Summer Assignment for Mrs. Kiel

Know your elements! dkiel@fairfieldprep.org

1) Make flash cards on 3x5 index cards for all elements on the Periodic Table. Blank side Letters, lined side the name.
2) Bring them the first day of class
3) Memorize all the elements name and symbols only (no numbers, no specific order).
4) If the name does not match the letters include an explanation on the lined side of the card why. What is the other name of that element and county of origin?
5) On the two charts below there are groups of elements that like to stay together (some are repeated). These groups are called Polyatomic ions. Make flashcards for each of these. Include the charge! Do these on colored index cards.
6) Bring on Day 1 to class and have wrapped in a separate pile.
7) Memorize all of these. Use the summer to study a few a day.
