Ms. Johnson asked the Board to approve the resolutions.

3.2 Child Care

Brian Moore, Assistant Superintendent of Elementary Education, reported the transition between Champions and Boys and Girls Club continues to go smoothly. Both child care providers have worked together to ensure there will be no interruption in services for students and families. The Boys and Girls Club is currently completing their licensing process for all sites. Five sites have been state licensed (Lewis and Clark, Tapteal, Orchard, White Bluffs and Jason Lee). The Boys and Girls Club anticipates four additional sites (Marcus Whitman, Badger Mountain, Sacajawea, and Wiley) will be licensed as of August 10, 2018. The only sites that remain are Jefferson and the Early Learning Center (due to construction and portable negotiations). It is expected that both of those sites will be licensed by the end of the month.

Mr. Moore reported the acquisition of the portables from Champions has been delayed due to a few communication and negotiation issues between the child care providers. They anticipate this will be complete by the end of the month. He reported the Boys and Girls Club programs will open inside the schools at all sites (using mainly multi-purpose rooms). This should not have any negative impact to families, students, or interrupt the services provided. Once the portable negotiations are complete between Champions and Boys and Girls Club, some sites will return out to their portables. Some sites may stay inside the multi-purpose rooms (for various site specific reasons).

3.3 Special Education Program Review Update

Mandy Cathey, Executive Director of Special Education, provided an update regarding the comprehensive program review conducted by Education Development Center (EDC) during the 2017-2018 school year. EDC collected District, state, and national data; examined District documentation; interviewed approximately 75 central office and school level staff and families; and visited ten schools. They also communicated with staff and families via email. The lead auditor returned to the District and presented an overview of the program observations and recommendations to administrators, special education staff, and parents in three different sessions. Ms. Cathey advised this is the first of many updates that will come over the course of the next three

to six years as the planning process begins to formally address the observations and recommendations in the program review.

Mr. Jansons reported attending the parent presentation and recommended a workshop be scheduled to review the program recommendations.

Public Comment:

Ken Hayes, address above, stated his concerns regarding the review as it did not mention that the District was understaffed and blamed certain issues on negotiated contract language.

Mr. Jansons stated he didn't feel the review came across as negative towards unions.

3.4 Curriculum Audit Update

Nicki Blake, Executive Director of Teaching, Learning and Curriculum, provided an update regarding the comprehensive curriculum audit that was conducted by Phi Delta Kappa in February, 2018. Five audit team members visited every school and classroom in the District. Additionally, they interviewed a wide range of District stakeholders including school board members, administrative team, principals, teachers, support staff, community members and parents. Ms. Blake advised the District is in the beginning stages of planning to create a three to six year plan for addressing curriculum findings and recommendations. She emphasized it is important to recognize that current District initiatives are in alignment with many of the areas of focus in the audit.

Board members requested a workshop on the curriculum audit document. The workshop will take place after school hours as there was interest from staff members to attend. This document, as well as the Special Education Program review, is available on the district website.

3.5 Digital Citizenship Committee Update

Nicki Blake advised the Digital Citizenship Committee completed their work on a K-12 scope and sequence of standards for the review and recommendation of instructional materials to support digital citizenship, media literacy, and internet safety. Also included with the final document is a timeline for gathering public feedback, a proposal for teacher professional development, and a recommended calendar of family/community educational topics to be distributed on a monthly basis over the course of the school year. This was a very thorough and rigorous process.

Paul Chartrand, Director of Innovation and Technology, reported an application process took place, with Richland and Hanford High Schools receiving grants implementing technology into the classroom. The process has begun with core teams being trained, who will then in turn, train others in their building.

Ms. Blake stated, in talking with OSPI, Richland is ahead of most districts. The Digital Citizenship document will be adopted at the last meeting in October. Board discussion followed.

3.6 Start of School/All Administrative Meeting Update

Dr. Nicole MacTavish, Successor Superintendent, reported Teaching and Learning is one of the departments that works at top speed throughout the summer to ensure that everything is in place for a smooth start to the beginning of the next school year. This year was particularly busy as a new school and a new Early Learning Center were opened, as well as numerous new classrooms across

the District. In addition, the District is entering the first year of our *Innovate! RSD* technology work and adding much needed mental health supports at the elementary level.

Dr. MacTavish advised there are 11 unfilled positions, with interviews ongoing. The unfilled positions consist of one fourth-grade teacher, four secondary teachers, and five special education teachers. There are also two unfilled school psychologist positions. The District opened 24 new classrooms this year, and purchased and distributed curricular materials for all of them. There were 88 new hires who received two full days of training and were assigned mentors to help ease their transition to a new district and new position.

The new Early Learning Center is open and ready to serve students and families. We will be offering 24 sections of half-day preschool with 315 students enrolled at this time. Other topics discussed were the two-day Administrative Retreat with the theme for the year of *Excellence in First Time Instruction*, the new School Psychology Model, and technology program *Innovate! RSD*.

Finally, to help communicate with families, our new Public Information Officer, along with the Executive Director of Information Technology and the Director of Innovation and Technology, are compiling a Frequently Asked Questions document which will soon be available on our website.

3.7 Budget 2018-2019

Board members reviewed the budget worksheets for revenues and expenditures as well as beginning and ending fund balances. The worksheets include comparisons of two years of actual revenues and actual expenditures for 2015-16 and 2016-17, and the budgeted revenues and budgeted expenditures for 2017-18 compared to the budget for 2018-19.

Mr. Jansons suggested a workshop be scheduled prior to the next Board meeting to review the 2018-2019 budget document. A special meeting will be scheduled for August 23, 2018. The budget will need to be approved at the August 28, 2018 meeting.

3.8 Annual Board Agenda Schedule

Dr. Schulte shared the first version of the annual Board agenda schedule. This is always a work in progress that will be adjusted as the year proceeds and both timelines and topics are moved, added, or subtracted. Board members were invited to give input on additional topics they would like to see placed on the agenda. One purpose of the annual agenda is to provide advance notice to responsible administrators so they know when to prepare for a Board agenda topic. A second purpose is to schedule agendas such that no meeting is excessively long and none is too short or empty.

3.9 Communications Plan

Ty Beaver, Public Information Officer, advised the District faces numerous challenges regarding its communications and updates are required to meet District goals and the needs of families, staff and community members. Mr. Beaver stated urgent issues concern District and school websites and internal communications. Websites need consistency for easier navigation. The communications department is developing plans and strategies to address these issues.

Public Comment:

Cassidy Gaul, address above, stated transparency will help build good will within the community.

3.10 Superintendent Evaluation

Dr. Schulte explained the Superintendent contract calls for an annual evaluation by the Board once each calendar year. As in the past, the Board has met in executive session to discuss what to include in the Superintendent evaluation. The Board typically delegates writing a narrative evaluation to one of the Board members. Once all Board members are satisfied with the written evaluation, a copy is given to the Superintendent. Then the Board meets with the Superintendent to review the written document. Mr. Jansons asked all to work on their comments and bring to the next Board meeting.

4.0 CONSENT AGENDA (approval by a single vote of the Board)

It was moved by Rick Donahoe and seconded by Brett Amidan –
