Business Services Division

November 9, 2010

Members of the Board of Education Dr. Christopher D. King, Superintendent of Schools Boulder Valley School District RE-2 Boulder, Colorado

It is our pleasure to submit the Comprehensive Annual Financial Report of the Boulder Valley School District RE-2 for the fiscal year ended June 30, 2010.

State law requires that all local governments publish within six months of the close of each fiscal year a complete set of financial statements presented in conformity with generally accepted accounting principles and audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants. This report is being formally submitted to the board of education in fulfillment of those requirements.

Management assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal controls that it has established for this purpose. Because the cost of internal controls should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute assurance that the financial statements are free of any material misstatements.

The 2010 Comprehensive Annual Financial Report (CAFR) presentation is in compliance with the governmental financial reporting model established by the Governmental Accounting Standards Board (GASB) Statement No. 34 titled *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*. Accounting and financial reporting for state and local governments previously focused on funds to demonstrate fiscal accountability. The GASB No. 34 reporting model parallels private sector reporting by consolidating fund-based presentations into government-wide financial statements designed to ensure and demonstrate fiscal and operational accountability.

Swanhorst & Company LLC, Certified Public Accountants, have issued an unqualified ("clean") opinion on the Boulder Valley School District RE-2's financial statements for the year ended June 30, 2010. The independent auditors' report is located at the front of the financial section of this report.

Management's discussion and analysis (MD&A) immediately follows the independent auditors' report and provides a narrative introduction, overview, and analysis of the basic financial statements. MD&A complements this letter of transmittal and should be read in conjunction with it.

Profile of the Government

Boulder Valley School District RE-2 is a public school district, organized and existing under the School District Organization Act of 1965, Article 30, Title 22, and Colorado Revised Statutes. It was originally organized in 1860 and was reorganized in 1961 to include numerous smaller districts. A seven member board of education elected by the citizens of Boulder, Broomfield and Gilpin Counties governs the district. Board members serve four-year terms, with four members elected every two years. Board members are term-limited at two terms.

The district is located near the foothills of the Rocky Mountains approximately twenty miles northwest of Denver. The district is made up of approximately 500 square miles in the southern half of Boulder County, the northern part of Gilpin County and a significant portion of western Broomfield County. It covers one of the larger school regions in the metro-Denver area and encompasses the communities of Boulder, Broomfield, Erie, Gold Hill, Jamestown, Lafayette, Louisville, Nederland, Superior, and Ward. For the 2009-10 school year, the district's total enrollment and student full time equivalent was 28,838 and 27,673 respectively, including charter schools. The district owns over 750 acres of prime Boulder and Broomfield County property and maintains six artificial turf athletics fields and 56 buildings spanning over four million square feet.

The district provides a full and challenging range of educational programs and services authorized by Colorado State Statute including basic kindergarten through grade twelve education in elementary, middle and high schools, special education for special needs students, vocational education, English as a second language education and numerous other educational and support programs. In addition, the district offers preschool programs through the Colorado Preschool Program, Community Montessori focus school and the Special Education program.

Five charter schools are included as component units of the Boulder Valley School District RE-2 for the 2010 CAFR: Boulder Preparatory High School, Horizons K-8 Alternative School, Peak to Peak K-12 Charter School, Summit Middle Charter School and Justice High Charter School.

Economic Conditions and Outlook

The state economic picture is important to the district because a major source of funding for the district's General Operating Fund is received through the State's School Finance Act established by the state legislature. Also, a strong local economy combined with a stable or growing population are factors critical to the health of a school district.

The City of Boulder is home to the University of Colorado, Boulder Campus, which is a significant stabilizing force for the local economy. The City of Boulder is also home to a campus of the National Institute of Standards and Technology, the National Center for Atmospheric Research, and the University Corporation for Atmospheric Research and other federal research laboratories.

Other major employers in the area include Ball Aerospace, IBM Corporation, Oracle, Level 3 Communications and numerous other smaller software, research, manufacturing and pharmaceutical firms.

