.

CO-CURRICULAR ACTIVITIES

Enthusiasm for or experience in these fields would be welcome.

Our artistic performances are world class. There are fabulous opportunities to explore the worlds of Art, Drama, Dance and Music with our students. Assistance and even performance from staff plays a vital role in enriching the students' experience at JIS.

We are always on the lookout for sports coaches and officials, particularly in these key areas:

- Netball
- Football
- Rugby
- Basketball
- Athletics
- Swimming

- Gymnastics
- Badminton

We run the most successful International Award scheme of any International School. Outdoor types will find a host of like-minded colleagues and there is a jungle on our doorstep.

LIFELONG LEARNING

Our community strives to be self-evaluating and self-improving. We run an exceptionally innovative programme of ongoing Professional Development. We rely on members of our team to be problem solving self-starters who contribute to making us all better learners. Potential to help colleagues improve and a willingness to improve one's own practice is an essential attribute for any successful applicant.
