

Blended Learning

AccelerateU Classroom, 2019-20

In addition to offering 200+ online courses using our teachers, AccelerateU also offer a **blended learning option** – using your teacher as the “teacher of record”.

Using a district teacher and AccelerateU's content, training, system and support, we can partner with you to offer students a turnkey, fully-supported online or blended course.

This option is limited to twelve (12) students per section.

We call this blended learning option the "**AccelerateU Classroom**".

AccelerateU Classroom includes:

- Training in our systems (orientation and follow up sessions)
- Orientation sessions for students
- Guidance and technical support
- Opportunity to network with other online teachers

Cost: \$2,670 per semester course (12 students maximum per section)