In February 2008 ConocoPhillips purchased the 420 acre Storage Tek/Sun Microsystems campus in Louisville, Colorado. ConocoPhillips has deconstructed the 1.6 million square feet of existing buildings on the site and in 2011 intends to start constructing a corporate learning and

global technology center. Upon its completion in 2013, the learning center will handle research and development of renewable energy and high tech carbon fuels recovery. The facility will also house a training center to train employees from 40 different countries.

The 2010 Colorado Business Economic Outlook, published by the University of Colorado Leeds School of Business states that:

"The effects of the national recession that began in December 2007 will be felt well beyond 2010. Growth of the global and national economies will be a significant driver of the state economy. Currently there are mixed signals about whether or not Colorado will be one of the states leading the recovery."

"Despite being impacted by the economic downturn, the Boulder County economy has been outperforming the state and national economy in many areas and is well positioned for the recovery. The local economy is supported by the presence of a world-class research university, major federally funded research facilities, a high concentration of companies in advanced technology clusters, visionary entrepreneurs, and the nation's highest percentage of college graduates."

Long-term Financial Planning

Each year, the state budget is crafted by the governor and legislature to determine how much of the total budget will be allocated to education. The state economic picture is important to the district because a major source of funding for the district's General Operating Fund is received through the state's School Finance Act established by the state legislature. State revenue shortfalls necessitated cuts to K-12 education in 2009-10 although expectations for funding increases as mandated under Amendment 23 exist. One-time cash funds continue to be accessed to balance the state budget. After the state set the total funding for K-12 public education, each local district determined how to fund its specific system including every school within the district.

For the 2010-11 fiscal year, the legislature cut funding for K-12 public education. Inflation plus one percent as mandated in Amendment 23 of the Colorado constitution was not required to be fulfilled due to a shortfall in state-wide personal income growth. This revenue reduction is expected to continue into the near future.

Additional funding for specific programs identified in the American Reinvestment and Recovery Act (ARRA), "stimulus funds," will continue in 2010-11 through early 2011-12. These specific funds include Title I and IDEA Part B (special education). The total funding, available over 32 months from February 2009 through September 2011, is approximately \$7.3 million dollars. Additional funds will be sought from competitive grants through the federal government, over and above the grant dollars usually received through the federal consolidated grant application.

In addition, state law allows school districts to ask voters to approve override funding through an additional property tax mill levy. This is paid entirely with increased local property taxes. Voters generously approved such overrides in 1991, 1998, 2002 and 2005. On June 22, 2010, the board of education directed staff to test community sentiment, ballot language and options through polling data and bring back the information and prioritized options in August.

Fund Balance Requirements

In order to meet the challenges of school funding in Colorado, the board of education adopted Policy DB in spring 2005, which dictated a minimum level of year-end fund balance in order to ensure the district's ongoing financial health. To further bolster the district's financial position and address the current economic challenges, the board of education updated this policy in January 2009, strengthening the requirements of the policy. The policy restricts the district from using one-time money for ongoing expenditures. This ensures programs are sustained with ongoing revenue. In addition, current policy specifies the amount to be held as a contingency reserve.

Following the requirements of this policy means the district will have to make annual budget adjustments so that new expenditures do not exceed new revenues and a moderate level of reserves is maintained. Because the district has in the past funded necessary programs with fixed revenue provided by override funds, the cost of these programs will eventually exceed the fixed revenue stream. Using the policy now means the district can make smaller adjustments over time rather than making dramatic cuts when the cost of programs has outgrown revenue sources.

The original policy was recommended by the district's external auditors and commended by the Colorado Department of Education's Accreditation Consultant. An update to the policy was crafted by the district's audit committee with input from the district's external financial advisors.

The two key elements of the policy are spending limitations and reserve requirements as follows:

Spending Limitations:

- The General Operating Fund budget will be developed so that the total of annual ongoing expenditures and transfers does not exceed annual revenues.
- If the General Operating Fund ends any fiscal year with an ending balance beyond required reserves, this amount can only be used for one-time uses in subsequent years.
- One-time uses are defined as expenditures, transfers and/or reserves committed by the district for a finite period of time, on a non-recurring basis.

