## INDEPENDENT AUDITOR'S REPORT

Board of Trustees  
Alum Rock Union Elementary School District  
San Jose, California

**Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Alum Rock Union Elementary School District, as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise Alum Rock Union Elementary School District's basic financial statements as listed in the table of contents.

***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

***Auditor's Responsibility***

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

***Opinions***

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Alum Rock Union Elementary School District, as of June 30, 2015, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## **Emphasis of Matter**

As discussed in Note 1 to the financial statements, in June 2012 the Governmental Accounting Standards Board (GASB) issued GASB Statement No. 68, "Accounting and Financial Reporting for Pensions." Also, in November 2013 the GASB issued GASB Statement No. 71, "Pension Transition for Contributions Made Subsequent to the Measurement Date". As discussed in Notes 8 and 9, GASB Statements No. 68 and No. 71 are effective for the District's fiscal year ending June 30, 2015. These Statements replace the requirements of GASB Statement No. 27, "Accounting for Pensions by State and Local Governmental Employers" and GASB Statement No. 50, "Pension Disclosures." GASB Statements No. 68 and No. 71 establish standards for measuring and recognizing liabilities, deferred outflows of resources, deferred inflows of resources and expenses as well as identifies the methods and assumptions that should be used to project benefit payments, discount projected benefit payments to their actuarial present value and attribute that present value to periods of employee service. Note disclosures and required supplementary information (RSI) requirements about pensions are also addressed. Our opinion is not modified with respect to this matter.

## **Other Matters**

### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that Management's Discussion and Analysis on pages 4 to 14 and the Required Supplementary Information, such as the General Fund Budgetary Comparison Schedule, the Schedule of the District's Proportionate Share of the Net Pension Liability, and the Schedule of the District's Contributions on pages 53 to 57 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### *Supplementary Information*

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Alum Rock Union Elementary School District's basic financial statements. The accompanying schedule of expenditure of federal awards as required by *U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations* and the other supplementary information listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The schedule of expenditure of federal awards and other supplementary information as listed in the table of contents is the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information, except for the Schedule of Financial Trends and Analysis, has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditure of federal awards and other supplementary information as listed in the table of contents, except for the Schedule of Financial Trends and Analysis, are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The Schedule of Financial Trends and Analysis has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

### **Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated December 2, 2015 on our consideration of Alum Rock Union Elementary School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Alum Rock Union Elementary School District's internal control over financial reporting and compliance.

## MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2015

---

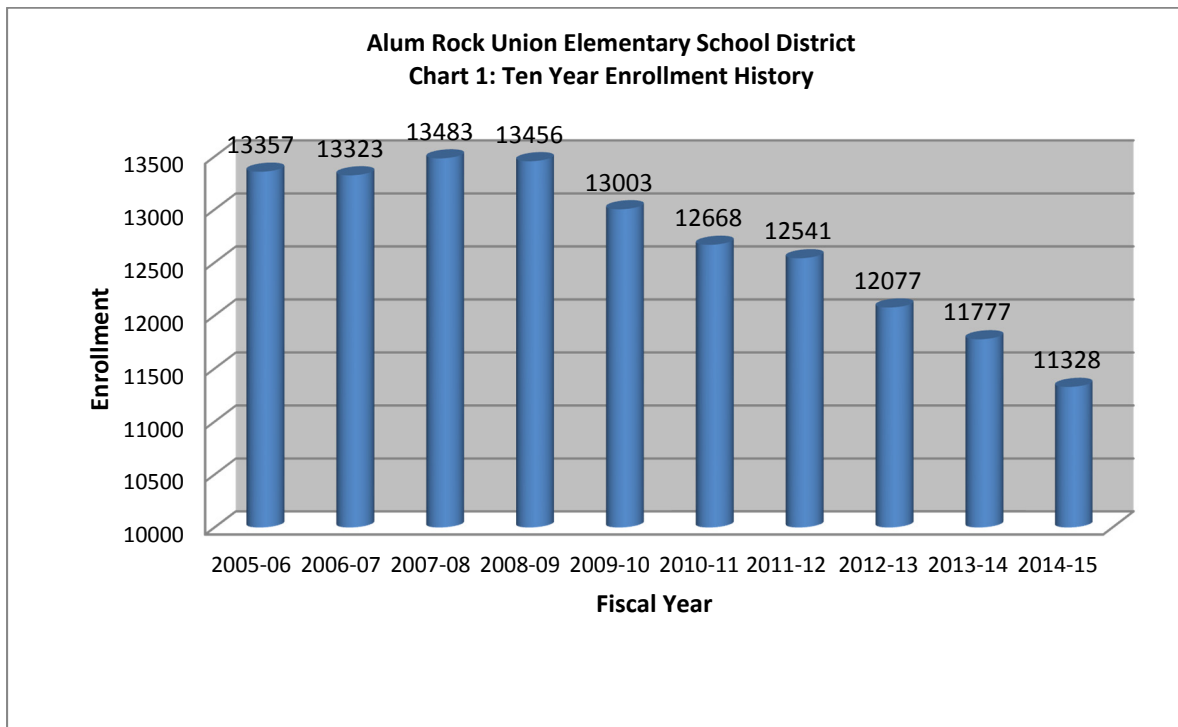

This Management's Discussion and Analysis section of Alum Rock Union Elementary School District's 2014-15 annual financial report presents management's view of the District's financial performance during the fiscal year that ended on June 30, 2015. Please read it in conjunction with the District's financial statements, which immediately follows this section.

### DISTRICT PROFILE

The District was organized in 1930 under the laws of the State of California. There are seventeen elementary schools and eight middle schools (total twenty-five schools including four Small Schools and a dependent Charter School) serving a student population of under twelve thousand students. The District occupies eleven square miles in the eastern part of the City of San Jose. It operates under a locally elected five-member board form of government.

The financials are a reflection of how the Board of Trustees prioritizes the use of the dollars that are received for education. As policy makers, the Trustees have translated educational dollars to educational programs that will serve to enhance the learning opportunities for the children of the Alum Rock Union Elementary School District.

The District has been experiencing declining enrollment since prior to 2000. This decline has resulted in a loss of ADA (average daily attendance), which translates into a loss in revenue. Since approximately 80% of district's revenue is based on ADA and Local Control Funding Formula (LCFF), it is important that the District monitor its ADA. Chart 1 below provides the District's ten year ADA comparison.

## MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2015

---

### FINANCIAL HIGHLIGHTS

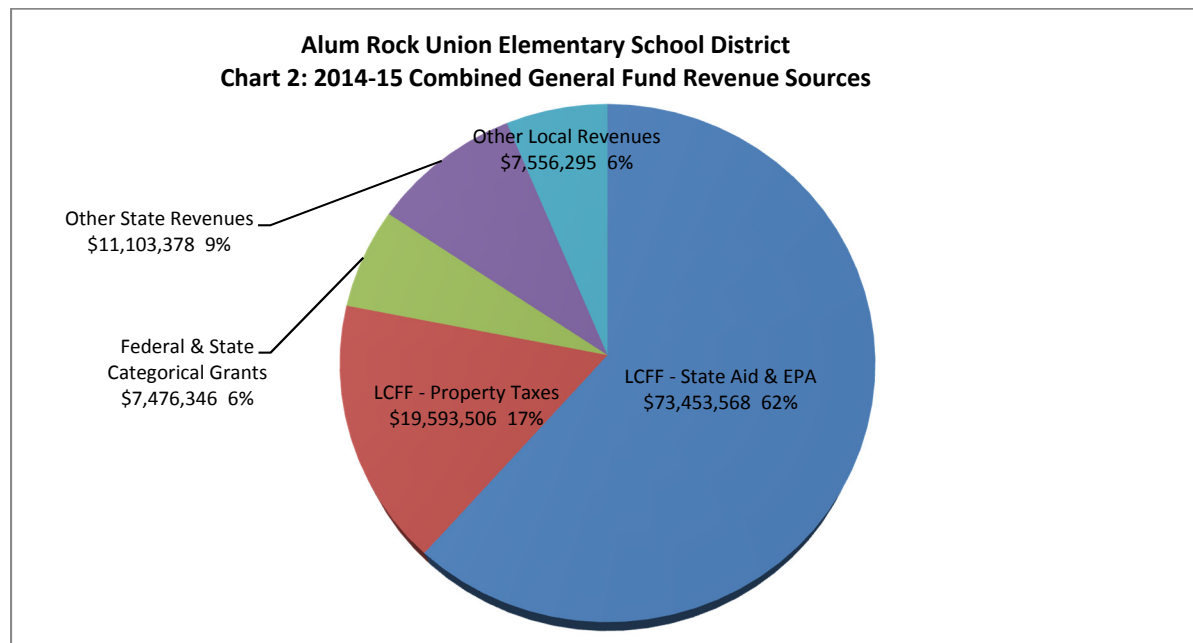

The financial highlights section will focus on the “governmental funds” presentation of the Audited Financial Statements and, more specifically, on the general fund of the District. The District-wide Financial Statements provide financial information on the District as a whole, but we believe the critical financial aspects of the District’s operations are best presented in the governmental funds section.

