

AP Environmental Science summer 2019

Students should purchase the following course text:

Andrew Friedland (*Dartmouth College*) , Rick Relyea (*Rensselaer Polytechnic Institute*)

- ISBN-10: 1-319-11329-X; ISBN-13: 978-1-319-11329-2

Summer work: read chapter 1 & 2 and complete the "unit 1 AP practice exam"

Upon returning in the fall, they will have a couple days of review, then a test on Unit 1 of the text. If they are not prepared and do poorly, then their place in that class will be in jeopardy.

The book is available in several formats. Honestly, the e-book may be the easiest. but it is up to the student.
