School Accountability Report Card, 2010–2011  
Alum Rock Union Elementary School District

This School Accountability Report Card (SARC) provides information that can be used to evaluate and compare schools. State and federal laws require all schools to publish a SARC each year.

The information in this report represents the 2010–2011 school year, not the current school year. In most cases, this is the most recent data available. We present our school's results next to those of the average elementary school in the county and state to provide the most meaningful and fair comparisons. To find additional facts about our school online, please use the [DataQuest](#) tool offered by the California Department of Education.

Please note that words that appear in a smaller, bold typeface are links in the online version of this report to more information. You can find a list of those linked words and their Web page URLs at:

[http://www.schoolwisepress.com/sarc/links\\_2011\\_en.html](http://www.schoolwisepress.com/sarc/links_2011_en.html)

Reports about other schools are available on the [California Department of Education Web site](#). Internet access is available in local libraries.

If you have any questions related to this report, or would like to request a hardcopy version, please contact our school office.

# James McEntee Academy

School Accountability Report Card, 2010–2011  
Alum Rock Union Elementary School District

## » Principal's Message

James McEntee Academy has a strong academic focus on promoting success. I have high expectations and have set a goal of a 900 API for the coming year. The dedicated and committed staff creates a nurturing environment for learning. The teachers' compassion, creativity and enthusiasm are evident in the classrooms where each student is encouraged to build on his/her strengths, find a love of learning, and develop personal responsibility. The staff provides many academic interventions and enrichment opportunities to best serve all students throughout the year and not just towards the end of the school year. We believe in earlier interventions to support students rather than waiting for interventions to be done later.

A home school connection is essential for student success. McEntee focuses on getting parents/guardians actively involved in the classroom and on campus. There are monthly parent meetings at which the school community is invited and the Principal/ Academic Dean provide the community input and an opportunity for brainstorming and exchange of ideas to best serve our students. Working together will help us reach 900. We cannot do it alone!

McEntee Academy is a Science and Technology focus school. Every classroom is equipped with a Promethean Board which is an interactive white board that allows students visual and hands-on experiences as they master the California State Academic Standards. This latest technology takes our students beyond the classroom walls and provides them with many opportunities to collaborate with their peers, businesses and other countries. Students are engaged and actively involved in their learning using the Promethean Board.

Implementation of a comprehensive literacy program, The 100 Book Challenge, gives students time to read books at their reading level and of their choice for 100 minutes per week. This incentive-based program helps create a love of reading environment on campus. The 100 Book challenge books are leveled books which provides students with an opportunity to feel successful as they read books at their own reading level.

Sylvia Villareal, PRINCIPAL

## School Expenditures

Numerous services are provided by the general education program to enable under-performing students to meet standards. Intervention programs are available for all grade levels in reading language arts, math and science. After school and Saturday intervention sessions are offered to enable under-performing students to meet grade level standards. Additional instructional time for students who are performing two or more levels below their current grade is available for students who need more support.

Students are leveled for English Language Development instruction within each grade to provide focused instruction at each student's language acquisition level.

The Student Study Team (SST) meets regularly to support teachers in meeting the needs of under-performing students.

The federal and state governments provide the schools with some funding to support students who are English language learners or who may be performing below grade level. Several services are provided through state funding to enable under-performing students meet standards. The interventions (before and after school, Saturday Academies, etc.) are paid for using state and federal funds.

A three-tier program, homework center, recreation, and multi-cultural art enrichment, are provided through the City of San Jose and YMCA. The program serves 100 students for three hours each day (City Homework Grant).

A Science Resource Teacher is funded through federal funds to teach third, fourth and fifth grade students and to provide them with hands-on scientific learning experiences.

## Safety

McEntee Academy has a comprehensive school safety that outlines protocols, systems, and procedures in the event of any/all emergencies. The plan contains safety goals as determined by the students, staff, and parents and is revised annually. The safety plan is developed by the McEntee Safety Committee before it is presented to the Alum Rock Union Elementary School District Board of Trustees for annual approval. The revised plan was last approved in April 2011. The Safety Plan and drill procedures are reviewed during the year with all staff. Safety alerts are shared with all staff as needed throughout the school year. In addition, all required drills are calendared and completed, and the results are provided to the staff.

The McEntee School Safety Plan has a comprehensive, enforceable, and continuous behavior policy, set of rules and regulations, dress code policy, set of protocols for safety/emergency drills, tardy policy, attendance policy, referral policy, non-discriminatory policy on student rights and responsibilities, campus security policy, harassment policy, conflict management policy, Internet safety policy, and an intervention policy.

## Buildings

The District makes every effort to ensure all schools are clean, safe, and functional. To assist in this effort, the district uses a facility survey instrument developed by the State of California Office of Public School Construction. The results of this survey are available at the school and district offices.

The building in which McEntee resides was built in 1956. School facilities are being renovated according to the Field Act requirements of the State Building Code with a focus on earthquake safety. In the event that asbestos and lead containing building materials are found, they are removed according to Environmental Protection Agency (EPA), State, and Local requirements. Deferred maintenance funds have been used to properly maintain and renovate district buildings. Needed repairs and maintenance projects are completed in a timely manner.

McEntee's facilities are upgraded as necessary to support and maintain a safe, clean and secure campus. Sufficient classroom, office, library, playground, staff space, and restroom facilities are allocated to support stakeholders' needs and the instructional program. The Alum Rock School District Maintenance and Grounds staff, in conjunction with day and night custodians, ensure the school buildings and grounds are safe, clean, and in good repair. Rigorous daily custodial schedules ensure that classrooms, lavatories, serving kitchens, eating areas, offices, and playgrounds are clean for both student and staff use. Regular oversight by district maintenance and grounds crews ensure that grass and landscaped areas are well maintained, and that the school's buildings, grounds and play areas are safe for use.

## Parent Involvement

James McEntee values and includes stakeholders in all facets of the educational process. To encourage parent participation, McEntee maintains a system of open two-way communication and employs a variety of ways to increase stakeholder communication. Not only is the School Accountability Report Card (SARC) available on

the district's website, but pertinent school information, including results of the school evaluation process, school data, and school programs are also available to parents in the Principal's Newsletter, which is written in multiple languages. Because parent and community participation is essential to student achievement, McEntee Academy provides a number of parent and community involvement opportunities. Monthly Friday morning meetings (Principal-Parent coffee) encourage parent participation. With the School Board Policy requiring 30 hours of parent volunteering time per family in the child's classroom/school, many parents have come forward and are helping teachers in the classroom(s) and outside the classroom as well. Numerous parents chaperone on field trips, help implement the Fruit and Vegetable program, support fundraising and participate in other school events.

