Student growth is a measure of how much students are learning each year. Each student receives a Student Growth Percentile (SGP) for English Language Arts/Literacy (ELA) in grades 4 through 8 and for Mathematics in grades 4 through 7 that explains their progress compared to students who had the same test scores in previous years.

A student's SGP falls between 1 and 99 and can be grouped into three levels: **Low Growth: Less than 35** **Typical Growth: Between 35 and 65** **High Growth: Greater than 65**

If the student growth percentiles for all students in the school are ordered from smallest to largest, the median student growth percentile (mSGP) for the school is the percentile in the middle of that list. Watch a short [video about Student Growth Percentiles](#) that explains how they are calculated for students and how median Student Growth Percentiles (mSGP) are calculated for groups of students.

Student Growth

This table shows the median Student Growth Percentile (mSGP) for both English Language Arts/Literacy (ELA) and Mathematics both overall and for each student group with comparisons to the district and the state. This table also shows whether each mSGP Met Standard (40-59.5) as required by ESSA accountability.

Student Group	ELA: School Median	ELA: District Median	ELA: Statewide Median	ELA: Met Standard (40-59.5)	Math: School Median	Math: District Median	Math: Statewide Median	Math: Met Standard (40-59.5)

English Language Arts/Literacy Assessment - Participation and Performance

This table shows information about the English Language Arts/Literacy section of the Partnership for Assessment of Readiness for College and Careers (PARCC) assessment both overall and by student group. The PARCC assessment has five performance levels, and students scoring a Level 4 or 5 (Met or Exceeded Expectations) have demonstrated readiness for the next grade level and are on track for college and careers. This table shows the number of valid test scores, the percentage of students that took the test, and the percentage of testers that met or exceeded expectations in the school, the district, and across the state. The last three columns of the table show the proficiency rate used for federal accountability, the annual target, and whether the target was met, as required by the Every Student Succeeds Act (ESSA) accountability. Student group rows where the annual target fields are grayed out are not required to meet annual targets under ESSA accountability. For more details on New Jersey's accountability system, see these [accountability resources](#).

NJASK Science Assessment Information

New Jersey transitioned from the NJASK to NJSLA-S in 2017-18 to align to new science standards. Results of field tests in 2017-18 will not be reported, but results of NJSLA-S will be added to the performance reports in 2018-19.

Student absences provide important information about a school's culture and climate. Research shows that absences impact a student's ability to succeed in school. The New Jersey Department of Education used input from New Jersey communities to select chronic absenteeism as its measure of school quality and student success for the ESSA accountability plan. **Chronic absenteeism** is defined as being absent for 10% or more of the days enrolled during the school year. A student who is not present for any reason, whether excused, unexcused, or for disciplinary action, is considered absent unless permitted by state statute or regulations.

Chronic Absenteeism

This table shows the number and percentage of students in grades K-12 both overall and by student group who were chronically absent during the school year. The last two columns show the chronic absenteeism state average for students in the grades offered and whether the rate for each student group was above the state average ("Not Met") or less than or equal to the state average ("Met").

The New Jersey Department of Education migrated to a new reporting system, the Student Safety Data System (SSDS), which includes improved definitions, new reporting fields, and updated guidance for reporting incidents. As such, comparing this year's report to previous years' data can lead to inaccurate conclusions in many reporting categories. As such, the 2017-18 report should be considered a baseline year.

Violence, Vandalism, HIB, and Substance Offenses

This table shows the number of incidents reported by type. A single incident may be counted under multiple incident types. The total unique incidents row provides an unduplicated count of incidents. The last row shows the rate of incidents for every 100 students enrolled.

School Day

This table shows the start and end times and length of school day for a typical student at this school. Instructional time is the amount of time that a typical student was engaged in instructional activities under the supervision of a certified teacher. Full time students attend this school for more than half of the school day and shared-time students attend the school for half of the school day or less.

Category	School
Typical Start Time	8:15 AM
Typical End Time	2:45 PM
Length of School Day	6 Hrs 30 Mins
Full Time - Instructional Time	6 Hrs 27 Mins
Shared Time - Instructional Time	6 Hrs. 27 Mins.

Device Ratios

This table shows the student to device ratio, which is the number of students in tested grades 3-11 per device. Devices are computers such as tablets, iPads, laptops and Chromebooks. The count includes only devices that meet nationally recommended specifications for digital learning in grades 3-11. This information comes from the elective NJTRAx survey, therefore data may not be available for all schools. Additionally, schools that have adopted a Bring Your Own Device policy may appear to have a very low Student to Device ratio due to this policy decision.