### School District Local Control Funding Formula (LCFF)

The 2013-14 State’s adopted budget entails the most dramatic change in school financing since the implementation of Senate Bill (SB) 90 and the implementation of revenue limits in 1972. After considerable negotiations between the Legislature and Governor Brown, state policy makers enacted the Local Control Funding Formula (LCFF) to replace revenue limits and most categorical programs, commencing 2013-14. The plan for LCFF is complex and many details are still emerging.

LCFF is designed to improve student outcome giving local flexibility to meet student needs, aid in transparency, provide equity through student focus formula, and performance through aligned program and budget plans. LCFF creates the opportunity to implement a performance based budget instead of a compliance based budget. It is estimated that it will take 8 years to fully implement starting in fiscal year 2013-14. The plan is to reach our *Targeted Entitlement* at the end of 8 years.

The District receives the majority of its funding from LCFF. The District’s LCFF is a direct function of the District’s ADA. The actual funding of the LCFF comes from a combination of local property taxes, Education Protection Account (EPA) and state aid. Chart 2 provides a breakout of the sources of revenue for the District.

**MANAGEMENT'S DISCUSSION AND ANALYSIS  
JUNE 30, 2015**

Table 1  
General Fund Revenues and Expenditures  
(in thousands of dollars except for ADA amount)

	June 30,		Increases (Decreases)
	2015	2014	
Beginning Fund Balance	\$ 15,945	\$ 13,607	\$ 2,338

Fund LCFF ADA - ARUESD	10,994	11,403	(409)
Fund LCFF ADA - Aptitud	403	368	35

**Revenues and Expenditures**

Total revenues increased by approximately \$11.4 million. This increase was attributable to changes in funding formula (LCFF), one time restricted monies such as Common Core and Prop 39.

Although funded ADA decreased by net 374 ADA, changes under the new funding formula, LCFF resulted in a favorable \$8.2 million in revenues.

During fiscal year 2014-15, the District settled with all bargaining units for a 3% salary increase retro to 1/1/2014 and a 4% salary increase retro to 7/1/2014 for fiscal years 2013-14 and 2014-15, respectively. This resulted in an increase in expenditures along with standard operational changes.

**Available Reserves**

It is important to note that the Unrestricted General Fund accounts for all of the District's instructional and operational activities, plus contribute to the restricted programs when costs of the mandated activities exceed resources. In addition, the required 3% reserve for economic uncertainties comes from unrestricted fund balance.

The unrestricted portion of our general fund balance is referred to as our available reserves. The unrestricted balance on June 30, 2015 was \$14,657,796 which includes the required 3% economic uncertainties reserve of \$3,506,609.

## MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2015

---

### General Fund Budgetary Highlights-

Our adopted budget projected an ending balance, unrestricted and restricted of \$11,428,456 and \$1,047,149, respectively. Our actual ending balance at year-end was in total \$17,841,054, of which \$14,677,796 unrestricted and \$3,163,258 restricted— a positive variance overall from our adopted budget projection. The favorable expenditure variance results primarily from unexpended restricted program funds reflected in the legally restricted ending balance not accounted for in the final budget and from outside services not performed by year end.

### CAPITAL ASSET & DEBT ADMINISTRATION

#### Capital Assets

At June 30, 2015, the District had \$107,844,986 in a broad range of capital assets, including land, buildings, and furniture and equipment, net of accumulated depreciation. See Table 2 below. This amount represents a net decrease (including additions, deductions and depreciation) of \$1,484,925 from 2013-14. Our school sites have low values for today's market because the District acquired the land many decades ago. School buildings and site improvements are valued at their historical construction cost less accumulated depreciation.

<b>Governmental activity capital assets, net of depreciation</b>	<b>107,844,986</b>	<b>109,329,911</b>

#### Long Term Liabilities

At year-end, the District had \$125,599,437 of long-term debt outstanding. The long-term obligations of the District include the following:

The District's general obligation bond received a rating of "Aa3". State limits the amount of general obligation debt (bonding capacity) that districts can issue to 1.25% of the assessed value of all taxable property within the district's boundaries for a union school district, and 2.50% for a unified school district.

## MANAGEMENT'S DISCUSSION AND ANALYSIS

JUNE 30, 2015

---

Other obligations include compensated absences payable, retiree incentive liabilities, and other long-term liabilities. The District has no OPEB obligations. We present more detailed information regarding our long-term liabilities in Note 6 of the financial statements.

### OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of three parts – management's discussion and analysis (this section), the basic financial statements, and required supplementary information. The basic financial statements include two kinds of statements that present different views of the District:

- The first two statements are *district-wide financial statements* that provide both *short-term* and *long-term* information about the District's *overall* financial status.
- The remaining statements are *fund financial statements* that focus on *individual parts* of the District, reporting the District's operations in *more detail* than the district-wide statements.
- *Governmental funds* statements tell how basic services like regular and special education were financed in the short-term as well as what remains for future spending.
- *Proprietary funds* statements account for any activity for which services are provided to other funds on a cost-reimbursement basis.
- *Fiduciary funds* statements provide information about the financial relationships in which the District acts solely as a trustee or agent for the benefit of others to whom the resources belong. Fiduciary fund activity is excluded from the district-wide financial statements.

The financial statements also include notes that explain some of the information in the statements and provide more detailed data. The statements are followed by a section of required supplementary information that further explains and supports the financial statements with a comparison of the District's general fund budget, both the adopted and final version, with year-end actuals.

### Government-wide Statements

The Government-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The Statement of Net Position includes all of the District's assets and liabilities. All of the current year's revenues and expenses are accounted for in the Statement of Activities regardless of when cash is received or paid.

The two district-wide statements report the District's net position and how they have changed. Net position – the difference between the District's assets and liabilities – are one way to measure the District's financial health or position.

Over time, increases or decreases in the District's net position can be an indicator of whether its financial position is improving or deteriorating, respectively. To assess the overall health of the District, one needs to consider additional factors such as the economy of the State, the State's fiscal health, the local economy and the condition of the property and equipment of the District.

### Fund Financial Statements

The fund financial statements provide more detailed information about the District's most significant funds – not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs:

Some funds are required by State law and by bond covenants. The District establishes other funds to control and manage money for particular purposes (like repaying its long-term debt) or to show that it is properly using certain revenues (like federal grants).

# ALUM ROCK UNION ELEMENTARY SCHOOL DISTRICT

## MANAGEMENT'S DISCUSSION AND ANALYSIS

JUNE 30, 2015

---

The District has three kinds of funds:

*Governmental funds.* Most of the District's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets which can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps one determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the district-wide statements, we provide reconciliations between the governmental funds statements and the district-wide financial statements that explain the relationships (or differences) between them.

*Proprietary funds.* When the District charges users for the services it provides, whether to outside customers or to other departments within the District, these services are generally reported in proprietary funds. Proprietary funds are reported in the same way that all activities are reported in the Statement of Net Position and the Statement of Change in Net Position.

We use internal service funds to report activities that provide supplies and services for the District's other program and activities, such as the District's Self-Insurance Fund. The internal service fund is reported with government activities in the government-wide financial statements.

*Fiduciary funds.* The District is the trustee, or fiduciary, for assets that belong to others, such as the student body funds. The District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. All of the District's fiduciary activities are reported in a separate Statement of Fiduciary Net Position and a Statement of Change in Fiduciary Net Position. We exclude these activities from the district-wide financial statements because the District cannot use these assets to finance its operations.

