

AP Spanish Language Summer Work 2019

Over the summer, we would like you to immerse yourself in the language as much as possible. To do this, we believe listening to Spanish will be your best option.

A. Here's how you can do this:

1. Please download the app, **News in Slow Spanish (red app)** from the App store content
2. Use free content only
3. Click on advanced for the audio
4. Listen to the news of the week
 - a. As you listen, please take notes with the date listed
 - b. We want you to do this for only 4 weeks of the summers
5. At the end of the summer, the week prior to coming back, please draft a handwritten letter to a government official in response to one of the weeks newscast.

B. TV/Radio

Please listen to the tv or radio as often as you can throughout the summer in Spanish. Your ability to understand the audio files will increase once you return to school if you continue with this! Languages need to be worked on continuously.

Have a great summer and see you in the Fall!