Reserve Requirements:

- In addition, the General Operating Fund budget will be developed containing an ending fund balance equal to required reserves including the TABOR reserve plus a minimum of a 3 percent contingency reserve. The need for additional reserves shall be reviewed annually.
- Funds in the contingency reserve shall not be spent without board approval. The request for approval must include a plan for ensuring that the expenditure will not exceed the fixed dollar amount approved by the board, and must also include a plan for replenishing the reserve within two years from first dispersal.
- The budgets for all other funds will be developed to include, at a minimum, the required TABOR reserve.
- The General Operating Fund budget will be developed on a generally accepted accounting principles (GAAP) basis.

At June 30, 2010, the District is in compliance with these fund balance requirements.

Major Initiatives

The mission of the Boulder Valley School District RE-2 is to realize our *Vision for the New Century Graduate:*

"To graduate students in the New Century who have the knowledge, skills and personal characteristics that will make this world a safer, more thoughtful and more inclusive place in which to live."

The district's goals are intended to support this mission.

In November 2007, the board of education approved three five-year goals for the district that relate to equity, achievement and organization. These goals were developed using the district's Tools of Inquiry for Equitable Schools (TIES) process during multiple work sessions and board meetings during fall 2007.

These goals are quite different than those previously set by the board of education in that they are SMART goals, as defined by the district's Tools of Inquiry for Equitable Schools (TIES) process. SMART goals are Specific, Measurable, Attainable, Realistic and Timely. The district aims to achieve academic excellence for all students, to produce equitable results that reduce persistent patterns of inequity and to create a culturally proficient and welcoming school climate.

The district's goals for 2007 – 2012 are as follows:

- ACHIEVEMENT GOAL Increase measurable student achievement in specific content areas through curriculum and instruction that is rigorous and relevant.
- EQUITY GOAL Narrow the achievement gap in all content areas as measured by CSAP results, ACT scores, district graduation rates and curriculum-based assessments.
- CLIMATE GOAL Create and sustain a safe and positive learning environment that protects and respects the rights of all individuals as measured by specific results from the annual BVSD School Climate Survey.
- OPERATIONS GOAL The Boulder Valley board of education will set a district operations goal during the 2008-2009 school year. First year progress in the attainment of this fourth long-range district goal will be reported in 2009-2010.

For details and specific targets set within these goals, including how progress will be measured, read the BVSD Annual Report by visiting the district's website www.bvsd.org/goals.

Other Information

Awards

The Government Finance Officers Association (GFOA) of the United States and Canada awarded a Certificate of Achievement for Excellence in Financial Reporting and the Association of School Business Officials International (ASBO) awarded a Certificate of Excellence in Financial Reporting to the district for its comprehensive annual financial report for the fiscal year ended June 30, 2009. In order to be awarded a Certificate of Achievement and the Certificate of Excellence, the district must publish an easily readable and efficiently organized Comprehensive Annual Financial Report. This report satisfied both generally accepted accounting principles and applicable legal requirements. The Certificate of Achievement and the

Certificate of Excellence are valid for a period of one year. We believe that our current Comprehensive Annual Financial Report continues to meet the program requirements for both Certificate of Achievement and Certificate of Excellence programs. This document will be submitted to GFOA and ASBO respectively to determine eligibility for another certificate.

Acknowledgments

The preparation of this report on a timely basis was made possible by the dedicated service of the entire staff of the Business Services Division. We would like to express our sincere appreciation to all members of the department for their contributions to this report. We also thank the district's independent auditors, Swanhorst & Company LLC, for the professional manner in which they accomplished the audit and for their work to publish this Comprehensive Annual Financial Report. We would also like to thank Dr. Christopher D. King, Superintendent of Schools and the board of education for their interest in and support of the finance and accounting operations of the Boulder Valley School District RE-2 and Heather Grooters, District Accountant, for her assistance in the preparation of this document.