### **Governmental Activities**

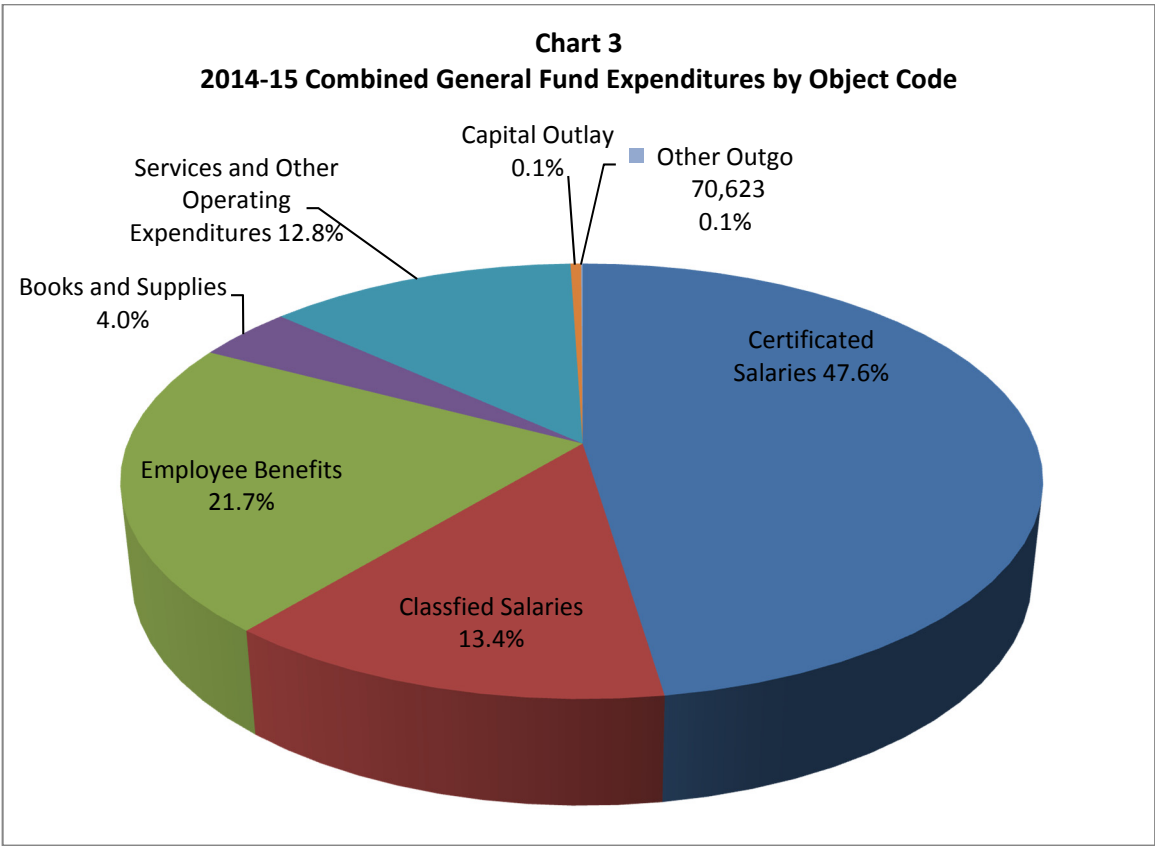

Charts 3 and 4 provide a breakdown of the 2014-15 General Fund expenditures by Object Code and by Function Code, respectively. As is common with virtually all school districts, the majority of expenditures in the General Fund are used for salaries and benefits (approximately 82.7%). From a functional cost standpoint, Chart 4 shows that approximately 77.22% of total general fund expenditures go for instruction and instruction-related activities. The District must spend at least 60% of its total certificated salary component on classroom instruction activities. For the current fiscal year, the District spent approximately 66.17% of certificated salaries on classroom instruction activity.

## MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2015

### IMPACT OF GASB 68

The Governmental Accounting Standards Board approved GASB Statement No. 68 (GASB 68), Accounting and Financial Reporting for Pensions. The primary objective of this Statement, issued in June 2012, is to improve accounting and financial reporting by state and local governments for pensions. It also improves information provided by state and local governmental employers about financial support for pensions that is provided by other entities. Due to GASB 68, the cumulative effect of this liability for 2014-15 is \$(100,073,507), which was not previously included in June 30, 2014. The net position as of July 1, 2014 as restated is \$(62,789,055) and the net position as of June 30, 2015 is \$(63,322,949).

### FACTORS BEARING ON THE DISTRICT'S FUTURE

Since approximately 80% of the District's funding is provided by LCFF, the two factors – funded percentage of LCFF in future years and ADA (average daily attendance), which are used to calculate LCFF funding for the District, are key factors to watch.

## **ALUM ROCK UNION ELEMENTARY SCHOOL DISTRICT**

### **MANAGEMENT'S DISCUSSION AND ANALYSIS**

**JUNE 30, 2015**

---

At the time these financial statements were prepared and audited, the District was aware of the following conditions that could significantly affect its financial health in the future:

- The LCFF plan is accompanied by an optimistic estimate of the resources that will be devoted to public education for the next 6 six years. This plan will be fully implemented by fiscal year 2020-2021 if and only if, those resources materialize. Each year, District's LCFF entitlement will be determined by "any available appropriations" within the State's Budget. The District will monitor the projected revenues and status of the State Budget as it will directly affect the District's funded LCFF revenues each year to reach the LCFF entitlement in year 8.
- Enrollment continues to decline due to (1) economic decline causes families to move out of the area, and (2) the growth of charter schools within district boundaries.

### **CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT**

RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET  
TO THE STATEMENT OF NET POSITION  
June 30, 2015

Total fund balances - Governmental Funds \$ 57,847,165

Amounts reported for governmental activities in the statement of net position are different because:

Capital assets used for governmental activities are not financial resources and, therefore, are not reported as assets in governmental funds. The cost of the assets is \$224,351,080 and the accumulated depreciation is \$116,506,095 (Note 4). 107,844,985

Unmatured interest on long-term liabilities is not recognized until the period in which it matures and is paid. In the government-wide statement of activities, it is recognized in the period that it is incurred. (2,517,353)

In governmental funds, deferred outflows of resources resulting from defeasance of debt are not recorded. In governmental activities, for advance refundings resulting in defeasance of debt reported in governmental activities, the difference between reacquisition price and the net carrying amount of the retired debt are reported as deferred outflows of resources. 407,738

In government funds, deferred outflows and inflows of resources relating to pensions are not reported because they are applicable to future periods. In the statement of net position, deferred outflows and inflows of resources relating to pensions are reported (Notes 8 and 9).

Deferred outflows of resources relating to pensions	\$ 6,800,625	
Deferred inflows of resources relating to pensions	<u>(23,659,750)</u>	(16,859,125)

Internal service funds are used to conduct certain activities for which costs are charged to other funds on a full cost- recovery basis. Net position for the Self-Insurance Fund: 1,822,853

Long-term liabilities are not due and payable in the current period and, therefore, are not reported as liabilities in the funds. Long-term liabilities at June 30, 2015 consisted of (Note 6):

General Obligation Bonds	\$ (99,704,185)

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Alum Rock Union Elementary School District (the "District") accounts for its financial transactions in accordance with the policies and procedures of the California Department of Education's *California School Accounting Manual*. The accounting policies of the District conform to accounting principles generally accepted in the United States of America as prescribed by the Governmental Accounting Standards Board and the American Institute of Certified Public Accountants. The following is a summary of the more significant policies.

Reporting Entity: The Board of Trustees is the level of government which has governance responsibilities over all activities related to public elementary school education in the District. The Board is not included in any other governmental "reporting entity" as defined by the Governmental Accounting Standards Board since Board members have decision-making authority, the power to designate management, the responsibility to significantly influence operations and primary accountability for fiscal matters. The District receives funding from local, state and federal governmental sources and must comply with all the requirements of these funding source entities.

Basis of Presentation - Financial Statements: The basic financial statements include a Management's Discussion and Analysis (MD & A) section providing an analysis of the District's overall financial position and results of operations, financial statements prepared using full accrual accounting for all of the District's activities, including infrastructure, and a focus on the major funds.

Basis of Presentation - Government-Wide Financial Statements: The Statement of Net Position and the Statement of Activities displays information about the reporting government as a whole. Fiduciary funds are not included in the government-wide financial statements. Fiduciary funds are reported only in the Statement of Fiduciary Net Position at the fund financial statement level.

The Statement of Net Position and the Statement of Activities are prepared using the economic resources measurement focus and the accrual basis of accounting. Revenues, expenses, gains, losses, assets and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place. Revenues, expenses, gains, losses, assets and liabilities resulting from nonexchange transactions are recognized in accordance with the requirements of Governmental Accounting Standards Board Codification Section (GASB Cod. Sec.) N50.118-.121.

Program revenues: Program revenues included in the Statement of Activities derive directly from the program itself or from parties outside the District's taxpayers or citizenry, as a whole; program revenues reduce the cost of the function to be financed from the District's general revenues.

Allocation of indirect expenses: The District reports all direct expenses by function in the Statement of Activities. Direct expenses are those that are clearly identifiable with a function. Depreciation expense is specifically identified by function and is included in the direct expense of each function. Interest on long-term liabilities is considered an indirect expense and is reported separately on the Statement of Activities.

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES** (Continued)

Basis of Presentation - Fund Accounting: The accounts of the District are organized on the basis of funds, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund balances, revenues, and expenditures. District resources are allocated to and accounted for in individual funds based upon the purpose for which they are to be spent and the means by which spending activities are controlled.

A - Major Funds

General Fund:

The General Fund is the general operating fund of the District and accounts for all revenues and expenditures of the District not encompassed within other funds. All general tax revenues and other receipts that are not allocated by law or contractual agreement to some other fund are accounted for in this fund. General operating expenditures and the capital improvement costs that are not paid through other funds are paid from the General Fund.

Building Fund:

The Building Fund is used to account for resources used for the acquisition of capital facilities by the District.

County School Facilities Fund:

The County School Facilities Fund is used to account for resources used for the acquisition of capital facilities by the District.

B - Other Funds

Special Revenue Funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specific purposes. This includes the Cafeteria and Deferred Maintenance Funds.

Capital Projects Funds are used to account for resources used for the acquisition of capital facilities by the District. This includes the Capital Facilities and Special Reserve for Capital Outlay Funds.

Debt Service Funds are used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest, and related costs. This includes the Bond Interest and Redemption and Tax Override Funds.

Self-Insurance Fund is an internal service fund which is used to account for the District's employee medical, dental and vision benefits.

The Student Body Fund is a Fiduciary Fund for which the District acts as an agent. All cash activity and assets of the various student bodies of the District are accounted for in the Student Body Fund.

Basis of Accounting: Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurement made, regardless of the measurement focus applied.

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

Accrual: Governmental activities in the government-wide financial statements, proprietary fund and fiduciary fund financial statements are presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred.

