

PHYSICS

Windermere Preparatory School is seeking a credentialed high school physics teacher with expertise in teaching college prep and advanced classes, preferably with International Baccalaureate (IB) teaching experience. This position requires the teacher to have an extensive knowledge of all elements of physics with the ability to communicate ideas effectively as well as offer a variety of instructional techniques. Mastery of mathematical concepts and ability to provide instruction and guidance on these concepts is a requirement. Teachers at WPS are proficient in technology integration in the classroom and can thoughtfully and purposefully engage students with various resources. Experience in the private school sector ideal. Minimum of Bachelor's in Physics required; Master's or Doctoral Degree as well as IB experience preferred.
