

## Summer Reading for Rising Sophomores

Please choose any book from the Grade 10 section of the Summer Reading document compiled by our librarian, Ms. Stephanie Hampton. The document is available on the Upper School library's website: [Summer reading list](#)

When you return to school in the fall, you'll complete a diagnostic writing related to your summer reading. However, your most important consideration in choosing a book should be your own interest and engagement. Please read Ms. Hampton's descriptions of each book and to choose a title you will enjoy!