School Year	Student to Device Ratio

Per-Pupil Expenditures (District Level)

This table shows the total current expenses for regular and special education students taught within the district's schools. It includes expenditures for instruction, support services, administration, operations and maintenance, extra-curricular activities, and community service. More information about district and charter school spending can be found using districts' [User Friendly Budgets](#), or the NJDOE Finance [District Report Search](#) of the Comprehensive Annual Financial Reports (CAFRs) and Auditor's Management Reports (AMRs). NJDOE will be collecting school-level per-pupil expenditures data for the 2018-19 school year, and that data will be included in future reports.

New Jersey's school accountability system identifies schools that are in need of comprehensive and targeted support as required by the Every Student Succeeds Act (ESSA). For more information about New Jersey's accountability system, how indicator and summative scores were calculated, and how federal accountability status is determined, see these [accountability resources](#).

Comprehensive Status

This table shows whether this school is identified as requiring Comprehensive Support and Improvement during the 2019-20 school year and whether it will be eligible to exit comprehensive status in January 2021 or January 2022. Schools must meet exit criteria in order to exit status. Schools with a summative score in the bottom 5% of Title I schools or with a four-year graduation rate of 67% or less are identified as requiring Comprehensive Support and Improvement.

Requires Comprehensive Support during the 2019-20 School Year	Eligible to exit status in January 2021	Eligible to exit status in January 2022
No	n/a	n/a

Targeted Status

This table shows whether one or more student groups in this school has been identified as requiring Targeted Support and Improvement during the 2019-20 school year and whether each student group will be eligible to exit targeted status in January 2021 or January 2022. Schools must meet exit criteria in order to exit status. Student groups with a summative score that would be in the bottom 5% of schools and student groups that miss annual targets for all indicators for two years in a row are identified as requiring Targeted Support and Improvement. Note: Schools identified as requiring comprehensive support may have student groups identified as needing targeted support below, but the date they are eligible to exit status is based on their comprehensive status.

Accountability Indicator Scores and Summative Rating - 2017-18 School Year

New Jersey has developed a school accountability system as required by the Every Student Succeeds Act (ESSA) to identify schools that are in need of Comprehensive Support and Improvement. This table shows the indicator scores for each indicator included in the accountability system and the weight that each indicator receives when calculating the overall Summative Score. The Summative Rating is the percentile rank of the Summative Score as compared to other schools across the state. Schools with a summative score in the bottom 5% of Title I schools or with a four-year graduation rate of 67% or less are identified as requiring Comprehensive Support and Improvement. For more information about New Jersey's accountability system and how these indicator scores were calculated, see these [accountability resources](#).

Accountability Indicator	Score	Weight
English Language Arts Proficiency	88.57	17.5%
Mathematics Proficiency	85.55	17.5%
English Language Arts Growth	13.86	25.0%
Mathematics Growth	51.34	25.0%
Progress Towards English Language Proficiency	**	**
Chronic Absenteeism	55.10	15.0%
Summative Score: Sum of all indicator scores multiplied by indicator weights	55.03	n/a
Summative Rating: Percentile Rank of Summative Score	57.41	n/a
Requires Comprehensive Support: Summative Rating is less than or equal to 5 th percentile	No	n/a

Accountability Summary by Student Group - 2017-18 School Year

New Jersey has developed a school accountability system as required by the Every Student Succeeds Act (ESSA) to identify schools that are in need of Targeted Support and Improvement. Any student group where the summative score would be in the bottom 5% of schools is identified for Targeted Support for a Low-Performing Student Group. Any student group that has missed annual targets for all indicators two years in a row is identified for Targeted Support for a Consistently Underperforming Student Group. In the table below, schools in which one or more student groups are identified for Targeted Support will be noted in the Schoolwide row. Annual targets for proficiency and graduation rate were set based on a school or student group's performance in 2015-16. The target for chronic absenteeism is the state average for chronic absenteeism based on students enrolled in the grades served by the given school. For more details on accountability targets, see these [accountability resources](#).

Courses, Curriculum, Instruction:

We offer a well-balanced program of instruction consistent with the NJ Student Learning Standards. We provide advanced courses in Math and English, such as Honors Geometry and Honors Algebra and Honors English; and an opportunity for our students to excel in any one of five available languages, which include French, Spanish, Latin, Italian, and Chinese. To help complement our program, each academic teacher also provides two days per week of extra-help after school.

