

## RUNNING START IN THE NORTHSORE SCHOOL DISTRICT

### Running Start College Credit While in High School

The Running Start program allows juniors and seniors to attend community and technical colleges while still attending high school. This program allows qualified students to take college courses and apply the credits toward high school graduation and potential college degrees. Tuition is paid by the Northshore School District.

- Some of the courses listed in the attached chart are also offered online or combine online coursework with on-site class sessions. In general, online courses require an additional fee. Students are advised to check with the community college to confirm their financial responsibilities in advance of enrolling in these courses.
- Students wishing to transfer college credits earned through the Running Start program to a baccalaureate institution are strongly advised to verify the college course transfer equivalencies and agreements in advance. This is particularly important if the student is intending to apply to private institutions and/or colleges or universities outside the State of Washington.
- Courses other than those listed may not meet Northshore School District graduation requirements. Students desiring consideration of courses other than those indicated must meet with and receive approval from their high school **in advance of community college registration**.
- Students will be required to complete their High School and Beyond plans at their local high schools. State high school assessments will be administered at the local high schools.

### What are the qualifications to attend classes at the surrounding community colleges?

1. The student must pass a college placement test (e.g., COMPASS, ASSET, ACCUPLACER) in order to take any college classes, and be accepted for admission to the Running Start program. The student must contact the community college for the examination schedule and consult with their high school counselor regarding college plans.
2. The student must have junior or senior standing (a minimum of 10 credits from an approved or accredited high school) in high school before taking courses through Running Start.
3. The student must be prepared to take college level courses and do college level work. Meeting grade level standards and passing the state high school assessments are indicators that the student is prepared for success at the college level.
4. The student must furnish his or her own transportation to the community college.
5. The student must purchase his or her own books for the classes and pay any parking and/or incidental fees.
6. The student must remember that while the student is taking the college level course s/he will be treated like a college student. Attendance may not be taken. Parents will not be notified if a student skips a class. Progress reports are not given. The high school is not responsible for the student's actions while attending the college classes.

### What Else Should I Know?

1. Students may participate in Running Start programs up to a combined maximum enrollment of 1.2 full-time equivalent or a full-time Running Start equivalent (no high school classes). Students must complete and sign a Running Start Enrollment Verification Form.
2. Running Start students will be charged tuition for college credits exceeding 15 in any quarter (except in college vocational programs or skills centers.)
3. The student must take the course for credit (may not audit for no credit). The student shall notify the college and the high school immediately of any intention to drop a class. Failure to notify the college and high school may result in the student reimbursing the district for tuition fees as well as receiving a failing grade in the class.
4. The Northshore School District will determine which classes taken at the community college will meet the requirements for high school graduation.
5. Students on in-district or out-of-district waivers will have their waivers rescinded if they enroll in full-time Running Start. These students would be returned to their service area schools.
6. Home-based students and private school students living in the Northshore School District should contact the Northshore Networks office at 425.408.4175 to initiate Running Start participation. Once the student begins Running Start, the student has one to two academic years to complete the course of study.
7. Some private colleges, and some out of state colleges may not accept the community college credits.
8. Summer school course work may not be taken as part of the Running Start program. All summer school course work will be at student expense. Credits earned in summer school may apply toward high school graduation.
9. Students participating in Running Start will be required to complete High School and Beyond Plans at their local high schools. State high school assessments are taken at the student's local high school.
10. Early completion of graduation requirements must be coordinated with the high school counselor and principal.
11. A student may not continue in Running Start following successful completion of high school graduation by June of their graduation year. If an individual has not completed all graduation requirements, the student may continue in the Running Start program as a "second year" senior under specific rules.
12. A second year senior is generally understood as being a student who has failed to meet high school graduation requirements as of the end of the student's 12th grade academic year. These students may continue in the program for "the sole and exclusive purpose of completing the particular course or courses required to meet high school graduation requirements." If a student does not utilize Running Start during the junior and/or senior year and fails a class at the high school during the junior or senior year, s/he cannot enroll in that class at the college through Running Start during his/her 13th year. A second year senior can only continue in Running Start if s/he was enrolled in it during his/her junior and/or senior year(s). (WAC 392-169-055).

For more information about the Running Start program, contact the Counseling Department at your high school.