School Site Council Meetings and English Language Advisory Committee meetings are held monthly and are open to all of the parents and guardians of McEntee students.

For more information, please contact the Principal, Sylvia Villarreal, or Dean of Academic Affairs, Swati Dagar, at 408-928- 8850.

**MEASURES OF PROGRESS**

**Academic Performance Index**

The Academic Performance Index (API) is California’s way of comparing schools based on student test scores. The index was created in 1999 to help parents and educators recognize schools that show progress and identify schools that need help. It is also used to compare schools in a statewide ranking system. The California Department of Education (CDE) calculates a school’s API using student test results from the California Standards Tests and, for high schools, the California High School Exit Exam (CAHSEE). APIs range from 200 to 1000. The CDE expects all schools to eventually obtain APIs of at least 800. [Additional information on the API](#) can be found on the CDE Web site.

James McEntee Academy’s API was 850 (out of 1000). This is an increase of 15 points compared with last year’s API. All students took the test. You can find three years of detailed API results in the Data Almanac that accompanies this report.

**API RANKINGS:** Based on our 2009–2010 test results, we started the 2010–2011 school year with a base API of 835. The state ranks all schools according to this score on a scale from 1 to 10 (10 being highest). Compared with all elementary schools in California, our school ranked 7 out of 10.

**SIMILAR SCHOOL RANKINGS:** We also received a second ranking that compared us with the 100 schools with the most similar students, teachers, and class sizes. Compared with these schools, our school ranked 9 out of 10. The CDE recalculates this factor every year. To read more about the specific elements included in this calculation, refer to the [CDE Web site](#).

**API GROWTH TARGETS:** Each year the CDE sets specific API “growth targets” for every school. It assigns one growth target for the entire school, and it sets additional targets for ethnic groups, English Learners, special education students, or socioeconomic subgroups of students that make up a significant portion of the student body. Schools are required to meet all of their growth targets. If they do, they may be eligible to apply for awards through the California School Recognition Program and the Title I Achieving Schools Program.

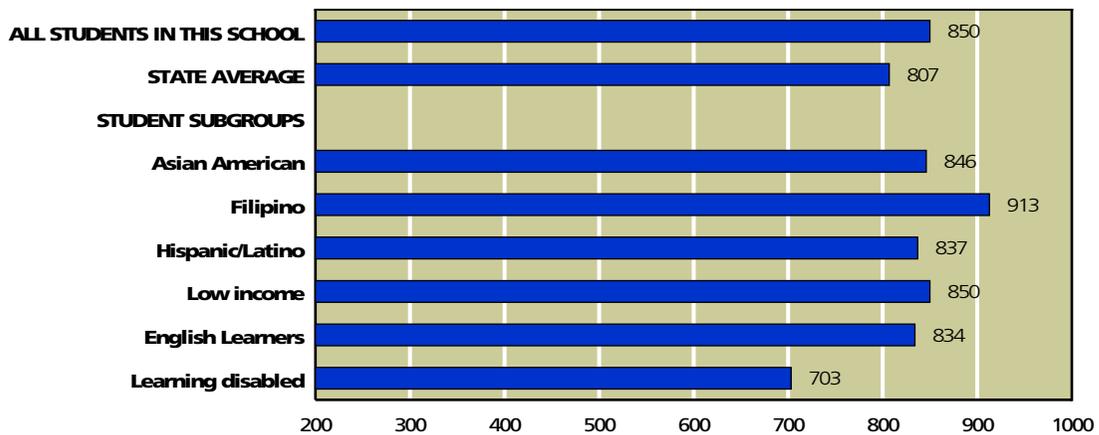

We met our assigned growth targets during the 2010–2011 school year. Just for reference, 64 percent of elementary schools statewide met their growth targets.

CALIFORNIA <b>API</b> ACADEMIC PERFORMANCE INDEX	
<b>Met schoolwide growth target</b>	<b>Yes</b>
<b>Met growth target for prior school year</b>	<b>Yes</b>
<b>API score</b>	<b>850</b>
<b>Growth attained from prior year</b>	<b>+15</b>
<b>Met subgroup* growth targets</b>	<b>Yes</b>

SOURCE: API based on spring 2011 test cycle. Growth scores alone are displayed and are current as of November 2011.

\*Ethnic groups, English Learners, special ed students, or socioeconomic groups of students that make up 15 percent or more of a school’s student body. These groups must meet AYP and API goals.  
R/P - Results pending due to challenge by school.  
N/A - Results not available.

**API, Spring 2011**

SOURCE: API based on spring 2011 test cycle. State average represents elementary schools only.  
NOTE: Only groups of students that represent at least 15 percent of total enrollment are calculated and displayed as student subgroups.

### Adequate Yearly Progress

In addition to California’s accountability system, which measures student achievement using the API, schools must also meet requirements set by the federal education law known as **No Child Left Behind** (NCLB). This law requires all schools to meet a different goal: **Adequate Yearly Progress** (AYP).

We met all 17 criteria for yearly progress. As a result, we succeeded at making AYP.

To meet AYP, elementary schools must meet three criteria. First, a certain percentage of students must score at or above Proficient levels on the California Standards Tests (CST), the California Modified Assessment (CMA), and the California Alternate Performance Assessment (CAPA): 67.6 percent on the English/language arts test and 68.5 percent on the math test. All ethnic, English Learners, special education, and socioeconomic subgroups of students also must meet these goals. Second, the schools must achieve an API of at least 710 or increase the API by one point from the prior year. Third, 95 percent of the student body must take the required standardized tests.

If even one subgroup of students fails to meet just one of the criteria, the school fails to meet AYP. While all schools must report their progress toward meeting AYP, only schools that receive federal funding to help economically disadvantaged students are actually penalized if they fail to meet AYP goals. Schools that do not make AYP for two or more years in a row in the same subject enter **Program Improvement** (PI). They must offer students transfers to other schools in the district and, in their second year in PI, tutoring services as well.