Modified Accrual: The governmental funds financial statements are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual; i.e., both measurable and available. "Available" means collectible in the current period or within 60 days after year end. Expenditures are generally recognized under the modified accrual basis of accounting when the related liability is incurred. The exception to this general rule is that principal and interest on general obligation long-term liabilities, if any, is recognized when due.

Budgets and Budgetary Accounting: By state law, the Board of Trustees must adopt a final budget by July 1. A public hearing is conducted to receive comments prior to adoption. The Board of Trustees complied with these requirements.

Receivables: Receivables are made up principally of amounts due from the State of California and Categorical programs. The District has determined that no allowance for doubtful accounts was needed as of June 30, 2015.

Inventory: Inventory in the Cafeteria Fund consists mainly of consumable supplies held for future use and are valued at actual cost. Inventories are recorded as expenditures at the time individual inventory items are transferred from the warehouse to schools and offices.

Capital Assets: Capital assets purchased or acquired, with an original cost of \$5,000 or more, are recorded at historical cost or estimated historical cost. Contributed assets are reported at fair market value as of the date received. Additions, improvements and other capital outlay that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. Capital assets are depreciated using the straight-line method over 4 - 30 years depending on asset types.

Interfund Activity: Interfund activity is reported as either loans, services provided, reimbursements or transfers. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures/expenses. Reimbursements are when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers between governmental or proprietary funds are netted as part of the reconciliation to the government-wide financial statements.

Deferred Outflows/Inflows of Resources: In addition to assets, the Statement of Net Position includes a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s), and as such will not be recognized as an outflow of resources (expense/expenditures) until then. The District has recognized a deferred loss on refunding of debt, in the statement of net position. A deferred loss on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shortened life of the refunded or refunding debt. There District recognized \$58,248 amortization for the year ended June 30, 2015. Additionally, the District has recognized a deferred outflow of resources related to the recognition of the pension liability reported in the Statement of Net Position.

 NOTES TO FINANCIAL STATEMENTS  
 June 30, 2015

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

In addition to liabilities, the Statement of Net Position includes a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and as such, will not be recognized as an inflow of resources (revenue) until that time. The District has recognized a deferred inflow of resources related to the recognition of the pension liability reported which is in the Statement of Net Position.

Pensions: For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the State Teachers' Retirement Plan (STRP) and Public Employers Retirement Fund B (PERF B) and additions to/deductions from STRP's and PERF B's fiduciary net position have been determined on the same basis as they are reported by STRP and PERF B. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value. The following is a summary of pension amounts in aggregate:

Compensated Absences: Compensated absences benefits in the amount of \$274,566 are recorded as a liability of the District. The liability is for the earned but unused benefits.

Accumulated Sick Leave: Sick leave benefits are accumulated for each employee. The employees do not gain a vested right to accumulated sick leave. Accumulated sick leave benefits are not recognized as liabilities of the District since cash payment of such benefits is not probable. Therefore, sick leave benefits are recorded as expenditures in the period that sick leave is taken..

Unearned Revenue: Revenues from federal, state, and local special projects and programs are recognized when qualified expenditures have been incurred. Funds received but not earned are recorded as unearned revenue until earned.

Net Position: Net position is displayed in three components:

1 - Net Investment in Capital Assets - Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances (excluding unspent bond proceeds) of any bonds, mortgages, notes or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

2- Restricted Net Position - Restrictions of the ending net position indicate the portions of net position not appropriate for expenditure or amounts legally segregated for a specific future use. The restriction for unspent categorical program revenues represents the portion of net position restricted to specific program expenditures. The restriction for self-insurance represents the portion of net position restricted for payment of the self-insured claims. The restriction for special revenues represents the portion of net position restricted for special purposes. The restriction for debt service represents the portion of net position available for the retirement of debt. The restriction for capital projects represents the portion of net position restricted for capital projects. The restriction for self-insurance represents the portion of net position restricted for payment of the self-insured claims. It is the District's policy to use restricted net position first when allowable expenditures are incurred.

Fund Balance Classifications: Governmental Accounting Standards Board Codification Sections 1300 and 1800, *Fund Balance Reporting and Governmental Fund Type Definitions* (GASB Cod. Sec. 1300 and 1800) implements a five-tier fund balance classification hierarchy that depicts the extent to which a government is bound by spending constraints imposed on the use of its resources. The five classifications, discussed in more detail below, are nonspendable, restricted, committed, assigned and unassigned.

A - Nonspendable Fund Balance:

The nonspendable fund balance classification reflects amounts that are not in spendable form, such as revolving fund cash and inventory.

B - Restricted Fund Balance:

The restricted fund balance classification reflects amounts subject to externally imposed and legally enforceable constraints. Such constraints may be imposed by creditors, grantors, contributors, or laws or regulations of other governments, or may be imposed by law through constitutional provisions or enabling legislation. These are the same restrictions used to determine restricted net position as reported in the government-wide and fiduciary trust fund statements.

C - Committed Fund Balance:

The committed fund balance classification reflects amounts subject to internal constraints self-imposed by formal action of the Board of Trustees. The constraints giving rise to committed fund balance must be imposed no later than the end of the reporting period. The actual amounts may be determined subsequent to that date but prior to the issuance of the financial statements. At June 30, 2015 the District had no committed fund balances.

D - Assigned Fund Balance:

The assigned fund balance classification reflects amounts that the District's Board of Trustees has approved to be used for specific purposes, based on the District's intent related to those specific purposes. The Board of Trustees can designate personnel with the authority to assign fund balances, however, as of June 30, 2015, no such designation has occurred.

E - Unassigned Fund Balance:

In the General Fund only, the unassigned fund balance classification reflects the residual balance that has not been assigned to other funds and that is not restricted, committed, or assigned to specific purposes.

In any fund other than the General Fund, a positive unassigned fund balance is never reported because amounts in any other fund are assumed to have been assigned, at least, to the purpose of that fund. However, deficits in any fund, including the General Fund that cannot be eliminated by reducing or eliminating amounts assigned to other purposes are reported as negative unassigned fund balance.

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES** (Continued)

Fund Balance Policy: The District has an expenditure policy relating to fund balances. For purposes of fund balance classifications, expenditures are to be spent from restricted fund balances first, followed in order by committed fund balances (if any), assigned fund balances and lastly unassigned fund balances.

While GASB Cod. Sec. 1300 and 1800 do not require districts to establish a minimum fund balance policy or a stabilization arrangement, GASB Cod. Sec. 1300 and 1800 do require the disclosure of a minimum fund balance policy and stabilization arrangements, if they have been adopted by the Board of Trustees. At June 30, 2015, the District has not established a minimum fund balance policy nor has it established a stabilization arrangement.

Property Taxes: Secured property taxes are attached as an enforceable lien on property as of March 1. Taxes are due in two installments on December 10 and April 10. Unsecured property taxes are due in one installment on or before August 31. The County of Santa Clara bills and collects taxes for the District. Tax revenues are recognized by the District when received.

Eliminations and Reclassifications: In the process of aggregating data for the Statement of Net Position and the Statement of Activities, some amounts reported as interfund activity and balances in the funds were eliminated or reclassified. Interfund receivables and payables were eliminated to minimize the "grossing up" effect on assets and liabilities within the governmental activities column.

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions. These estimates and assumptions affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Accordingly, actual results may differ from those estimates.

New Accounting Pronouncements: In June 2012, the GASB issued GASB Statement No. 68, Accounting and Financial Reporting for Pensions. This Statement replaces the requirements of GASB Statement No. 27, Accounting for Pensions by State and Local Governmental Employers and GASB Statement No. 50, Pension Disclosures, as they relate to governments that provide pensions through pension plans administered as trusts or similar arrangements that meet certain criteria. GASB Statement No. 68 requires governments providing defined benefit pensions to recognize their long-term obligation for pension benefits as a liability for the first time, and to more comprehensively and comparably measure the annual costs of pension benefits. The Statement also enhances accountability and transparency through revised and new note disclosures and RSI. This Statement is effective for the District's financial period ending June 30, 2015. Based on the implementation of GASB Statement No. 68, the District's July 1, 2014 governmental activities net position was restated by \$100,073,507 because of the recognition of the net pension liability and deferred outflows of resources.

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

In November 2013 GASB issued GASB Statement No. 71, Pension Transition for Contributions Made Subsequent to the Measurement Date. The objective of this Statement is to address an issue regarding application of the transition provisions of GASB Statement No. 68. The issue relates to amounts associated with contributions, if any, made by a state or local government employer or nonemployer contributing entity to a defined benefit pension plan after the measurement date of the government's beginning net pension liability. This Statement amends paragraph 137 of GASB Statement No. 68 to require that, at transition, a government recognize a beginning deferred outflow of resources for its pension contributions, if any, made subsequent to the measurement date of the beginning net pension liability. GASB Statement No. 68, as amended, continues to require that beginning balances for other deferred outflows of resources and deferred inflows of resources related to pensions be reported at transition only if it is practical to determine all such amounts. The provisions of this Statement are required to be applied simultaneously with the provisions of GASB Statement No. 68 and are effective for the District's fiscal year ending June 30, 2015. Based on the implementation of GASB Statement No. 71, the District established a deferred outflow category to report the payments made subsequent to the measurement date of the pensions as well as deferred inflow category to report the net differences between projected and actual earnings on investments of the pensions in the Statement of Net Position.

