Adopted:

STUDENT TRANSPORTATION SERVICES

Special Education Students

The Director of Special Education will deliver to the Transportation Division a listing of students, addresses, telephone numbers, and schools they will attend at least 20 working days prior to the first day of school.

The Director of Special Education will request transportation on special education Form F at least three days prior to the initiation of the required service.

Private transportation by parents may be reimbursed if this method is more feasible in providing the special child access to a special education class or service. Determination in such cases will be made by the Manager of Transportation Services, Director of Special Education, and Supervisor of Pupil Accounting.
