Other Course Information

COMPLETING THE COURSE

- Complete the course by moving through the activities, video lessons, quizzes, and tests.
- Reference your “Assignment Calendar” inside of the “Organizer” tab and the “Course Map” at the bottom of the Lobby screen every time you log in to see where you are in the course. Do NOT get behind!
- Remember that quizzes and tests are timed, so make sure you set aside enough time before beginning a test.
- You will have two opportunities to pass quizzes and tests at 60%. If you score below 60% on the two attempts, you will need to contact your instructor for further instructions.
- Your “Course Completed” must be 100% to earn credit in the course.
- Your actual grade must be 59.5% or above to earn a passing grade in the course.

GRADES

- **ACTUAL GRADE** is your current real grade used for Progress Reports. This grade considers both the cumulative grade earned on completed tasks, as well as whether you are on track to complete the course on time. If you are behind, tasks you should have completed at this point are counted as zeros.
- RELATIVE GRADE is the grade calculated with zeros for all tasks that have not been completed. This grade should improve with each task you finish. This is NOT the most accurate score.
- OVERALL GRADE is the grade you have earned on only your completed tasks. In other words, it shows the quality of your work so far. It does NOT consider whether you are on track in regard to completing the course. This is NOT the most accurate score.

PROGRESS REPORTS

- Remember to only look at the ACTUAL GRADE and progress complete.
- Progress reports will be emailed to parents on a weekly basis.
- Students can check progress and grades in the “Lobby” at any time.
- All questions about grades/progress, please contact your instructor.

NOTES

- You will need to take NOTES throughout the course, especially on the videos and the lesson content.
- You can take notes using a pen and paper in a notebook, or there is a section in Edgenuity called e-notes where you can type in notes. It has many word processing features to use for your notes.
- You are allowed to use notes on quizzes and tests, so notes are not optional in this class.
- You do not get to use notes on the final exam.
- Remember, you can pause and rewind the videos and much as you like to take as many notes as you wish.
