

## **TAFT Laptop Program (2019-20 Academic Year)**

Taft recognizes that computers are an integral tool for learning and success throughout the campus, in the classroom, the library, the dorm, the science center, or on the Jig Patio. Taft requires each student to have a laptop computer. In order to make selection easier for parents and students, we are offering an optional school laptop program. Our goal is to provide better service for our students, while they are away from home, and to bring peace of mind for their parents. Our package is designed to meet all the computing needs of students during their time at Taft. Each package includes 3-Year Extended Warranty & 3-Year Full ADP Insurance & McAfee Anti-Virus Software. Taft's laptop program also includes complete on-site support with loaner laptops available when off-site repair is necessary.

**For more information, contact [LaptopProgram@taftschool.org](mailto:LaptopProgram@taftschool.org)**
