

AP Human Geography Summer Work 2019-2020

Over the course of this summer, you are to read the book *Zeitoun* by Dave Eggers. You should annotate as you read. After you have read, you are to write a 3-4 page paper reflecting on one of the the themes of the book: environmentalism, religion, war, immigration, economics, or justice.

Your paper needs to incorporate both research and an analysis of *Zeitoun*. You will choose one of the above themes, and research the way they manifested during Hurricane Katrina on both a local level and on a regional level.

Besides the book *Zeitoun*, you also need three other sources cited in the paper. A good place to start is the end of the book, where Eggers lists his own “works cited.”

This paper is due on the first day of class. It needs proper MLA format, spelling and grammar. You will be graded on your analysis, research, and formatting. Use the rubric below to guide your writing.
