WELCOME TO LAKELAND JT SCHOOL DISTRICT

With the generous support of the patrons of the Lakeland Jt. School District, we are able to offer full day kindergarten for all of our kindergarten students. The additional time allows us to explore, inquire, and problem-solve rather than simply memorize, which has drastically increased the achievement levels of our kindergarteners!

In addition to the academic learning, your child will learn how to work collaboratively with his/her peers and will become an important member of his/her classroom community. You will be amazed at all that your child will learn next year!