FEDERAL <b>AYP</b> ADEQUATE YEARLY PROGRESS	
<b>Met AYP</b>	<b>Yes</b>
<b>Met schoolwide participation rate</b>	<b>Yes</b>
<b>Met schoolwide test score goals</b>	<b>Yes</b>
<b>Met subgroup* participation rate</b>	<b>Yes</b>
<b>Met subgroup* test score goals</b>	<b>Yes</b>
<b>Met schoolwide API for AYP</b>	<b>Yes</b>
<b>Program Improvement school in 2011</b>	<b>No</b>

SOURCE: AYP is based on the Accountability Progress Report of November 2011. A school can be in Program Improvement based on students’ test results in the 2010–2011 school year or earlier.

\*Ethnic groups, English Learners, special ed students, or socioeconomic groups of students that make up 15 percent or more of a school’s student body. These groups must meet AYP and API goals. *R/P* - Results pending due to challenge by school. *N/A* - Results not available.

## STUDENT ACHIEVEMENT

Here you'll find a three-year summary of our students' scores on the California Standards Tests (CST) in selected subjects. We compare our students' test scores with the results for students in the average elementary school in California. On the following pages we provide more detail for each test, including the scores for different subgroups of students. In addition, we provide links to the California Content Standards on which these tests are based. If you'd like more information about the CST, please contact our principal or our teaching staff. To find [grade-level-specific scores](#), you can refer to the Standardized Testing and Reporting (STAR) Web site. Other tests in the [STAR program](#) can be found on the California Department of Education (CDE) Web site.

### California Standards Tests

BAR GRAPHS BELOW SHOW THESE PROFICIENCY GROUPS (LEFT TO RIGHT):

■ FAR BELOW BASIC ■ BELOW BASIC ■ BASIC ■ PROFICIENT ■ ADVANCED

SOURCE: The scores for the CST are from the spring 2011 test cycle. State average represents elementary schools only. Whenever a school reports fewer than 11 scores for a particular subgroup at any grade level, the CDE suppresses the scores when it releases the data to the public. Missing data makes it impossible for us to compile complete schoolwide results. Therefore, the results published in this report may vary from other published CDE test scores.

## Frequently Asked Questions About Standardized Tests

**WHERE CAN I FIND GRADE-LEVEL REPORTS?** Due to space constraints and concern for statistical reliability, we have omitted grade-level detail from these test results. Instead we present results at the schoolwide level. You can view the results of far more students than any one grade level would contain, which also improves their statistical reliability. Grade-level results are online on the [STAR Web site](#). More information about student test scores is available in the Data Almanac that accompanies this report.

**WHAT DO THE FIVE PROFICIENCY BANDS MEAN?** Test experts assign students to one of these five proficiency levels, based on the number of questions they answer correctly. Our immediate goal is to help students move up one level. Our eventual goal is to enable all students to reach either of the top two bands, Advanced or Proficient. Those who score in the middle band, Basic, have come close to attaining the required knowledge and skills. Those who score in either of the bottom two bands, Below Basic or Far Below Basic, need more help to reach the Proficient level.

**HOW HARD ARE THE CALIFORNIA STANDARDS TESTS?** Experts consider California's standards to be among the most clear and rigorous in the country. Just 56 percent of elementary school students scored Proficient or Advanced on the English/language arts test; 62 percent scored Proficient or Advanced in math. You can review the [California Content Standards](#) on the CDE Web site.

**ARE ALL STUDENTS' SCORES INCLUDED?** No. Only students in grades two through eleven are required to take the CST. When fewer than 11 students in one grade or subgroup take a test, state officials remove their scores from the report. They omit them to protect students' privacy, as called for by federal law.

**CAN I REVIEW SAMPLE TEST QUESTIONS?** Sample test questions for the CST are on the [CDE's Web site](#). These are actual questions used in previous years.

**WHERE CAN I FIND ADDITIONAL INFORMATION?** The CDE has a wealth of resources on its Web site. The STAR Web site publishes detailed reports for schools and districts, and assistance packets for parents and teachers. This site includes explanations of [technical terms](#), scoring methods, and the [subjects](#) covered by the tests for each grade. You'll also find a [guide](#) to navigating the STAR Web site as well as help for understanding how to [compare test scores](#).

**English/Language Arts (Reading and Writing)**

BAR GRAPHS BELOW SHOW THESE PROFICIENCY GROUPS (LEFT TO RIGHT):

**FAR BELOW BASIC** **BELOW BASIC** **BASIC** **PROFICIENT** **ADVANCED**

GROUP	LOW SCORES	HIGH SCORES	PROFICIENT OR ADVANCED	STUDENTS TESTED	COMMENTS
<b>SCHOOLWIDE AVERAGE</b>			62%	94%	<b>SCHOOLWIDE AVERAGE:</b> About six percent more students at our school scored Proficient or Advanced than at the average elementary school in California.
<b>AVERAGE ELEMENTARY SCHOOL IN THE COUNTY</b>			66%	95%	
<b>AVERAGE ELEMENTARY SCHOOL IN CALIFORNIA</b>			56%	95%

BAR GRAPHS BELOW SHOW TWO PROFICIENCY GROUPS (LEFT TO RIGHT):

