## **Approval of Nov Minutes**

Unanimous approval

## **SIP Update/Financial Report**

Spending continues to be in line with our current SIP plan.

## **Professional Development**

We discussed the additional money will be getting next year and how we would like to spend it. We looked over the numbers and the proposal that Jennie DeFreiz sent to spend more money on Professional Development for the teachers and staff specifically on the LEAN program. Overall the committee liked the idea of investing in our teachers but would like some more specific information on this program before making any decisions as well as some input from the teachers. This topic will be addressed again next month.

## **Input from Teachers**

Ashleigh brought feedback for grades 3<sup>rd</sup>-6<sup>th</sup>. Third grade is requesting throwable microphones. Fourth grade would like a computer mouse for each student and some science curriculum. Fifth may also want some science curriculum and math manipulatives.

Jen told Cassidy that most of the lower grades would like to purchase educational apps for their classroom devices.

## **Other Topics**

Will the government shut down affect Title One funding?

Can we use any LandTrust or Title One funds to pay for extra crossing guards?

Can volunteers park in the faculty parking lot during daytime hours?

## **Future Agenda Items**

Professional Development.