In February 2015, the GASB has issued its final standard on accounting and financial reporting issues related to fair value measurements, applicable primarily to investments made by state and local governments. GASB Statement No. 72, Fair Value Measurement and Application, defines fair value and describes how fair value should be measured, what assets and liabilities should be measured at fair value, and what information about fair value should be disclosed in the notes to the financial statements. Under GASB Statement No. 72, fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Investments, which generally are measured at fair value, are defined as a security or other asset that governments hold primarily for the purpose of income or profit and the present service capacity of which are based solely on their ability to generate cash or to be sold to generate cash. Before the issuance of GASB Statement No. 72, state and local governments have been required to disclose how they arrived at their measures of fair value if not based on quoted market prices. Under the new guidance, those disclosures have been expanded to categorize fair values according to their relative reliability and to describe positions held in many alternative investments. This statement is effective for the District's fiscal year ending June 30, 2016. Management has not determined what impact this statement will have on its financial statements.

In June 2015, the GASB issued GASB Statement No. 73, Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement No. 68, and Amendments to Certain Provisions of GASB Statements No. 67 and 68, completes the suite of pension standards. GASB Statement No. 73 establishes requirements for those pensions and pension plans that are not administered through a trust meeting specified criteria (in other words, those not covered by GASB Statements No. 67 and 68). The requirements in GASB Statement No. 73 for reporting pensions generally are the same as in GASB Statement No. 68. However, the lack of a pension plan that is administered through a trust that meets specified criteria is reflected in the measurements. The provisions in GASB Statement No. 73 are effective for fiscal years beginning after June 15, 2015, except those provisions that address employers and governmental nonemployer contributing entities for pensions that are not within the scope of GASB No. Statement 68, which are effective for fiscal years beginning after June 15, 2016. Management has not determined what impact this statement will have on its financial statements.

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES** (Continued)

In June 2015, the GASB issued GASB Statement No. 74, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans, which replaces GASB Statement No. 43, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans. GASB Statement No. 74 addresses the financial reports of defined benefit OPEB plans that are administered through trusts that meet specified criteria. The Statement follows the framework for financial reporting of defined benefit OPEB plans in GASB Statement No. 45 by requiring a statement of fiduciary net position and a statement of changes in fiduciary net position. The Statement requires more extensive note disclosures and RSI related to the measurement of the OPEB liabilities for which assets have been accumulated, including information about the annual money-weighted rates of return on plan investments. GASB Statement No. 74 also sets forth note disclosure requirements for defined contribution OPEB plans. This statement is effective for the District's fiscal year ending June 30, 2017. Management has not determined what impact this statement will have on its financial statements.

In June 2015, the GASB has issued GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions, which replaces the requirements of GASB Statement No. 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions. GASB Statement No. 75 requires governments to report a liability on the face of the financial statements for the OPEB that they provide. Governments that are responsible only for OPEB liabilities related to their own employees and that provide OPEB through a defined benefit OPEB plan administered through a trust that meets specified criteria will report a net OPEB liability, which is the difference between the total OPEB liability and assets accumulated in the trust and restricted to making benefit payments. Governments that participate in a cost-sharing OPEB plan that is administered through a trust that meets the specified criteria will report a liability equal to their proportionate share of the collective OPEB liability for all entities participating in the cost-sharing plan. Governments that do not provide OPEB through a trust that meets specified criteria will report the total OPEB liability related to their employees. GASB Statement No. 75 carries forward from GASB Statement No. 45 the option to use a specified alternative measurement method in place of an actuarial valuation for purposes of determining the total OPEB liability for benefits provided through OPEB plans in which there are fewer than 100 plan members (active and inactive). This option was retained in order to reduce costs for smaller governments. GASB Statement No. 75 requires governments in all types of OPEB plans to present more extensive note disclosures and required supplementary information (RSI) about their OPEB liabilities. Among the new note disclosures is a description of the effect on the reported OPEB liability of using a discount rate and a healthcare cost trend rate that are one percentage point higher and one percentage point lower than assumed by the government. The new RSI includes a schedule showing the causes of increases and decreases in the OPEB liability and a schedule comparing a government's actual OPEB contributions to its contribution requirements. Some governments are legally responsible to make contributions directly to an OPEB plan or make benefit payments directly as OPEB comes due for employees of other governments. In certain circumstances (called special funding situations) Statement 75 requires these governments to recognize in their financial statements a share of the other government's net OPEB liability. This statement is effective for the District's fiscal year ending June 30, 2018. Earlier application is encouraged. Management has determined that this statement will not have an impact on its financial statements because the District has no OPEB.

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

In June 2015, the GASB has issued GASB Statement No. 76, The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments, which reduces the GAAP hierarchy to two categories of authoritative GAAP from the four categories under GASB Statement No. 55, The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments. The first category of authoritative GAAP consists of GASB Statements of Governmental Accounting Standards. The second category comprises GASB Technical Bulletins and Implementation Guides, as well as guidance from the AICPA that is cleared by the GASB. The Statement also addresses the use of authoritative and nonauthoritative literature in the event that the accounting treatment for a transaction or other event is not specified within a source of authoritative GAAP. These changes are intended to improve financial reporting for governments by establishing a framework for the evaluation of accounting guidance that will result in governments applying that guidance with less variation. That will improve the usefulness of financial statement information for making decisions and assessing accountability and enhance the comparability of financial statement information among governments. The Statement also is intended to improve implementation guidance by elevating its authoritative status to a level that requires it be exposed for a period of broad public comment prior to issuance, as is done for other GASB pronouncements. In connection with GASB Statement No. 76, the GASB also recently cleared Implementation Guide No. 2015-1, which incorporates changes resulting from feedback received during the public exposure of all of implementation guidance previously issued. This statement is effective for the District's fiscal year ending June 30, 2016. Management has not determined what impact this statement will have on its financial statements.

**NOTE 2 - CASH AND INVESTMENTS**

Cash and investments at June 30, 2015 consisted of the following:

	<u>Governmental Activities</u>	<u>Fiduciary Funds</u>
Pooled Funds:		
Cash in County Treasury:		
Cash in County Treasury	\$ 64,365,722	\$ -
Collections awaiting deposit	3,783	-
Deposits:		
Cash on hand and in banks	13,465	280,998
Cash in revolving fund	21,000	-
Cash with Fiscal Agent	3,011,199	-
Total	\$ 67,415,169	\$ 280,998

Pooled Funds: In accordance with Education Code Section 41001, the District maintains substantially all of its cash in the interest bearing Santa Clara County Treasurer's Pooled Investment Fund. These pooled funds are carried at cost which approximates fair value. Interest earned is deposited monthly into participating funds. Any investment losses are proportionately shared by all funds in the pool.

**NOTE 2 - CASH AND INVESTMENTS** (Continued)

Because the District's deposits are maintained in a recognized pooled investment fund under the care of a third party and the District's share of the Pool does not consist of specific, identifiable investment securities owned by the District, no disclosure of the individual deposits and investments or related custodial credit risk classifications is required.

In accordance with applicable state laws, the Santa Clara County Treasury may invest in derivative securities with the State of California. However, at June 30, 2015 the Santa Clara County Treasurer has represented that the Treasurer's pooled investment fund contained no derivatives or other investments with similar risk profiles.

Deposits - Custodial Credit Risk: The District limits custodial credit risk by ensuring uninsured balances are collateralized by the respective financial institution. Cash balances held in banks are insured up to \$250,000 by the Federal Deposit Insurance Corporation (FDIC) and are collateralized by the respective financial institution. At June 30, 2015, the carrying amount of the District's accounts was \$315,463 and the bank balance was \$497,447, of which \$247,447 was uninsured.

Cash with Fiscal Agent: Cash with Fiscal Agent represents amounts held by a third party custodian in the District's name.

Interest Rate Risk: The District does not have a formal investment policy that limits cash and investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. At June 30, 2015, the District had no significant interest rate risk related to cash and investments held.

Credit Risk: The District does not have a formal investment policy that limits its investment choices other than the limitations of state law.

Concentration of Credit Risk: The District does not place limits on the amount it may invest in any one issuer. At June 30, 2015, the District had no concentration of credit risk.

Interfund Activity: Transactions between funds of the District are recorded as interfund transfers, except for the Self-Insurance Fund activity which is recorded as income and expenditures of the Self-Insurance Fund and the General Fund respectively. The unpaid balances at year end, as a result of such transactions, are shown as due to and due from other funds.

Interfund Receivables/Payables: Individual fund interfund receivable and payable balances at June 30, 2015 were as follows:

<u>Fund</u>	<u>Interfund Receivables</u>	<u>Interfund Payables</u>
Major Fund:

Proprietary Fund:		
Self-Insurance	<u>6,250,000</u>	<u>-</u>
Totals	<u>\$ 6,250,000</u>	<u>\$ 6,250,000</u>

Interfund Transfers: Interfund transfers consist of operating transfers from funds receiving revenue to funds through which the resources are to be expended.

