Northshore School District Rowing
Swim and Float Test

Participants must either successfully pass a float test or provide recognized documentation of swimming ability (such as Red Cross water safety card or equivalent) prior to the first “on the water” session, class or activity with Northshore School District.

HOW TO TAKE THE FLOAT TEST:

1. Find a pool with a lifeguard. This may be your local public pool (the internet can be a good tool to find your nearest public pool), your health club or a YMCA.
   a. Participant must complete a 150-meter (about 165 yards) swim without touching the bottom of the pool.
   b. In deep water, you must float, tread water or swim in place for 10 minutes while wearing attire that you might typically wear while rowing (t-shirt and shorts or equivalent. No bathing suits, please.)
   c. At the conclusion of 10 minutes, you must put on a Coast Guard approved PFD (personal float device) while still under the water.

2. Float tests must be taken under the supervision of a lifeguard certified by the American Red Cross.

FOR POOL USE

The following participant has successfully passed a 150-meter swim and ten-minute float test as required for participation in a small craft program sponsored by Northshore School District.
