Subject: Quantity Purchasing

P3312

**Board Policy
Milford Public Schools
Milford, CT**

Quantity Purchasing

To help achieve both quality control and the price advantages of quantity purchasing, the administration is encouraged to:

1. Set specifications for goods and services as needed.
2. Cite several existing, commercially available "standard brands" that meet those qualifications acceptable as examples.
3. Invite and/or advertise for vendors to bid on those examples, or comparable ones which the vendors believe to be acceptable according to the specifications.