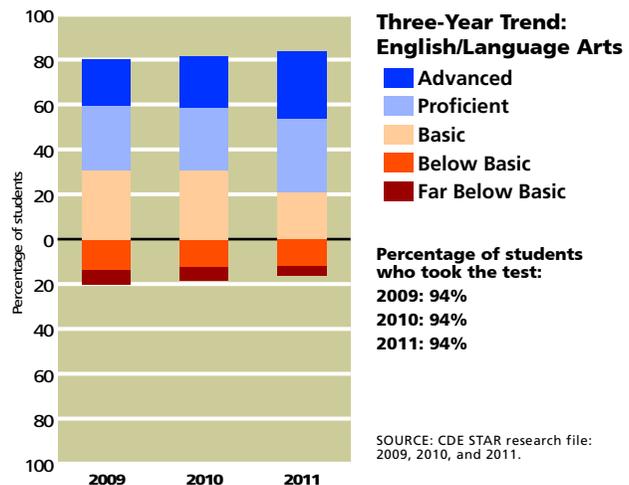

**FAR BELOW BASIC, BELOW BASIC, AND BASIC** **PROFICIENT AND ADVANCED**

GROUP	LOW SCORES	HIGH SCORES	PROFICIENT OR ADVANCED	STUDENTS TESTED	COMMENTS
<b>Boys</b>			59%	167	<b>GENDER:</b> About seven percent more girls than boys at our school scored Proficient or Advanced.
<b>Girls</b>			66%	131	
<b>English proficient</b>			83%	175	<b>ENGLISH PROFICIENCY:</b> English Learners scored lower on the CST than students who are proficient in English. Because we give this test in English, English Learners tend to be at a disadvantage.
<b>English Learners</b>			33%	123	
<b>Low income</b>			62%	297	<b>INCOME:</b> We cannot compare scores for these two subgroups because the number of students tested who were not from low-income families was either zero or too small to be statistically significant.
<b>Not low income</b>	NO DATA AVAILABLE		N/A	N/A	
<b>Learning disabled</b>	NO DATA AVAILABLE		N/A	15	<b>LEARNING DISABILITIES:</b> We cannot compare scores for these two subgroups because the number of students tested with learning disabilities was either zero or too small to be statistically significant.
<b>Not learning disabled</b>			64%	278	
<b>Asian American</b>	DATA STATISTICALLY UNRELIABLE		N/S	28	<b>ETHNICITY:</b> Test scores are likely to vary among students of different ethnic origins. The degree of variance will differ from school to school. Measures of the achievement gap are beyond the scope of this report.
<b>Filipino</b>			67%	36	
<b>Hispanic/Latino</b>			60%	220	

SOURCE: The scores for the CST are from the spring 2011 test cycle. County and state averages represent elementary schools only. Whenever a school reports fewer than 11 scores for a particular subgroup at any grade level, the CDE suppresses the scores when it releases the data to the public. Missing data makes it impossible for us to compile complete schoolwide results. Therefore, the results published in this report may vary from other published CDE test scores.  
 N/A: Not applicable. Either no students took the test, or to safeguard student privacy the CDE withheld all results because very few students took the test in any grade.  
 N/S: Not statistically significant. While we have some data to report, we are suppressing it because the number of valid test scores is not large enough to be meaningful.

The graph to the right shows how our students' scores have changed over the years. We present each year's results in a vertical bar, with students' scores arrayed across five proficiency bands. When viewing schoolwide results over time, remember that **progress** can take many forms. It can be more students scoring in the top proficiency bands (blue); it can also be fewer students scoring in the lower two proficiency bands (brown and red).

You can read the California standards for [English/language arts](#) on the CDE's Web site.

It can be more students scoring in the top proficiency bands (blue); it can also be fewer students scoring in the lower two proficiency bands (brown and red).

The science standards test was administered only to fifth graders. Of course, students in all grade levels study science in these areas: physical science, life science, earth science, and investigation and experimentation. For background, you can review the [science standards](#) by going to the CDE’s Web site.

**STUDENTS**

**Students’ English Language Skills**

At James McEntee Academy, 56 percent of students were considered to be proficient in English, compared with 77 percent of elementary school students in California overall.

LANGUAGE SKILLS	OUR SCHOOL	COUNTY AVERAGE	STATE AVERAGE
English-proficient students	56%	68%	77%
English Learners	44%	32%	23%

SOURCE: Language Census for school year 2010–2011. County and state averages represent elementary schools only.

**Languages Spoken at Home by English Learners, 2010–2011**

Please note that this table describes the home languages of just the 144 students classified as English Learners. At James McEntee Academy, the language these students most often speak at home is Spanish. In California it’s common to find English Learners in classes with students who speak English well. When you visit our classrooms, ask our teachers how they work with language differences among their students.

LANGUAGE	OUR SCHOOL	COUNTY AVERAGE	STATE AVERAGE
Spanish	88%	64%	82%
Vietnamese	5%	12%	3%
Cantonese	0%	2%	2%
Hmong	0%	0%	1%
Filipino/Tagalog	2%	3%	2%
Korean	0%	2%	1%
Khmer/Cambodian	1%	0%	0%
All other	4%	17%	9%

SOURCE: Language Census for school year 2010–2011. County and state averages represent elementary schools only.

**Ethnicity**

Most students at James McEntee Academy identify themselves as Hispanic/Latino. In fact, there are about four times as many Hispanic/Latino students as Asian/Pacific Islander students, the second-largest ethnic group at James McEntee Academy. The state of California allows citizens to choose more than one ethnic identity, or to select “two or more races” or “decline to state.” As a consequence, the sum of all responses rarely equals 100 percent.

ETHNICITY	OUR SCHOOL	COUNTY AVERAGE	STATE AVERAGE
African American	1%	2%	6%
Asian American/Pacific Islander	21%	32%	11%
Hispanic/Latino	75%	40%	53%
White	2%	21%	26%

SOURCE: California Longitudinal Pupil Achievement Data System (CALPADS), October 2010. County and state averages represent elementary schools only.

**Family Income and Education**

The [free or reduced-price meal](#) subsidy goes to students whose families earned less than \$40,793 a year (based on a family of four) in the 2010–2011 school year. At James McEntee Academy, 91 percent of the students qualified for this program, compared with 60 percent of students in California.

FAMILY FACTORS	OUR SCHOOL	COUNTY AVERAGE	STATE AVERAGE
Low-income indicator	91%	42%	60%
Parents with some college	38%	66%	56%
Parents with college degree	20%	48%	32%

SOURCE: The free and reduced-price lunch information is gathered by most districts in October. This data is from the 2010–2011 school year. Parents’ education level is collected in the spring at the start of testing. Rarely do all students answer these questions.

The parents of 38 percent of the students at James McEntee Academy have attended college and 20 percent have a college degree. This information can provide some clues to the level of literacy children bring to school. One precaution is that the students themselves provide this data when they take the battery of standardized tests each spring, so it may not be completely accurate. About 89 percent of our students provided this information.

## CLIMATE FOR LEARNING

### Average Class Sizes

Because funding for class-size reduction was focused on the early grade levels, our school's class sizes, like those of most elementary schools, differ across grade levels.

The average class size at James McEntee Academy varies across grade levels from a low of 21 students to a high of 33. Our average class size schoolwide is 28 students.

AVERAGE CLASS SIZE BY GRADE	OUR SCHOOL
Third grade	21
Fourth grade	32
Fifth grade	33

SOURCE: California Department of Education, SARC Research File. State and county averages represent elementary schools only.