Respectfully Submitted,

Board of Education Boulder Valley School District RE-2 Boulder, Colorado

INDEPENDENT AUDITORS' REPORT

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate discretely presented component units and remaining fund information of the Boulder Valley School District RE-2 as of and for the year ended June 30, 2010, which collectively comprise the basic financial statements of the Boulder Valley School District RE-2, as listed in the table of contents. These financial statements are the responsibility of the Boulder Valley School District RE-2's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate discretely presented component units and remaining fund information of the Boulder Valley School District RE-2 as of June 30, 2010, and the respective changes in financial position and cash flows, where applicable, for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with Government Auditing Standards, we have also issued our report dated October 27, 2010, on our consideration of the Boulder Valley School District RE-2's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.

The management's discussion and analysis and required supplementary information listed in the table of contents are not a required part of the basic financial statements but are supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Boulder Valley School District RE-2's basic financial statements. The combining and individual fund statements and schedules listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

Management's Discussion and Analysis

As management of the Boulder Valley School District RE-2 (the district), we offer readers of the district's Comprehensive Annual Financial Report this narrative and analysis of the financial activities of the district for the fiscal year ended June 30, 2010. We encourage readers to consider the information presented here in conjunction with additional information that can be found in the letter of transmittal on pages 1-8 of this report.

Financial Highlights

At June 30, 2010:

- The primary government has government-wide net assets of \$132,084,827. Of this
 amount, unrestricted net assets of \$12,309,271 may be used to meet the district's
 ongoing financial obligations.
- The primary government's net assets increased from the prior year by \$14,671,652 and unrestricted net assets increased by \$1,887,981.
- At the end of the current fiscal year, the primary government's governmental funds reported combined ending fund balances of \$144,710,443, a decrease of \$66,229,780 from the prior year.
- At the end of the current fiscal year, unreserved, undesignated fund balance for the Combined General Fund is \$12,203,848, or 5.03% of total Combined General Fund expenditures.
- The primary government's long-term general obligation debt decreased by \$12,115,000 to \$385,285,000. This is the result of the issuance of \$53,645,000 of 2009B general obligation refunding bonds used to refund \$56,435,000 of 1999 General Obligation Bonds, less \$9,325,000 of current year principal payments on other outstanding general obligation bonds.

Overview of the Financial Statements

Management's discussion and analysis is intended to serve as an introduction to the Boulder Valley School District RE-2's basic financial statements. The district's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the basic financial statements. This report also contains other supplementary information in addition to the basic financial statements.

Government-wide Financial Statements

The government-wide financial statements are designed to provide readers a broad overview of the district's financial activities in a manner similar to a private sector business.

The statement of net assets presents information on all of the district's assets and liabilities. The difference between assets and liabilities is reported as net assets. Over time, changes in net assets may serve as a useful indicator of whether the financial position of the district is improving or deteriorating.

The statement of activities presents information showing how the net assets of the district changed during the current fiscal year. Changes in net assets are recorded in the statement of activities when the underlying event occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will result in cash flows in future fiscal periods (example: levied but uncollected property taxes and earned but unused employees' vacation leave).

Both of the government-wide financial statements distinguish functions of the district that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover a significant portion of their costs through user fees and charges (business activities.) Governmental activities consolidate all of the following district funds: General Fund (consisting of the General Operating Fund, Risk Management Fund, Technology Fund, Athletics Fund, Community Schools Fund, Tuition Preschool Fund, and Colorado Preschool Program Fund), Bond Redemption Fund, Governmental Designated-Purpose Grants Fund, Transportation Fund, Capital Reserve Fund, Building Fund, Health Insurance Fund, and Dental Insurance Fund. Business-type activities include the Nutrition Services Fund.

The government-wide financial statements include not only the district itself (known as the primary government), but also information about the district's five charter schools (known as component units). Financial information for the charter schools is presented separately from the primary government because the charter schools are legally separate from the district but are financially accountable to the district and provide service to the district's students.

The government-wide financial statements can be found on pages 29-30 of this report.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The district, like other governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the district have been divided into three categories: governmental funds, proprietary funds and fiduciary funds.

