

Dear Rising 3K Families,

We are so excited about next year! We know that the anticipation of a new school can be overwhelming, so we wanted to share some suggestions about things to do to help with the transition into preschool.

- 1) Get your child outside to play! Limit screen time and encourage activities that cross the midline to foster brain development. (See our Play: Fostering Brain Development Choice Board below and complete as many activities as you can!)
- 2) Take advantage of the public library- it is your best friend! They have a wonderful summer reading program. This is a fabulous opportunity for your child to get his/her very own library card! The book selection is incredible and the program is free!
- 3) Read aloud often with your children- daily is best- be sure to include books about preschool and talk about the characters feelings. "The more things you read, the more things you know, the more that you learn, the more places you'll go!"- Dr. Seuss
- 4) Make a game out of self-help skills! Have your child practice things like putting on/off and unzipping his/her coat, using the potty by him/herself including pulling pants up and down and wiping, putting their shoes on, go on a picnic with your child and have him/her unpack his/her lunch box, and practice drinking water from a cup without spilling.
- 5) Use your imagination, be creative, and talk together!

We hope you have a wonderful summer. We are looking forward to a fun filled year with your child!

Love,

The 3K Team