## LEADERSHIP, TEACHERS, AND STAFF

### Indicators of Teachers Who May Be Underprepared

KEY FACTOR	DESCRIPTION	OUR SCHOOL	COUNTY AVERAGE	STATE AVERAGE
<b>Core courses taught by a teacher not meeting NCLB standards</b>	Percentage of core courses not taught by a “highly qualified” teacher according to federal standards in NCLB	0%	N/A	0%
<b>Fully credentialed teachers</b>	Percentage of staff holding a full, clear authorization to teach at the elementary or secondary level	94%	N/A	N/A
<b>Teachers lacking a full credential</b>	Percentage of teachers without a full, clear credential	6%	N/A	N/A

SOURCE: Data on NCLB standards is from the California Department of Education, SARC research file. Information on teachers lacking a full credential provided by the school district.

PLEASE NOTE: Comparative data (county average and state averages) for some of the data reported in the SARC is unavailable.

**“HIGHLY QUALIFIED” TEACHERS:** The federal law known as No Child Left Behind (NCLB) requires districts to report the number of teachers considered to be “[highly qualified](#).” These “highly qualified” teachers must have a full credential, a bachelor’s degree, and, if they are teaching a core subject (such as reading, math, science, or social studies), they must also demonstrate expertise in that field. The table above shows the percentage of core courses taught by teachers who are considered to be less than “highly qualified.” There are exceptions, known as the [High Objective Uniform State Standard of Evaluation](#) (HOUSSE) rules, that allow some veteran teachers to meet the “highly qualified” test who wouldn’t otherwise do so.

**CREDENTIAL STATUS OF TEACHERS:** Teachers who lack full credentials are working under the terms of an emergency permit, an internship credential, or a waiver. They should be working toward their credential, and they are allowed to teach in the meantime only if the school board approves. About six percent of our teachers were working without full credentials.

**Districtwide Distribution of Teachers Who Are Not “Highly Qualified”**

Here, we report the percentage of core courses in our district whose teachers are considered to be less than “highly qualified” by NCLB’s standards. We show how these teachers are distributed among schools according to the percentage of low-income students enrolled.

When more than 40 percent of the students in a school are receiving subsidized lunches, that school is considered by the California Department of Education to be a school with higher concentrations of low-income students. About 70 percent of the state’s schools are in this category. When less than 25 percent of the students in a school are receiving subsidized lunches, that school is considered by the CDE to be a school with lower concentrations of low-income students. About 19 percent of the state’s schools are in this category.

DISTRICT FACTOR	DESCRIPTION	CORE COURSES NOT TAUGHT BY HQT IN DISTRICT
<b>Districtwide</b>	Percentage of core courses not taught by “highly qualified” teachers (HQT)	0%
<b>Schools with more than 40% of students from lower-income homes</b>	Schools whose core courses are not taught by “highly qualified” teachers	0%
<b>Schools with less than 25% of students from lower-income homes</b>	Schools whose core courses are not taught by “highly qualified” teachers	0%

SOURCE: Data is from the California Department of Education, SARC research file.

## Specialized Resource Staff

The table to the right lists the number of full-time equivalent qualified support personnel who provide counseling and other pupil support services in our school. These specialists often work part time at our school and some may work at more than one school in our district. For more details on [statewide ratios of counselors, psychologists, or other pupil services](#) staff to students, see the California Department of Education (CDE) Web site. [Library facts](#) and frequently asked questions are also available there.

STAFF POSITION	STAFF (FTE)
Academic counselors	0.0
Behavioral/career counselors	0.0
Librarians and media staff	0.25
Psychologists	0.5
Social workers	0.0
Nurses	0.0
Speech/language/hearing specialists	0.33
Resource specialists	0.5

SOURCE: Data provided by the school district.

**TECHNICAL NOTE ON DATA RECENCY:** All data is the most current available as of November 2011. The CDE may release additional or revised data for the 2010–2011 school year after the publication date of this report. We rely on the following sources of information from the California Department of Education: California Longitudinal Pupil Achievement Data System (CALPADS) (October 2010); Language Census (March 2011); California Standards Tests (spring 2011 test cycle); Academic Performance Index (November 2011 growth score release); Adequate Yearly Progress (November 2011).

**DISCLAIMER:** School Wise Press, the publisher of this accountability report, makes every effort to ensure the accuracy of this information but offers no guarantee, express or implied. While we do our utmost to ensure the information is complete, we must note that we are not responsible for any errors or omissions in the data. Nor are we responsible for any damages caused by the use of the information this report contains. Before you make decisions based on this information, we strongly recommend that you visit the school and ask the principal to provide the most up-to-date facts available.

rev20111213\_43-69369-0114918e/41187

## » Adequacy of Key Resources

Here you'll find key facts about our teachers, textbooks, and facilities during the school year in progress, 2011–2012. Please note that these facts are based on evaluations our staff conducted in accordance with the Williams legislation.

This section also contains information about 2010–2011 staff development days, and, for high schools, percentages of seniors who met our district's graduation requirements.

## TEACHERS

## Teacher Vacancies

KEY FACTOR	2009–2010	2010–2011	2011–2012
TEACHER VACANCIES OCCURRING AT THE BEGINNING OF THE SCHOOL YEAR			
Total number of classes at the start of the year	15	12	14
Number of classes that lacked a permanently assigned teacher within the first 20 days of school	0	0	1
TEACHER VACANCIES OCCURRING DURING THE SCHOOL YEAR			
Number of classes where the permanently assigned teacher left during the year	0	0	0
Number of those classes where you replaced the absent teacher with a single new teacher	0	0	0

**NOTES:**

There are two general circumstances that can lead to the unfortunate case of a classroom without a full-time, permanently assigned teacher. Within the first 20 days of the start of school, we can be surprised by too many students showing up for school or too few teachers showing up to teach. After school starts, however, teachers can also be surprised by sudden changes: family emergencies, injuries, accidents, etc. When that occurs, it is our school's and our district's responsibility to fill that teacher's vacancy with a qualified, full-time, and permanently assigned replacement. For that reason, we report teacher vacancies in two parts: at the start of school and after the start of school.

## Teacher Misassignments

A “misassigned” teacher is one who lacks the appropriate subject-area authorization for a class she is teaching. Under the terms of the Williams settlement, schools must inform the public of the number of their teachers who are misassigned. It is possible for a teacher who lacks the authorization for a subject to get special permission—in the form of an emergency permit, waiver, or internship authorization—from the school board or county office of education to teach the subject anyway. This permission prevents the teacher from being counted as misassigned.

