TRAVEL PERMISSION FORM NON-USE OF SCHOOL PROVIDED TRANSPORTATION (Extra-curricular)

While it is the school district's expectation that students utilize school-provided transportation when it is provided, it is school district policy for parents to give one day's notice to the school administration that their child/student will not be utilizing the school provided transportation.

The school district is providing the transportation for this event/activity. It does not consent to the student's use of an alternate method of transportation, and will not be responsible for the student if he or she fails to use the school district's transportation to and/or from the event/activity.

Parents may request that their student be excused from using school district transportation to travel with them, although not encouraged, as students are expected to travel as a team.

**Students being excused from district transportation must ride with their parents. If riding with another student's parent, both parents' signature are required below.
Students may not transport themselves or provide transportation for another student.**

Please provide the necessary signatures.

This signed form should be presented to the coach prior to the event.
