July 2019

Dear Fremont High School Families,

The Fremont Union High Schools Foundation, Fremont PTSA and Fremont Athletic Boosters have sponsored this summer mailing to the Fremont community with information and forms that provide you with the opportunity to learn more about and to donate to each of these groups in support of our school and our students.

Your donations of money and time are a crucial part of maintaining the range of opportunities that students are able to experience here at Fremont and they are sincerely appreciated. While the Fremont Union High School District is proud to be able to offer an impressive range of curricular offerings and services at all five high schools, including here at Fremont, there are additional opportunities for students that simply would not be possible without the funds raised by the FUHS Foundation, PTSA and our many booster groups. Please review the enclosed materials for more information about each of the critical groups that support our students and staff, which make a real difference in the lives of our students.

Thank you for any investment you are able to make in our school community and students.

Sincerely,

Bryan Emmert
Principal
