Source	I-Tunes app store
Cost	\$59.99
Intended Use/Skill	Speech app for increasing speech production skills for children with articulation or phonological delays.
Target Age	Early Childhood, Elementary School, Jr. High School
<p>Summary of Program: Articulation Station Pro by Little Bee Speech is a Speech app used to facilitate speech production in children who demonstrate sound omissions, substitutions, or distortions in speech. Target sounds may be practiced at the word level, phrase level, sentence level, and story level. The comprehensive list of target sounds for practice include: P, B, M, H, W, Y, D, N, T, K, G, NG, F, V, CH, J, L, R, S, Z, SH, TH. There is also an option for speech production practice in the area of phonology for speech patterns based on phonological processes or phonological delay. (ex. final consonant deletion, cluster reduction etc..).</p>
