

AP Physics 1
AP Physics 1 Summer Assignment
2019-2020 A.D.

There isn't enough time in the regular school year to cover all the material—content and skills—in the AP Physics C course. You are already familiar with the idea of a "summer reading assignment" for other classes, perhaps. In the same way, spending 4-5 hours this summer preparing for your study of physics will:

- give us a head start on the course material,
- provide us with a little more time to spend on the more difficult material later on in the year,
- slow the pace of the course during the school year, and
- reduce some of the time-related stress that tends to build up during the regular school year.

Instructions

- Google** • Go to classroom.google.com.
- Classroom** • Log in with your "@mail.strakejesuit.org" email account.
- At the top, click Add+ > Join class.
- Enter the class code: 9gboufp
- Go to the AP Physics 1 Google Classroom website
- At the top, click Coursework->Unit 0: Summer Assignment->AP Physics 1 Summer Assignment->AP Physics 1 Summer Assignment.pdf
- This document will guide you through all the steps you need to complete the necessary steps to complete the AP Physics 1 Summer Assignment and prepare for AP Physics 1 in the fall.
- Completing the 1D Kinematics Practice Test is **mandatory** in advance of beginning the class; after reviewing and practicing the material in class, there will be an exam shortly into the school year.
- If you have any questions or are having problems accessing the material, please email the instructor at sberger@strakejesuit.org