KEY FACTOR	DESCRIPTION	2009–2010	2010–2011	2011–2012
<b>Teacher Misassignments</b>	Total number of classes taught by teachers without a legally recognized certificate or credential	0	0	0
<b>Teacher Misassignments in Classes that Include English Learners</b>	Total number of classes that include English Learners and are taught by teachers without CLAD/BCLAD authorization, ELD or SDAIE training, or equivalent authorization from the California Commission on Teacher Credentialing	0	0	0
<b>Other Employee Misassignments</b>	Total number of service area placements of employees without the required credentials	0	0	0

### NOTES:

## Staff Development

Teachers take some time each year to improve their teaching skills and to extend their knowledge of the subjects they teach. Here you’ll see the amount of time we set aside for the past three years for their continuing education and professional development.

YEAR	PROFESSIONAL DEVELOPMENT DAYS
<b>2010–2011</b>	0.00
<b>2009–2010</b>	0.00
<b>2008–2009</b>	0.00

## TEXTBOOKS

The main fact about textbooks that the Williams legislation calls for described whether schools have enough books in core classes for all students. The law also asks districts to reveal whether those books are presenting what the California Content Standards call for.

All of our textbooks except for those in the following subject areas are the most recently approved by the State Board of Education or our Local Governing Agency:

This information was collected on 09/10/2010.

### NOTES:

TAUGHT AT OUR SCHOOL?	SUBJECT	ARE THERE TEXTBOOKS OR INSTRUCTIONAL MATERIALS IN USE?		ARE THERE ENOUGH BOOKS FOR EACH STUDENT?	
		STANDARDS ALIGNED?	OFFICIALLY ADOPTED?	FOR USE IN CLASS?	PERCENTAGE OF STUDENTS HAVING BOOKS TO TAKE HOME?

## Textbooks in Use

Here are some of the textbooks we use for our core courses.

SUBJECT AND TITLE	PUBLISHER	YEAR ADOPTED
ENGLISH/LANGUAGE ARTS		
Imagine It!	SRA	2008
Language! 3 <sup>rd</sup> Edition	Sopris West	2006
MATH		
California Math	Houghton Mifflin	2008
California Math Triumphs	Glencoe	2009
SCIENCE		
California Science	Pearson-Scott Foresman	2007
SOCIAL SCIENCE		
History-Social Science for California	Pearson-Scott Foresman	2006

## FACILITIES

To determine the condition of our facilities, our district sent experts from our facilities team to perform an inspection using a survey called the Facilities Inspection Tool, which is issued by the Office of Public School Construction.

Based on that survey, we've answered the questions you see on this report. Please note that the information reflects the condition of our buildings as of the date of the report. Since that time, those conditions may have changed.

**INSPECTORS AND ADVISORS:** This report was completed on 10/03/2011 by David Campos. The most recent facilities inspection occurred on 10/03/2011.

**ADDITIONAL INSPECTORS:** There were no other inspectors used in the completion of this form.

AREA	RATING	REPAIR NEEDED AND ACTION TAKEN OR PLANNED
<b>Overall Rating</b>	<b>Good</b>	
<b>A. Systems</b>	<b>Good</b>	
<b>1. Gas</b>		No apparent problems
<b>2. Mechanical/HVAC</b>		No apparent problems
<b>3. Sewer</b>		No apparent problems
<b>B. Interior Surfaces</b>	<b>Fair</b>	
<b>1. Interior Surfaces</b>		Loose handrail (cafeteria); Stained/missing ceiling tiles (A7, B1, B2); Torn carpet (A5, C5); Broken floor tile (A7)
<b>C. Cleanliness</b>	<b>Good</b>	
<b>1. Overall cleanliness</b>		No apparent problems
<b>2. Pest/Vermin</b>		No apparent problems
<b>D. Electrical Components</b>	<b>Good</b>	
<b>1. Electrical Components</b>		Broken light sensor (3); Missing outlet cover (A7)
<b>E. Rest Rooms/Fountains</b>	<b>Good</b>	
<b>1. Rest Rooms</b>		Broken tile (Boys' RR)
<b>2. Drinking Fountains</b>		No running water (G3)
<b>F. Safety</b>	<b>Good</b>	
<b>1. Fire Safety</b>		No apparent problems

AREA	RATING	REPAIR NEEDED AND ACTION TAKEN OR PLANNED
<b>2. Hazardous Materials</b>		No apparent problems
<b>G. Structural</b>	<b>Good</b>	
<b>1. Structural Damage</b>		No apparent problems
<b>2. Roofs/Gutters</b>		No apparent problems
<b>H. External</b>	<b>Good</b>	
<b>1. Windows/Doors/Gates/Fences</b>		Doors not closing properly (Girls' RR, C4, C5, E5)
<b>2. Playgrounds/School Grounds</b>		No apparent problems

## SCHOOL FINANCES, 2009–2010

We are required by the California Dept. of Education to report financial data from the 2009–2010 school year. More recent financial data is available on request from the district office.

### Spending per Student

To make comparisons possible across schools and districts of varying sizes, we first report our overall spending per student. We base our calculations on our average daily attendance (ADA).

We've broken down expenditures by the type of funds used to pay for them. Unrestricted funds can be used for any lawful purpose. Restricted funds, however, must be spent for specific purposes set out by legal requirements or the donor. Examples include funding for instructional materials, economic impact aid, and teacher and principal training funds.

Next to the figures for the district and state averages, we show the percentage by which the school's spending varies from the district and state averages. For example, we calculate the school's variance from the district average using this formula:

$$\frac{(\text{SCHOOL AMOUNT} - \text{DISTRICT AVERAGE})}{\text{DISTRICT AVERAGE}}$$

TYPE OF FUNDS	OUR SCHOOL	DISTRICT AVERAGE	SCHOOL-TO-DISTRICT VARIANCE	STATE AVERAGE	SCHOOL-TO-STATE VARIANCE
<b>Unrestricted funds (\$/student)</b>	\$4,929	\$5,488	-10%	\$5,513	-11%
<b>Restricted funds (\$/student)</b>	\$2,074	\$2,230	-7%	\$2,939	-29%
<b>Total (\$/student)</b>	\$7,003	\$7,718	-9%	\$8,452	-17%

### Compensation for Staff with Teaching Credentials

To make comparisons possible across schools and districts of varying sizes, we report our compensation per full-time equivalent (FTE) certificated staff.\* A teacher/administrator/pupil services person who works full-time counts as 1.0 FTE. Those who work only half time count as 0.5 FTE.

