Adopted: May 28, 1992

PROFESSIONAL STAFF FRINGE BENEFITS

Colorado State Workers' Compensation

In order to receive the workers' compensation benefits, injured employees are required to report the injury to their immediate supervisor. Within four days after the injury occurred, the employee must report to the insurance office and complete a written statement of injury. For non-severe injuries, the reports and written statement must be completed prior to visiting a physician for the injury.

The insurance office shall file completed, written reports of injury with the School District's workers' compensation carrier.
