

# SLC NEWS!

## SUCCESS LEARNING CENTER

***Congratulations!***

### **Graduation and Promotion at SLC**

The SLC had a record number of graduates and promotional candidates this year! Congratulations students on your accomplishment, we are so proud of you. Congratulations for your achievement and we wish you all the success and happiness the world has to offer!

## SPECIAL POINTS OF INTEREST

### APPLE STORE CODING CLASS:

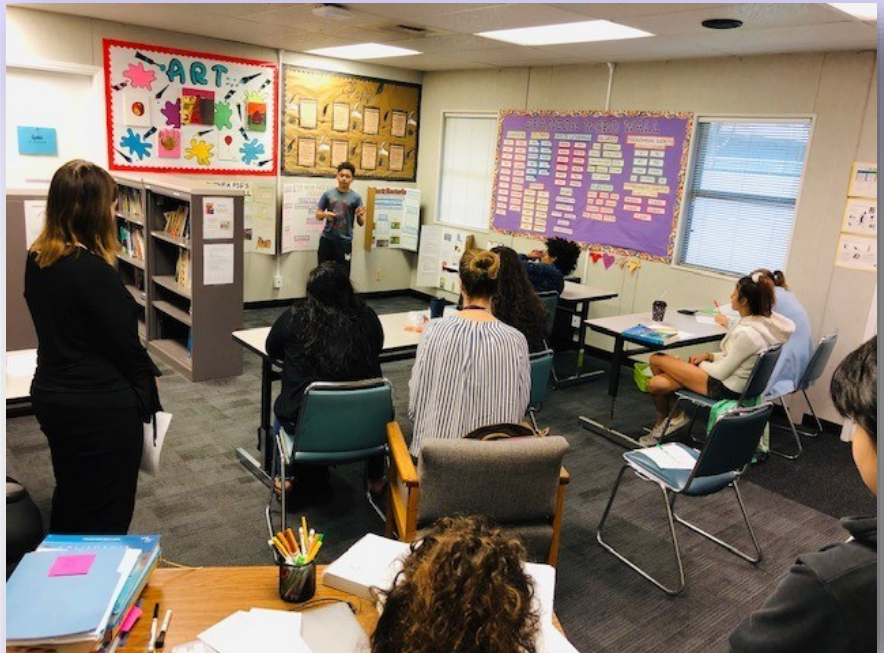

Middle and high school students will be attending the Apple Store's Coding class at the start of the new school year. The students will use Swift Playgrounds and iPad to learn coding concepts.

## Students Present Science

### Facts and Outcomes

The SLC middle school presented their science fair projects to our parents, students, and staff. Students selected their own topics for research and investigation. Students presented their project boards to display their research and were provided feedback from the audience. Students were able to practice their presentation skills while explaining their science fair projects. We all learned interesting facts and outcomes from their projects.

## Essay Winners at SLC!

SLC sponsored a spring essay contest that was open to all students. Students were asked to write a fictional short story. Their stories gave details and were all interesting to our readers. Criteria for judging included creativity, writing style, and adherence to form, rules and writing conventions. Entries were judged based upon content, organization, vocabulary, language use and mechanics.