Governmental Funds: Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the district's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenue, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The district maintains four governmental funds called major funds: the General Fund (which combines the district's General Operating Fund, Risk Management Fund, Technology Fund, Athletics Fund, Community Schools Fund, Tuition Preschool Fund and the Colorado Preschool Program Fund), the Governmental Designated-Purpose Grants Fund, the Bond Redemption Fund and the Building Fund. They are presented separately in the fund financial statements with the remaining governmental funds (combined into a single aggregated presentation labeled other governmental funds). Other governmental funds, called non-major funds, include the Transportation Fund and the Capital Reserve Fund. Individual fund information for the non-major funds is presented as combining and individual fund statements and schedules after the notes section of this report.

The basic governmental fund financial statements can be found on Pages 31-33 of this report.

Proprietary Funds: The district maintains two types of proprietary funds. Enterprise funds are used to present the same functions as the business-type activities presented in the government-wide financial statements. The district uses an enterprise fund to account for its nutrition service operation. Internal service funds are used to accumulate and allocate costs internally among the district's various functions. The district uses internal service funds to account for employee benefit programs for health and dental insurance. Because these services predominately benefit governmental rather than business-type functions, they have been included with governmental activities in the government-wide financial statements.

The basic proprietary fund financial statements can be found on pages 34-36 of this report.

Fiduciary Funds: Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because these sources of funds are not available to support the district's direct educational programs. The accounting method used for fiduciary funds is much like that used for proprietary funds.

The basic fiduciary fund financial statements can be found on pages 37-38 of this report.

Notes to the Financial Statements: The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to financial statements can be found on pages 39-55 of this report.

Other Information: In addition to the basic financial statements and accompanying notes, this report also contains other required supplementary information concerning the district's budget process. Within a statutory timeline, the board of education adopts a resolution appropriating an annual budget for each of the individual governmental funds. A Budgetary Comparison Schedule for the General Fund has been provided to demonstrate compliance with the adopted budget followed by the Notes to Required Supplementary Information. Required supplementary information can be found on pages 56-58 of this report.

The Combining and Individual Fund Statements and Schedules follow the Required Supplementary Information and include the remaining governmental funds budgetary comparison schedules. These statements and schedules can be found on pages 59-79 of this report.

Government-wide Financial Analysis

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. The assets of the primary government exceed liabilities by \$132,084,827 with an unrestricted balance of \$12,309,271 at June 30, 2010.

The largest portion of the district's net assets \$80,110,716 (60.65%) represent its investment in capital assets (e.g. land, land improvements, buildings, equipment, and vehicles), less related debt used to acquire these assets that is still outstanding. The district uses these capital assets to provide services to its constituents; consequently these assets are not available for future spending. Although the district's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources since the capital assets cannot be liquidated to pay the debt.

An additional portion of the district's net assets \$39,664,840 (30.03%) are subject to external restrictions on how they may be used. The remaining amount of net assets \$12,309,271 (9.32%) is available to fund the district's ongoing programs.

At the end of the current fiscal year, the district is able to report positive balances in two of the three categories of net assets. The government as a whole and its separate governmental activities ended the year with positive balances, while business-type activities ended the year in a deficit position. All three categories of net assets ended the prior year in a positive position.

Governmental activities net assets increased by \$15,369,920. Governmental activities total assets decreased by \$607,484; this change is caused mainly by a decrease in cash and investments and restricted cash and investments of \$71,015,944 offset by an increase in receivables of \$3,895,630 and an increase in capital assets of \$65,475,299.

Governmental activities total liabilities decreased by \$15,977,404. This decrease is generally due to current year payments on the district's general obligation debt and certificates of participation of \$11,170,550 and a decrease in accounts payable of \$5,022,057.

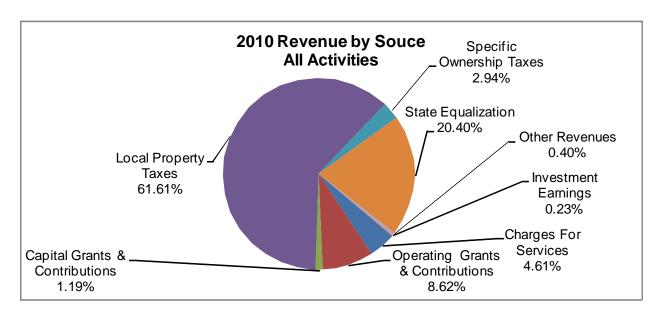

Business-type activities net assets decreased by \$698,268. Business-type activities total assets decreased by \$706,515. This decrease is predominantly an increase in grants receivable of \$354,999, a decrease in internal balances of \$1,066.091, an increase in inventories of \$63,632 and a decrease in capital assets of \$52,601.

