Dear Parent or Guardian:

Every year all students are considered for identification as Talented and Gifted in Beaverton School District. These services are usually provided within the classroom by the teacher(s). In accordance with Oregon law, District policy defines gifted students as those who score at or above the 97th percentile on a standardized, nationally normed test of mental ability and/or academic achievement. Behavioral, learning, and/or performance information is also considered before a student is identified for TAG services.

In accordance with OAR 581-022-1310, our District is also committed to efforts in the identification of students from ethnic minorities, students with disabilities, and students who are culturally different or economically disadvantaged.

If you think your child might exhibit qualities that typically are used to describe giftedness, you may wish to complete the attached Parent Information Form. Because we believe that parents are excellent observers of their child's potential, we invite your input into this nomination process. This parent form is based on the Kingore Observation Inventory that is used by classroom teachers in the fall for a six-week period of time. Circle those characteristics that describe your child and provide supporting examples whenever possible. While completing this form does not guarantee that your child will be tested, it will give our school's TAG committee valuable additional information in the nomination process.

Upon receipt, your completed form becomes part of the school's identification process. Parents will be notified regarding testing eligibility, and the required permission form will be sent to parents prior to testing. Testing can begin as early as mid-November, and identification is usually completed within six weeks.

The attached Parent Information Form may be completed and returned to our school's TAG facilitator, \_\_\_\_\_, or the school's office. Should you have questions regarding the identification process, you are invited to talk with the school's TAG facilitator.

Sincerely,

School TAG Committee