Sports and Athletics:

Sports Offered: Baseball (Boys), Basketball (Boys & Girls), Cheerleading (Girls), Cross Country (Coed), Field Hockey (Girls), Soccer (Boys & Girls), Softball (Girls), Tennis (Coed), Track and Field - Spring (Coed), Track and Field - Winter (Coed), Wrestling (Boys)

Our school shares a campus with Holmdel High School, as such, our athletic facilities are many, varied and of a high quality, with major renovations and expansions underway as part of the Holmdel 2020 Initiative.

Clubs and Activities:

Extra-curricular offerings include a variety of clubs, such as the Youth Alliance, the Student Ambassadors, the Technology Student Association, Yearbook, Student Council, or our school's newspaper, the William's Pen. Students can also join any one of our service organizations, such as Bridges and the Builder's Club or compete in any one of our academic competition groups, such as, Battle of the Books, the Geography Bee, the Science Olympiad, the Math League, or the Future City Engineers.

Before and After
School Programs:

Our zero-period program, open to all 7th and 8th graders, gives students an opportunity to participate, voluntarily, in a variety of activities before the start of school's academic day. During zero-period, students can sign up for Chorus, Concert Band, Harmony Bell Ringers, or Jazz Band. Having these activities meet before the academic day eliminates competition with other subjects and gives our students the opportunity to participate in these activities freely.

Staff and Professional
Learning:

The Holmdel School District is dedicated to the formation of Professional Learning Communities throughout the district by providing time, resources, and support to faculty. As a result, Professional Learning Communities share the responsibility for the total development of students and make a commitment to making significant and lasting change in the classroom.

Student Supports and Services:

Student support services are designed to maximize student success in the general education program and on state assessments required for graduation. We offer a wide range of educational programs and/or related services all in accordance with individual needs of the student. This is done by cultivating an educational setting that not only provides students with enriching learning experiences, but also ensures that any accommodations needed are consistent with state law, as well as the identified needs of the student.

Student Health and Wellness:

Health and Physical Education in the Holmdel Township Public Schools is intended to provide the student body with a firm foundation of knowledge that promotes desirable health attitudes and practices. Through a multi-faceted program, which is an integral component of the entire curriculum, Health and Physical Education provides students intellectual, physiological, emotional and social dimensions relating to the decisions that affect their personal, family and community well-being.

Parent and Community Involvement:

The Satz School Parent Support Group (PSG) acts as liaison between parents, students, and staff at the Satz School. Their purpose is to raise funds to enhance the learning experience of our students. PSG members plan many events throughout the year such as dances, assembly programs and luncheons. Our PSG has also raised funds towards new technology, as well as classroom enhancements.

School Safety:

The health and safety of all students, staff, and community members are critically important. All students and staff comply with safety procedures at all times and in all building localities. Classrooms, labs, shops and locker rooms have established procedures that are routinely followed. Where special equipment is used, safety is the first priority. Protective equipment is used on a regular basis due to board policy and state code. Safety measures are consistently observed when utilizing outside facilities.

Technology and STEM:

Our technology courses prepares students to live and work in the 21st century through the integration of science, technology, engineering, and mathematics (STEM). By combining the current Technology Education Program with an emphasis on STEM, students gain an even broader exposure to current trends in Technology Literacy and Education. In class students create technology portfolios and design projects through the use of lab activities that showcase their mastery of the technology literacy standards required by the New Jersey Department of Education.

Other Information:

At William R. Satz, we offer a comprehensive and caring educational environment that is consistent with the objectives and goals promoted by the district, as well as with the current trends in education. Our program is designed to not only promote cognitive and affective growth, but to also expand the self-confidence of our students and increase their positive feelings toward learning. Interwoven in the fabric of our learning experience is an atmosphere that encourages students to think as a global family where the uniqueness of each individual student is celebrated. Having students from diverse backgrounds, working together and participating in co-curricular programs and/or activities on a regular basis promotes multicultural respect, understanding, cooperation and tolerance. Everyone at Satz, from the administration to the teaching and support staff, is committed to the continued growth and development of the youngsters entrusted to our care. There is no greater responsibility than making sure the students we work with are developed into responsible, resourceful, and respectful citizens, who are life-long learners. Please feel free to peruse our web site, read our daily bulletin, and learn more about our day-to-day operations and what life at the Satz School is truly like. After you do, I am sure you will agree that the Satz School is a great place for students to develop, learn, and grow.
