## NOTICE OF ABATEMENT WORK

Dear Parents and Staff of Joliet High School District #204

During the past years, School District No. #204 has made a conscientious effort to identify and remove asbestos containing materials from its school buildings. To that end, we have made considerable strides. These removal projects are consistently tied to renovation projects or will surface as a specific project when unknown material is found within concealed areas during an ongoing project.

Joliet Central High School will be removing asbestos containing flooring materials to facilitate the floor replacement project in Room 273. The abatement project is scheduled from July 10, 2019 through July 18, 2019. Asbestos containing flooring materials are documented in the room 273. These materials will need to be removed prior to any other work proceeding, following all regulatory laws pertaining to A.H.E.R.A. (Asbestos Hazard Emergency Response Act) and EPA's NESHAP regulations.

The work areas will remain closed to all parents, students and staff during the duration of this removal project.

Please feel free to contact Joe Lopez, Director of Buildings and Grounds, 815/325-3168 with any questions related to this work.

Thank you,

Joe Lopez  
Director of Buildings and Grounds  
Joliet Central High School District #204