Business-type activities total liabilities decreased by \$8,247; accrued liabilities decreased by \$6,461 while accrued salaries and benefits decreased by \$1,786.

Government-wide Activities: Government-wide activities increased the district's net assets by \$14,671,652. Key elements of this increase are as follows:

Boulder Valley School District RE-2 Changes In Net Assets

| Net Assets-Ending | \$ 132,448,983 | \$117,079,063 | \$ (364,156) | \$ 334,112 | 132,084,827 | \$ 117,413,175 | |

Governmental Activities: Governmental activities program revenue increased from the prior year by \$7,696,306 or 23.59%. This increase is due primarily to increased operating grants and contributions recorded in the Governmental Designated-Purpose Grants Fund and increased capital grants and contributions recorded in the Building Fund.

Governmental activities expenses increased by \$4,606,798 or 1.59%, due most significantly to compensation increases given to district employees through salary increases, a rise in benefit costs for health insurance and retirement plan contributions.

General Revenues increased by \$8,379,625 or 3.21%. Local property tax collections increased by \$11,165,241. This increase was a result of the growth of the district's assessed valuation which was applied to the General Fund, Bond Redemption Fund and the Transportation Fund mill levies, as well as an authorized mill levy increase related to the Bond Redemption Fund for the 2010 tax year. State equalization revenue increased by \$2,253,416 due to an increase in the School Finance Act funding. Investment earnings decreased by \$1,571,964 because of historically low in interest rates and a decrease in cash balances available for investment. Specific ownership tax collections decreased by \$744,207 from the prior year. The continued stagnation of motor vehicle sales and registrations propelled this decline. One time revenue collections from insurance reimbursements and fixed asset sales recorded in the prior year pushed other revenues down by \$2,722,861.

Enterprise Activities: The \$698,268 decrease in net assets from enterprise activities is due to higher than expected labor and food costs and lower than anticipated student participation in the current year for the Nutrition Services Fund.

Financial Analysis of the Government's Funds

The district uses fund accounting to ensure and demonstrate compliance with finance-related legal, federal and state requirements.

The focus of the district's governmental funds is to provide information on near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the district's financing requirements. In particular, unreserved fund balance may serve as a useful measure of the district's net resources available for spending at the end of the fiscal year.

The Combined General Fund is the major governmental fund of the district. The Combined General Fund under GASB 34 reporting requirements includes the General Operating Fund, Risk Management Fund, Technology Fund, Athletics Fund, Community Schools Fund, the Tuition Preschool Fund, and the Colorado Preschool Program Fund. A Combining Schedule of Revenues, Expenditures and Changes in Fund Balances of the Combined General Fund is shown on page 60 of this document. As of June 30, 2010, the Combined General Fund shows an ending fund balance of \$19,645,363 up from the combined fund balance of \$19,635,670 for the prior year, an increase of \$9,693.

A Budgetary Comparison Schedule for the Combined General Fund is presented on page 56 of this document. There is a negative variance between final budgeted and actual revenue of \$3,662,094 or 1.45%. Property tax revenue and state equalization revenue are under budget by \$640,413 and \$2,305,214 respectively. ARRA State Stabilization funds totaling \$1,677,365 were originally budgeted in the General Fund; however, the Colorado Department of Education subsequently allocated these funds as regular state equalization funding. State reimbursement program revenues exceeded budget by \$830,853.

Expenditures net of reserves, varied from the final budget by \$4,665,859 or 1.75%. This variance was caused by two major expenditure categories. \$3,131,072 was budgeted in 2009-10, but unspent at year end and intentionally carried over into 2010-11. These include textbook funds, school operating dollars, Medicaid funds, technology, athletics funds, preschool and other operating resources. Within all other line items, a slight under spending of \$1,534 787, or 0.58% occurred. This includes staff compensation, retirement payouts, and other items budgeted, not expended, and not requested to be carried over into 2010-11. Also, budgeted reserves appropriated but not spent of \$18,466,335 are reflected in the total budget variance of \$23,132,194.