Interfund transfers for the 2014-2015 fiscal year were as follows:

Transfer from the General Fund to the Deferred Maintenance Fund for deferred maintenance.	\$ 200,000
Transfer from the Cafeteria Fund to the General Fund for indirect costs.	<u>411,090</u>

**NOTE 5 - SELF-INSURANCE**

The District buys medical coverage (medical, dental, vision) for their employees from insurance carriers. However, for certain medical plans, the District provides a third party administrator of self-insured medical benefits with rates set through an annual calculation process. The employees' and Districts' contribution are put into a common fund from which premiums and payments are made for participants. The District records and estimated liability for its self-insured medical plans.

The Medical claims liability of \$1,236,597 is based on an actuarial estimate discounted at 5%. Changes in the District's claims liabilities for the year ended June 30, 2015 were as follows:

**NOTE 8 – NET PENSION LIABILITY – STATE TEACHERS' RETIREMENT PLAN**

*General Information about the State Teachers' Retirement Plan*

Plan Description: Teaching-certified employees of the District are provided with pensions through the State Teachers' Retirement Plan (STRP) – a cost-sharing multiple-employer defined benefit pension plan administered by the California State Teachers' Retirement System (CalSTRS). The Teachers' Retirement Law (California Education Code Section 22000 et seq.), as enacted and amended by the California Legislature, established this plan and CalSTRS as the administrator. The benefit terms of the plans may be amended through legislation. CalSTRS issues a publicly available financial report that can be obtained at <http://www.calstrs.com/comprehensive-annual-financial-report>.

Benefits Provided: The STRP Defined Benefit Program has two benefit formulas:

- CalSTRS 2% at 60: Members first hired on or before December 31, 2012, to perform service that could be creditable to CalSTRS.
- CalSTRS 2% at 62: Members first hired on or after January 1, 2013, to perform service that could be creditable to CalSTRS.

The Defined Benefit Program provides retirement benefits based on members' final compensation, age and years of service credit. In addition, the retirement program provides benefits to members upon disability and to survivors/beneficiaries upon the death of eligible members. There are several differences between the two benefit formulas which are noted below.

*CalSTRS 2% at 60*

CalSTRS 2% at 60 members are eligible for normal retirement at age 60, with a minimum of five years of credited service. The normal retirement benefit is equal to 2.0 percent of final compensation for each year of credited service. Early retirement options are available at age 55 with five years of credited service or as early as age 50 with 30 years of credited service. The age factor for retirements after age 60 increases with each quarter year of age to 2.4 percent at age 63 or older. Members who have 30 years or more of credited service receive an additional increase of up to 0.2 percent to the age factor, known as the career factor. The maximum benefit with the career factor is 2.4 percent of final compensation.

CalSTRS calculates retirement benefits based on a one-year final compensation for members who retired on or after January 1, 2001, with 25 or more years of credited service, or for classroom teachers with less than 25 years of credited service if the employer elected to pay the additional benefit cost prior to January 1, 2014. One-year final compensation means a member's highest average annual compensation earnable for 12 consecutive months calculated by taking the creditable compensation that a member could earn in a school year while employed on a fulltime basis, for a position in which the person worked. For members with less than 25 years of credited service, final compensation is the highest average annual compensation earnable for any three consecutive years of credited service.

**NOTE 8 – NET PENSION LIABILITY – STATE TEACHERS' RETIREMENT PLAN** (Continued)

*CalSTRS 2% at 62*

CalSTRS 2% at 62 members are eligible for normal retirement at age 62, with a minimum of five years of credited service. The normal retirement benefit is equal to 2.0 percent of final compensation for each year of credited service. An early retirement option is available at age 55. The age factor for retirement after age 62 increases with each quarter year of age to 2.4 percent at age 65 or older.

All CalSTRS 2% at 62 members have their final compensation based on their highest average annual compensation earnable for three consecutive years of credited service.

Contributions: Required member, employer and state contribution rates are set by the California Legislature and Governor and detailed in Teachers' Retirement Law. Contribution rates are expressed as a level percentage of payroll using the entry age normal actuarial cost method.

A summary of statutory contribution rates and other sources of contributions to the Defined Benefit Program are as follows:

*Members* - Under CalSTRS 2% at 60, the member contribution rate was 8.15 percent of applicable member earnings for fiscal year 2014-15. Under CalSTRS 2% at 62, members contribute 50 percent of the normal cost of their retirement plan, which resulted in a contribution rate of 8.15 percent of applicable member earnings for fiscal year 2014-15.

In general, member contributions cannot increase unless members are provided with some type of "comparable advantage" in exchange for such increases. Under previous law, the Legislature could reduce or eliminate the 2 percent annual increase to retirement benefits. As a result of AB 1469, effective July 1, 2014, the Legislature cannot reduce the 2 percent annual benefit adjustment for members who retire on or after January 1, 2014, and in exchange for this "comparable advantage," the member contribution rates have been increased by an amount that covers a portion of the cost of the 2 percent annual benefit adjustment.

Effective July 1, 2014, with the passage of AB 1469, member contributions for those under the 2% at 60 benefit structure increase from 8.0 percent to a total of 10.25 percent of applicable member earnings, phased in over the next three years. For members under the 2% at 62 benefit structure, contributions will increase from 8.0 percent to 9.205 percent of applicable member earnings, again phased in over three years, if there is no change to normal cost.

*Employers* – 8.88 percent of applicable member earnings.

In accordance with AB 1469, employer contributions will increase from 8.25 percent to a total of 19.1 percent of applicable member earnings phased in over seven years starting in 2014. The new legislation also gives the board limited authority to adjust employer contribution rates from July 1, 2021 through June 2046 in order to eliminate the remaining unfunded actuarial obligation related to service credited to members prior to July 1, 2014. The board cannot adjust the rate by more than 1 percent in a fiscal year, and the total contribution rate in addition to the 8.25 percent cannot exceed 12 percent.

The CalSTRS employer contribution rate increases effective for fiscal year 2014-15 through fiscal year 2045-46 are summarized in the table below:

<u>Effective Date</u>	<u>Prior Rate</u>	<u>Increase</u>	<u>Total</u>
July 01, 2014	8.25%	0.63%	8.88%
July 01, 2015	8.25%	2.48%	10.73%
July 01, 2016	8.25%	4.33%	12.58%

July 01, 2018	8.25%	8.03%	16.28%
July 01, 2019	8.25%	9.88%	18.13%
July 01, 2020	8.25%	10.85%	19.10%
July 01, 2046	8.25%	Increase from prior rate ceases in 2046-47	

The District contributed \$4,691,711 to the plan for the fiscal year ended June 30, 2015.

*State* - 5.954 percent of the members’ creditable earnings from the fiscal year ending in the prior calendar year.

Additionally, beginning October 1, 1998, a statutory contribution rate of 0.524 percent, adjustable annually in 0.25 percent increments up to a maximum of 1.505 percent, of the creditable earnings from the fiscal year ending in the prior calendar year per Education Code Section 22955(b). This contribution is reduced to zero if there is no unfunded actuarial obligation and no normal cost deficit for benefits in place as of July 1, 1990. Based on the actuarial valuation, as of June 30, 2012 there was no normal cost deficit, but there was an unfunded obligation for benefits in place as of July 1, 1990. As a result, the state was required to make quarterly payments starting October 1, 2013, at an additional contribution rate of 1.024 percent. As of June 30, 2014, the state contributed \$200.7 million of the \$267.6 million total amount for fiscal year 2013-14. As a result of AB 1469, the fourth quarterly payment of \$66.9 million was included in an increased first quarter payment of \$94 million for the 2014-15 fiscal year, which was transferred on July 1, 2014.

In accordance with AB 1469, the portion of the state appropriation under Education Code Section 22955(b) that is in addition to the 2.017 percent has been replaced by section 22955.1(b) in order to fully fund the benefits in effect as of 1990 by 2046. The additional state contribution will increase from 1.437 percent in 2014-15 to 4.311 percent in 2016-17. The increased contributions end as of fiscal year 2046-2047.

July 01, 2046 and thereafter	2.017%	*	2.50%	4.571%*

\* The new legislation also gives the board limited authority to adjust state contribution rates from July 1, 2017, through June 2046 in order to eliminate the remaining unfunded actuarial obligation associated with the 1990 benefit structure. The board cannot increase the rate by more than 0.50 percent in a fiscal year, and if there is no unfunded actuarial obligation, the contribution rate imposed to pay for the 1990 benefit structure shall be reduced to zero percent. Rates in effect prior to July 1, 2014, are reinstated if necessary to address any remaining 1990 unfunded actuarial obligation from July 1, 2046, and thereafter.

*Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions*

At June 30, 2015, the District reported a liability for its proportionate share of the net pension liability that reflected a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:

District's proportionate share of the net pension liability	\$ 66,084,000
State's proportionate share of the net pension liability associated with the District	<u>39,905,000</u>
<b>Total</b>	<b><u>\$ 105,989,000</u></b>

The net pension liability was measured as of June 30, 2014, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2013. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating school Districts and the State, actuarially determined. At June 30, 2014, the District's proportion was 0.113 percent, which was an increase of zero from its proportion measured as of June 30, 2013.