CERTIFICATED STAFF*	OUR SCHOOL	DISTRICT AVERAGE	SCHOOL-TO-DISTRICT VARIANCE	STATE AVERAGE	SCHOOL-TO-STATE VARIANCE
<b>Salary (\$/certificated staff)</b>	\$49,953	\$65,984	-24%	\$71,246	-30%
<b>Benefits (\$/certificated staff)</b>	\$12,596	\$15,871	-21%	\$16,062	-22%
<b>Total (\$/certificated staff)</b>	\$62,549	\$81,855	-24%	\$87,308	-28%

\* A certificated staff person is a school employee who is required by the state to hold teaching credentials, including full-time, part-time, substitute, or temporary teachers and most administrators.

## » Data Almanac

This Data Almanac provides additional information about students, teachers, student performance, accountability, and district expenditures.

## STUDENTS AND TEACHERS

### Student Enrollment by Ethnicity and Other Characteristics

The ethnicity of our students, estimates of their family income and education level, their English fluency, and their learning-related disabilities.

GROUP	ENROLLMENT
<b>Number of students</b>	330
<b>Black/African American</b>	1%
<b>American Indian or Alaska Native</b>	1%
<b>Asian</b>	9%
<b>Filipino</b>	12%
<b>Hispanic or Latino</b>	75%
<b>Pacific Islander</b>	0%
<b>White (not Hispanic)</b>	2%
<b>Two or more races</b>	0%
<b>Ethnicity not reported</b>	0%
<b>Socioeconomically disadvantaged</b>	100%
<b>English Learners</b>	73%
<b>Students with disabilities</b>	10%

SOURCE: All but the last three lines are from the annual census, CALPADS, October 2010. Data about students who are socioeconomically disadvantaged, English Learners, or learning disabled come from the School Accountability Report Card unit of the California Department of Education.

### Student Enrollment by Grade Level

Number of students enrolled in each grade level at our school.

GRADE LEVEL	STUDENTS
<b>Kindergarten</b>	0
<b>Grade 1</b>	0
<b>Grade 2</b>	0
<b>Grade 3</b>	104
<b>Grade 4</b>	127
<b>Grade 5</b>	99
<b>Grade 6</b>	0
<b>Grade 7</b>	0
<b>Grade 8</b>	0
<b>Grade 9</b>	0
<b>Grade 10</b>	0
<b>Grade 11</b>	0
<b>Grade 12</b>	0

SOURCE: CALPADS, October 2010.

**Average Class Size by Grade Level**

GRADE LEVEL	2008–2009	2009–2010	2010–2011

Other	0	0	0	0	0	0	N/A	N/A	N/A

SOURCE: CALPADS, October 2010. Information for 2009–2010 provided by the school district.

### Teacher Credentials

The number of teachers assigned to the school with a full credential and without a full credential, for both our school and the district.

TEACHERS	SCHOOL			DISTRICT
	2008–2009	2009–2010	2010–2011	2010–2011
<b>With Full Credential</b>	14	15	15	605
<b>Without Full Credential</b>	5	4	1	45

SOURCE: Information provided by school district.

### Physical Fitness

Students in grades five, seven, and nine take the California Fitness Test each year. This test measures students’ aerobic capacity, body composition, muscular strength, endurance, and flexibility using six different tests. The table shows the percentage of students at our school who scored within the “healthy fitness zone” on four, five, and all six tests. More information about [physical fitness testing and standards](#) is available on the CDE Web site.

GRADE LEVEL	PERCENTAGE OF STUDENTS MEETING HEALTHY FITNESS ZONES		
	FOUR OF SIX STANDARDS	FIVE OF SIX STANDARDS	SIX OF SIX STANDARDS
<b>Grade 5</b>	22%	16%	21%
<b>Grade 7</b>	N/A	N/A	N/A
<b>Grade 9</b>	N/A	N/A	N/A

SOURCE: Physical fitness test data is produced annually as schools test their students on the six Fitnessgram Standards. This information is from the 2010–2011 school year.

### Suspensions and Expulsions

At times we find it necessary to suspend students who break school rules. We report only suspensions in which students are sent home for a day or longer. We do not report in-school suspensions, in which students are removed from one or more classes during a single school day. Expulsion is the most serious consequence we can impose. Expelled students are removed from the school permanently and denied the opportunity to continue learning here.

KEY FACTOR	OUR SCHOOL	DISTRICT AVERAGE	STATE AVERAGE
<b>Suspensions per 100 students</b>			
<b>2010–2011</b>	5	5	N/A
<b>2009–2010</b>	1	3	6
<b>2008–2009</b>	4	2	6
<b>Expulsions per 100 students</b>			
<b>2010–2011</b>	0	0	N/A
<b>2009–2010</b>	0	0	0
<b>2008–2009</b>	0	0	0

SOURCE: Data is from the Consolidated Application published by the California Department of Education. The numbers above are a ratio of suspension or expulsion events, per 100 students enrolled. District and state averages represent elementary schools only.

During the 2010–2011 school year, we had 18 suspension incidents. We had no incidents of expulsion. To make it easy to compare our suspensions and expulsions to those of other schools, we represent these events as a ratio (incidents per 100 students) in this report. Please note that multiple incidents may involve the same student.

## STUDENT PERFORMANCE

### California Standardized Testing and Reporting Program

The California Standards Tests (CST) show how well students are learning what the state content standards require. The CST include English/language arts and mathematics in grades two through five and science in grade five. We also include results from the California Modified Assessment and California Alternative Performance Assessment (CAPA).

#### STAR Test Results for All Students: Three-Year Comparison

The percentage of students achieving at the Proficient or Advanced level (meeting or exceeding the state standards) for the most current three-year period.

SUBJECT	SCHOOL PERCENT PROFICIENT OR ADVANCED			DISTRICT PERCENT PROFICIENT OR ADVANCED			STATE PERCENT PROFICIENT OR ADVANCED		
	2009	2010	2011	2009	2010	2011	2009	2010	2011
<b>English/ language arts</b>	47%	53%	61%	38%	42%	48%	49%	52%	54%

<b>Socioeconomically disadvantaged</b>	61%	73%	84%
<b>English Learners</b>	33%	55%	62%
<b>Students with disabilities</b>	40%	57%	0%
<b>Receives migrant education services</b>	0%	0%	0%

SOURCE: STAR results, spring 2011 test cycle, as interpreted and published by the CDE unit responsible for School Accountability Report Cards.

