Mathematics PK-12 Options Chart
Revised: 2016-2017

**KEY**
- **Color codes and equivalency to Colorado Academic Standards**
- **Support**
  - PK-3: Pre-Kindergarten
  - Kindergarten
  - 1st Grade
  - 2nd Grade
  - 3rd Grade
  - 4th Grade
  - 5th Grade
- **Grade Level**
  - 6th Grade Mathematics
  - 7th Grade Mathematics
  - 8th Grade Mathematics
  - 9th Grade Mathematics
  - 10th Grade Mathematics
  - 11th Grade Mathematics
  - 12th Grade Mathematics
- **E-5**
  - Middle School Transitions
  - Elementary Math Standards

**Support and formal intervention as needed**
- **1-Year Accelerated Options**
  - 4th/5th Grade math intervention support
- **2-Year Accelerated Options**
  - 6th Grade math intervention support

**Differentiated math instruction, or flexible grouping with classroom teacher**
- **Acceleration, as needed**
  - 4th Grade Math
  - 5th Grade Math
  - 6th Grade Math
  - 7th Grade Math
  - 8th Grade Math
  - 9th Grade Math
  - 10th Grade Math
  - 11th Grade Math
  - 12th Grade Math

**Note:** All course selection decisions should be made on an individual basis. This chart shows the most common pathway options but does not show all possible pathways for individual students.

Compacted courses compact the learning of two years of mathematics standards into one school year. These are fast-paced courses that assume the student has full mastery of the previous years of standards.

**Note:** For International Baccalaureate Options, please contact Centaurus or Fairview High Schools.