**NOTE 8 – NET PENSION LIABILITY – STATE TEACHERS' RETIREMENT PLAN** (Continued)

For the year ended June 30, 2015, the District recognized pension expense of \$6,674,452 and revenue of \$2,850,038 for support provided by the State. At June 30, 2015, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Difference between expected and actual experience	\$ -	\$ -
Changes of assumptions	-	-
Net differences between projected and actual earnings on investments	-	16,273,000

Contributions made subsequent to measurement date	<u>4,691,711</u>	<u>-</u>
Total	<u>\$ 4,691,711</u>	<u>\$ 16,273,000</u>

\$4,691,711 reported as deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

<u>Years Ended June 30,</u>	
2016	\$ 4,068,250
2017	\$ 4,068,250
2018	\$ 4,068,250
2019	\$ 4,068,250

Differences between expected and actual experience and changes in assumptions are amortized over a closed period equal to the average remaining service life of plan members, which is 7 years as of June 30, 2014. The STRP net pension liability as of June 30, 2013 and the STRP net pension liability as of June 30, 2014 are based on the June 30, 2013 actuarial valuation for the first year of implementation. As a result there are no differences between expected and actual experience or changes in assumptions subject to amortization. Deferred outflows and inflows related to differences between projected and actual earnings on plan investments are netted and amortized over a closed 5-year period.

Actuarial Methods and Assumptions: The total pension liability for the STRP was determined by applying update procedures to a financial reporting actuarial valuation as of June 30, 2013, and rolling forward the total pension liability to June 30, 2014. The financial reporting actuarial valuation as of June 30, 2013, used the following actuarial methods and assumptions, applied to all prior periods included in the measurement:

Valuation Date	June 30, 2013
Experience Study	July 1, 2006, through June 30, 2010
Actuarial Cost Method	Entry age normal
Investment Rate of Return	7.60%
Consumer Price Inflation	3.00%
Wage Growth	3.75%
Post-retirement Benefit Increases	2.00% simple for DB Not applicable for DBS/CBB

CalSTRS uses custom mortality tables to best fit the patterns of mortality among its members. These custom tables are based on RP2000 series tables adjusted to fit CalSTRS experience. RP2000 series tables are an industry standard set of mortality rates published by the Society of Actuaries. See CalSTRS July 1, 2006 – June 30, 2010 experience analysis for more information.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. The best estimate ranges were developed using capital market assumptions from CalSTRS general investment consultant as an input to the process. Based on the model from CalSTRS consulting actuary's investment practice, a best estimate range was determined by assuming the portfolio is re-balanced annually and that annual returns are log normally distributed and independent from year to year to develop expected percentiles for the long-term distribution of annualized returns. The assumed asset allocation by PCA is based on board policy for target asset allocation in effect on February 2, 2012, the date the current experience study was approved by the board. Best estimates of 10-year geometric real rates of return and the assumed asset allocation for each major asset class used as input to develop the actuarial investment rate of return are summarized in the following table:

<u>Asset Class</u>	<u>Assumed Asset Allocation</u>	<u>Long-Term* Expected Real Rate of Return</u>
Global Equity	47%	4.50%
Private Equity	12	6.20
Real Estate	15	4.35

**NOTE 8 – NET PENSION LIABILITY – STATE TEACHERS' RETIREMENT PLAN (Continued)**

Discount Rate: The discount rate used to measure the total pension liability was 7.60 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and employers will be made at statutory contribution rates in accordance with the rate increase per Assembly Bill 1469. Projected inflows from investment earnings were calculated using the long-term assumed investment rate of return (7.60 percent) and assuming that contributions, benefit payments, and administrative expense occur midyear. Based on those assumptions, the STRP's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term assumed investment rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate: The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.60 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.60 percent) or 1-percentage-point higher (8.60 percent) than the current rate:

	1% Decrease <u>(6.60%)</u>	Current Discount Rate <u>(7.60%)</u>	1% Increase <u>(8.60%)</u>

*General Information about the Public Employer's Retirement Fund B*

Plan Description: The schools cost-sharing multiple-employer defined benefit pension plan Public Employer's Retirement Fund B (PERF B) is administered by the California Public Employees' Retirement System (CalPERS). Plan membership consists of non-teaching and non-certified employees of public schools (K-12), community college districts, offices of education, charter and private schools (elective) in the State of California.

The Plan was established to provide retirement, death and disability benefits to non-teaching and noncertified employees in schools. The benefit provisions for Plan employees are established by statute. CalPERS issues a publicly available financial report that can be obtained at the CalPERS website.

Benefits Provided: The benefits for the defined benefit plans are based on members' years of service, age, final compensation, and benefit formula. Benefits are provided for disability, death, and survivors of eligible members or beneficiaries. Members become fully vested in their retirement benefits earned to date after five years (10 years for State Second Tier members) of credited service.

**NOTE 9 – NET PENSION LIABILITY – PUBLIC EMPLOYER’S RETIREMENT FUND B** (Continued)

**Contributions:** The benefits for the defined benefit pension plans are funded by contributions from members and employers, and earnings from investments. Member and employer contributions are a percentage of applicable member compensation. Member contribution rates are defined by law and depend on the respective employer’s benefit formulas. Employer contribution rates are determined by periodic actuarial valuations or by state statute. Actuarial valuations are based on the benefit formulas and employee groups of each employer. Employer contributions, including lump sum contributions made when agencies first join the PERF, are credited with a market value adjustment in determining contribution rates.

The required contribution rates of most active plan members are based on a percentage of salary in excess of a base compensation amount ranging from zero dollars to \$863 monthly.

Required contribution rates for active plan members and employers as a percentage of payroll for the year ended June 30, 2015 were as follows:

*Members* - The member contribution rate was 6.0 or 7.0 percent of applicable member earnings for fiscal year 2014-15.

*Employers* - The employer contribution rate was 11.771 percent of applicable member earnings.

The District contributed \$2,108,914 to the plan for the fiscal year ended June 30, 2015.

*Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions*

At June 30, 2015, the District reported a liability of \$17,060,000 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2014, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2013. The District’s proportion of the net pension liability was based on the District’s share of contributions to the pension plan relative to the projected contributions of all participating school Districts. At June 30, 2014, the District’s proportion was 0.150 percent, which was an decrease of 0.013 percent from its proportion measured as of June 30, 2013.

For the year ended June 30, 2015, the District recognized pension expense of \$1,004,791. At June 30, 2015, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Difference between expected and actual experience	\$ -	\$ -
Changes of assumptions	-	-
Net differences between projected and actual earnings on investments	-	5,862,000

**NOTE 9 – NET PENSION LIABILITY – PUBLIC EMPLOYER’S RETIREMENT FUND B** (Continued)

\$2,108,914 reported as deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Years Ended <u>June 30,</u>	
2016	\$ 1,973,750
2017	\$ 1,973,750
2018	\$ 1,973,750
2019	\$ 1,465,500

Differences between expected and actual experience and changes in assumptions are amortized over a closed period equal to the average remaining service life of plan members, which is 4 years as of June 30, 2013. Deferred outflows and inflows related to differences between projected and actual earnings on plan investments are netted and amortized over a closed 5-year period.

Actuarial Methods and Assumptions: The total pension liability for the Plan was determined by applying update procedures to a financial reporting actuarial valuation as of June 30, 2013, and rolling forward the total pension liability to June 30, 2014. The financial reporting actuarial valuation as of June 30, 2013, used the following actuarial methods and assumptions, applied to all prior periods included in the measurement:

Valuation Date	June 30, 2013
Experience Study	July 1, 2006, through June 30, 2010
Actuarial Cost Method	Entry age normal
Investment Rate of Return	7.50%
Consumer Price Inflation	2.75%
Wage Growth	Varies by entry age and service
Post-retirement Benefit Increases	Contract COLA up to 2.00% until Purchasing Power Protection Allowance Floor on Purchasing Power applies 2.75% thereafter

The mortality table used was developed based on CalPERS specific data. The table includes 20 years of mortality improvements using Society of Actuaries Scale BB. For more details on this table, please refer to the 2014 experience study report.

All other actuarial assumptions used in the June 30, 2013 valuation were based on the results of an actuarial experience study for the period from 1997 to 2011, including updates to salary increase, mortality and retirement rates. Further details of the Experience Study can be found at CalPERS' website.

**NOTE 9 – NET PENSION LIABILITY – PUBLIC EMPLOYER’S RETIREMENT FUND B** (Continued)

The table below reflects long-term expected real rate of return by asset class. The rate of return was calculated using the capital market assumptions applied to determine the discount rate and asset allocation.

<u>Asset Class</u>	<u>Long-Term* Assumed Asset Allocation</u>	<u>Expected Real Rate of Return</u>
Global Equity	47%	5.25%
Global Fixed Income	19	0.99
Inflation Sensitive	6	0.45
Private Equity	12	6.83
Real Estate	11	4.50
Infrastructure & Forestland	3	4.50
Liquidity	2	(0.55)

\* 10-year geometric average

Discount Rate: The discount rate used to measure the total pension liability was 7.50 percent. A projection of the expected benefit payments and contributions was performed to determine if assets would run out. The test revealed the assets would not run out. Therefore the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability for the Plan. The results of the crossover testing for the Plan are presented in a detailed report that can be obtained at CalPERS’ website.