## ACCOUNTABILITY

### California Academic Performance Index (API)

The Academic Performance Index (API) is an annual measure of the academic performance and progress of schools in California. APIs range from 200 to 1000, with a statewide target of 800. Detailed information about the API can be found on the CDE Web site at <http://www.cde.ca.gov/ta/ac/ap/>.

#### API Ranks: Three-Year Comparison

The state assigns statewide and similar-schools API ranks for all schools. The API ranks range from 1 to 10. A statewide rank of 1 means that the school has an API in the lowest 10 percent of all elementary schools in the state, while a statewide rank of 10 means that the school has an API in the highest 10 percent of all elementary schools in the state. The similar-schools API rank reflects how a school compares with 100 statistically matched schools that have similar teachers and students.

API RANK	2008–2009	2009–2010	2010–2011
<b>Statewide rank</b>	2	5	7
<b>Similar-schools rank</b>	3	8	9

SOURCE: The API Base Report from December 2011.

#### API Changes by Subgroup: Three-Year Comparison

API changes for all students and student subgroups: the actual API changes in points added or lost for the past three years, and the most recent API. Note: "N/A" means that the student group is not numerically significant.

SUBGROUP	ACTUAL API CHANGE			API
	2008–2009	2009–2010	2010–2011	2010–2011
<b>All students at the school</b>	+79	+46	+15	850
<b>Black/African American</b>	N/A	N/A	N/A	N/A
<b>American Indian or Alaska Native</b>	N/A	N/A	N/A	N/A
<b>Asian</b>	N/A	N/A	-28	846
<b>Filipino</b>	N/A	N/A	+20	913
<b>Hispanic or Latino</b>	+87	+56	+21	837
<b>Pacific Islander</b>	N/A	N/A	N/A	N/A
<b>White (non Hispanic)</b>	N/A	N/A	N/A	N/A
<b>Two or more races</b>	N/A	N/A	N/A	N/A
<b>Socioeconomically disadvantaged</b>	+80	+66	+21	850
<b>English Learners</b>	+83	+42	+14	834
<b>Students with disabilities</b>	N/A	N/A	-78	703

SOURCE: The API Growth Report as released in the Accountability Progress Report in December 2011.

### API Scores by Subgroup

This table includes Academic Performance Index results for our school, our district, and the state.

SUBGROUP	SCHOOL		DISTRICT		STATE	
	NUMBER OF STUDENTS	API	NUMBER OF STUDENTS	API	NUMBER OF STUDENTS	API
All students	307	850	9,184	770	4,683,676	778
Black/African American	3	N/A	169	733	317,856	696
American Indian or Alaska Native	2	N/A	24	818	33,774	733
Asian	28	846	1,033	879	398,869	898
Filipino	37	913	532	856	123,245	859
Hispanic or Latino	228	837	7,109	746	2,406,749	729
Pacific Islander	1	N/A	77	791	26,953	764
White (non Hispanic)	7	N/A	225	847	1,258,831	845
Two or more races	1	N/A	11	728	76,766	836
Socioeconomically disadvantaged	307	850	9,132	770	2,731,843	726
English Learners	224	834	6,090	744	1,521,844	707
Students with disabilities	37	703	1,205	610	521,815	595

### Federal Adequate Yearly Progress (AYP) and Intervention Programs

The federal law known as No Child Left Behind requires that all schools and districts meet all three of the following criteria in order to attain Adequate Yearly Progress (AYP):

- (a) a 95-percent participation rate on the state’s tests
- (b) a CDE-mandated percentage of students scoring Proficient or higher on the state’s English/language arts and mathematics tests
- (c) an API of at least 710 or growth of at least one point
- (d) the graduation rate for the graduating class must be higher than 90 percent (or satisfy alternate improvement criteria).

#### AYP for the District

Whether the district met the federal requirement for AYP overall, and whether the district met each of the AYP criteria.

AYP CRITERIA	DISTRICT
Overall	No
Graduation rate	N/A
Participation rate in English/language arts	Yes
Participation rate in mathematics	Yes
Percent Proficient in English/language arts	No
Percent Proficient in mathematics	No
Met Academic Performance Index (API)	Yes

SOURCE: The AYP Report as released in the Accountability Progress Report in December 2011.

#### Intervention Program: District Program Improvement (PI)

Districts receiving federal Title I funding enter Program Improvement (PI) if they do not make AYP for two consecutive years in the same content area (English/language arts or mathematics) and for each grade span or on the same indicator (API or graduation rate). After entering PI, districts advance to the next level of intervention with each additional year that they do not make AYP.

INDICATOR	DISTRICT
PI stage	3 of 3
The year the district entered PI	2004
Number of schools currently in PI	5
Percentage of schools currently in PI	19%

## DISTRICT EXPENDITURES

According to the CDE, "State certification/release dates for fiscal data occur in middle to late spring, precluding the inclusion of 2010–11 data in most cases. Therefore, 2009–10 data are used for report cards prepared during 2011–12."

Total expenses include only the costs related to direct educational services to students. This figure does not include food services, land acquisition, new construction, and other expenditures unrelated to core educational purposes. The expenses-per-student figure is calculated by dividing total expenses by the district's average daily attendance (ADA). More information is available on the [CDE's Web site](#).

CATEGORY OF EXPENSE	OUR DISTRICT	SIMILAR DISTRICTS	ALL DISTRICTS
<b>FISCAL YEAR 2009–2010</b>			
Total expenses	\$108,252,851	N/A	N/A
Expenses per student	\$8,736	\$7,973	\$8,452
<b>FISCAL YEAR 2008–2009</b>			
Total expenses	\$117,076,622	N/A	N/A
Expenses per student	\$9,128	\$8,275	\$8,736

### District Salaries, 2009–2010

This table reports the salaries of teachers and administrators in our district for the 2009–2010 school year. This table compares our average salaries with those in districts like ours, based on both enrollment and the grade level of our students. In addition, we report the percentage of our district's total budget dedicated to teachers' and administrators' salaries. The costs of health insurance, pensions, and other indirect compensation are not included.

SALARY INFORMATION	DISTRICT AVERAGE	STATE AVERAGE
Beginning teacher's salary	\$46,567	\$41,692
Midrange teacher's salary	\$72,497	\$68,251
Highest-paid teacher's salary	\$84,619	\$86,582
Average principal's salary (elementary school)	\$97,379	\$108,334
Superintendent's salary	\$198,000	\$180,492
Percentage of budget for teachers' salaries	44%	42%
Percentage of budget for administrators' salaries	7%	6%