According to Paragraph 30 of Statement 68, the long-term discount rate should be determined without reduction for pension plan administrative expense. The 7.50 percent investment return assumption used in the actuarial valuation is net of administrative expenses. Administrative expenses are assumed to be 15 basis points. An investment return excluding administrative expenses would have been 7.65 percent. Using this lower discount rate has resulted in a slightly higher total pension liability and net pension liability. This difference was deemed immaterial to the Plan and the District.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected cash flows of the Plan. Such cash flows were developed assuming that both members and employers will make their required contributions on time and as scheduled in all future years. Using historical returns of all the Plan’s asset classes, expected compound (geometric) returns were calculated over the short-term (first 10 years) and the long-term (11-60 years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated. The expected rate of return was set by calculating the single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equivalent to the single equivalent rate calculated above and rounded down to the nearest one quarter of one percent.

**NOTE 10 - CONTINGENCIES**

The District is subject to legal proceedings and claims which arise in the ordinary course of business. In the opinion of management, the amount of ultimate liability with respect to these actions will not materially affect the financial position or results of operations of the District.

The District has received federal and state funds for specific purposes that are subject to review and audit by the grantor agencies. Although such audits could result in expenditure disallowances under terms of the grants, it is management’s opinion that any required reimbursements or future revenue offsets subsequently determined will not be material.

**NOTE 11 - SUBSEQUENT EVENTS**

In August 2015 the District issued \$37,395,000 of 2015 General Obligation Refunding Bonds to refund a portion the 2008 General Obligation Bonds, Series A. The bonds mature in varying amounts through August 2025 with interest rates from 2.0% to 5.0%.

**NOTE 1 - PURPOSE OF SCHEDULES**

A - Budgetary Comparison Schedule

The District employs budget control by object codes and by individual appropriation accounts. Budgets are prepared on the modified accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America as prescribed by the Governmental Accounting Standards Board. The budgets are revised during the year by the Board of Education to provide for revised priorities. Expenditures cannot legally exceed appropriations by major object code. The originally adopted and final revised budgets for the General Fund are presented as Required Supplementary Information. The basis of budgeting is the same as GAAP.

B - Schedule of the District's Proportionate Share of the Net Pension Liability

The Schedule of the District's Proportionate Share of the Net Pension Liability is presented to illustrate the elements of the District's Net Pension Liability. There is a requirement to show information for 10 years. However, until a full 10-year trend is compiled, governments should present information for those years for which information is available.

C - Schedule of the District's Contributions

The Schedule of the District's Contributions is presented to illustrate the District's required contributions relating to the pensions. There is a requirement to show information for 10 years. However, until a full 10-year trend is compiled, governments should present information for those years for which information is available.

D - Changes of benefit terms

There are no changes in benefit terms reported in the Required Supplementary Information.

E - Changes of assumptions

There are no changes in assumptions reported in the Required Supplementary Information.

**NOTE 1 - PURPOSE OF SCHEDULES**

A - Schedule of Average Daily Attendance

Average daily attendance is a measurement of the number of pupils attending classes of the District. The purpose of attendance accounting from a fiscal standpoint is to provide the basis on which apportionments of state funds are made to school districts. This schedule provides information regarding the attendance of students at various grade levels and in different programs.

B - Schedule of Instructional Time

The District has received incentive funding for increasing instructional time as provided by the Incentives for Longer Instructional Day. This schedule presents information on the amount of instructional time offered by the District, and whether the District complied with the provisions of Education Code Sections 46201 through 46206.

C - Schedule of Expenditure of Federal Awards

OMB Circular A-133 requires a disclosure of the financial activities of all federally funded programs. This schedule was prepared to comply with A-133 requirements, and is presented on the modified accrual basis of accounting.

The following schedule provides a reconciliation between revenues reported on the Statement of Revenues, Expenditures and Change in Fund Balances and the related expenditures reported on the Schedule of Expenditure of Federal Awards. The reconciling amounts represent Federal funds that have been recorded as revenues that have not been expended by June 30, 2015.

<u>Description</u>	<u>CFDA Number</u>	<u>Amount</u>
Total Federal Revenues, Statement of Revenues, Expenditures and Change in Fund Balances		\$ 14,457,128
Less: Medi-Cal Billing Option not spent		<u>(30,339)</u>
Total Schedule of Expenditure of Federal Awards		<u>\$ 14,426,789</u>

D - Reconciliation of Unaudited Actual Financial Report with Audited Financial Statements

This schedule provides the information necessary to reconcile the fund balances of all funds as reported on the Unaudited Actual Financial Report to the audited financial statements.

E - Schedule of Financial Trends and Analysis - Unaudited

This schedule provides trend information on District's financial condition over the past three years and its anticipated condition for the 2015-2016 fiscal year, as required by the State Controller's Office. The information in this schedule has been derived from audited information.

We did not perform procedures related to Independent Study because the District's reported ADA was below the materiality level that requires testing.

We did not perform any procedures related to Continuation Education or After School Education and Safety Program, Before School, because the District does not offer these programs.

The District did not offer an Early Retirement Incentive Program; therefore, we did not perform any procedures related to the Early Retirement Incentive Program.

The District does not operate a Juvenile Court Schools Program; therefore, we did not perform any procedures related to the program.

The District does not have any Middle or Early College High Schools, therefore, we did not perform any procedures related to Middle or Early College High Schools.

The District does not have any Regional Occupational Centers or Programs, therefore, we did not perform any procedures related to Regional Occupational Centers or Programs Maintenance of Effort.

The District does not have any Adult Education, therefore, we did not perform any procedures related to Adult Education Maintenance of Effort.

The District does not offer a Before School Education and Safety Program; therefore, we did not perform any procedures relating to the Before School Education and Safety Program.

We did not perform any procedures related to Nonclassroom-Based Instruction/Independent Study, for charter schools or Determination of Funding for Nonclassroom-Based Instruction, for charter schools because the District's charter school has no Nonclassroom-Based/Independent Study students.

We did not perform any procedures related to Charter School Facility Grant Program as the District did not expend funds in the current year.

### ***Management's Responsibility***

Management is responsible for compliance with the requirements of state laws and regulations, as listed above.

### ***Auditor's Responsibility***

Our responsibility is to express an opinion on compliance with state laws and regulations as listed above of Alum Rock Union Elementary School District. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the State of California's *2014-15 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the state laws and regulations listed below occurred. An audit includes examining, on a test basis, evidence about Alum Rock Union Elementary School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance with state laws and regulations. However, our audit does not provide a legal determination of Alum Rock Union Elementary School District's compliance.

### ***Basis for Qualified Opinion on Compliance with State Laws and Regulations***

As described in Finding 2015-001 in the accompanying Schedule of Audit Findings and Questioned Costs, Alum Rock Union Elementary School District did not comply with requirements regarding Attendance Reporting. Compliance with such requirements is necessary, in our opinion, for Alum Rock Union Elementary School District to comply with state laws and regulations applicable to Attendance Reporting.

### ***Opinion on State Laws and Regulations***

In our opinion, except for the noncompliance described in the Basis for Qualified Opinion paragraph, Alum Rock Union Elementary School District complied, in all material respects, with the state laws and regulations referred to above for the year ended June 30, 2015. Further, based on our examination, for items not tested, nothing came to our attention to indicate that Alum Rock Union Elementary School District had not complied with the state laws and regulations.

### ***Other Matter***

Alum Rock Union Elementary School District's response to the noncompliance finding identified in our audit is described in the accompanying Schedule of Audit Findings and Questioned Costs. Alum Rock Union Elementary School District's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on it.

### **Purpose of this Report**

The purpose of this report on compliance is solely to describe the scope of our testing of compliance and the results of that testing based on the requirements of the State of California's *2014-15 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*. Accordingly, this report is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND  
ON COMPLIANCE AND OTHER MATTERS  
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH  
*GOVERNMENT AUDITING STANDARDS*

Board of Trustees  
Alum Rock Union Elementary School District  
San Jose, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Alum Rock Union Elementary School District as of and for the year ended June 30, 2015 and the related notes to the financial statements, which collectively comprise Alum Rock Union Elementary School District's basic financial statements, and have issued our report thereon dated December 2, 2015.

#### **Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered Alum Rock Union Elementary School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Alum Rock Union Elementary School District's internal control. Accordingly, we do not express an opinion on the effectiveness of Alum Rock Union Elementary School District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether Alum Rock Union Elementary School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

## Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE  
FOR EACH MAJOR FEDERAL PROGRAM AND REPORT  
ON INTERNAL CONTROL OVER COMPLIANCE

Board of Trustees  
Alum Rock Union Elementary School District  
San Jose, California

**Report on Compliance for Each Major Federal Program**

We have audited Alum Rock Union Elementary School District's compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of Alum Rock Union Elementary School District's major federal programs for the year ended June 30, 2015. Alum Rock Union Elementary School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

***Management's Responsibility***

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

***Auditor's Responsibility***

Our responsibility is to express an opinion on compliance for each of Alum Rock Union Elementary School District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Alum Rock Union Elementary School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Alum Rock Union Elementary School District's compliance.

***Opinion on Each Major Federal Program***

In our opinion, Alum Rock Union Elementary School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2015.

---

(Continued)

## Report on Internal Control Over Compliance

Management of Alum Rock Union Elementary School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Alum Rock Union Elementary School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Alum Rock Union Elementary School District's internal control over compliance.

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

### Purpose of the Report

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.