Within the Bond Redemption Fund, the fund balance increased by \$3,368,195 to \$24,032,073. Revenues from local sources increased by \$6,548,837, current year principal and interest payments increased by \$4,800,711 and other financing uses totaled \$1,761,582. Property tax revenues in the current year were based upon a levy of 6.565 mills applied against an assessed valuation of \$4,878,665,186 compared to 5.429 mills and an assessed valuation of \$4,681,607,636 in the prior year. The increased ending fund balance is necessary to fund debt service payments as they become due. Property tax levies are based upon a calendar year cycle while debt service payments are made each fiscal year in June and December.

The Building Fund ended the year with a fund balance of \$94,510,828, a decrease of \$67,641,879 from the prior year. Local revenue sources totaled \$4,336,005, including contributions from local sources of \$3,747,258 and investment earnings of \$588,747. Capital project expenditures were \$71,977,884, a \$37,298,178 decrease from the prior year.

Additional information regarding the Building Fund and project status may be found at www.bvsd.org/bondproject

General Operating Fund Highlights

The General Operating Fund is the core operating fund of the district. At the end of the fiscal year, fund balance increased by \$1,209,776 to \$17,522,615. Local revenues increased by \$4,713,437 and state revenues increased by \$3,104,674 from the prior year. Major revenue variances are shown in the table below.

| | June 30, 2010 Amount | | June 30, 2009 <u>Amount</u> | | <u>Variance</u> | |
|------------------------------|-------------------------|-------------|--------------------------------|-------------|-----------------|-----------|
| Local Revenues | | | | | | |
| Property Taxes | \$ | 154,934,584 | \$ | 148,964,145 | \$ | 5,970,439 |
| Specific Ownership Taxes | | 9,251,558 | | 9,995,765 | | (744,207) |

| Subtotal | | 71,407,782 | | 68,303,108 | | 3,104,674 |
| Total Revenues | \$ | 241,136,833 | \$ | 233,318,722 | \$ | 7,818,111 |

Local Revenues

Current year General Fund property taxes were based upon a levy of 31.938 mills applied against an assessed valuation of \$4,878,665,186 compared to 32.125 mills and an assessed valuation of \$4,681,607,636. Property tax revenues increased 4.01% in the current year.

Specific ownership tax is applied to the fair value of vehicles registered in Colorado. Specific ownership tax revenue decreased 7.45% in the current year due to fewer new car registrations in Boulder, Broomfield, and Gilpin Counties.

Other revenue changes include investment earnings decreased 77% in the current year due to historically low interest rates; the allowable indirect cost reimbursement rate chargeable to federal grants increased to 8.69% in the current year compared to 3.43% last year and prior year miscellaneous local revenues include a one-time insurance settlement of \$538,428.

State Revenues

State equalization revenue increased by 3.64% from the prior year. This amount is approximately \$3.98 million less than expected due to a midyear state revenue rescission.

In total, state categorical revenues for special education, talented and gifted programs, vocational education and ELPA increased in the current year by \$851,258, ranging from 2% to 46% of prior year amounts.

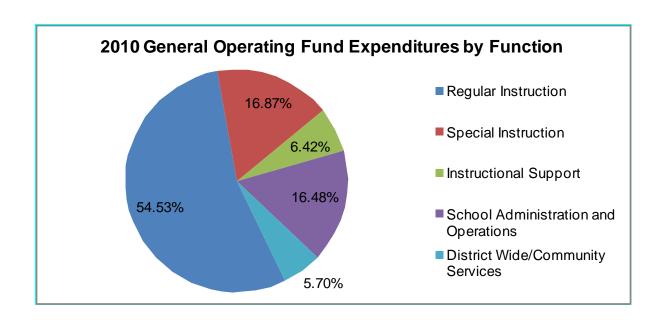

Expenditures

General Operating Fund expenditures increased by 1.64% or \$3,650,656 to \$226,362,870. This increase is due primarily to pay increases given to district employees (including a 1.0% cost of living adjustment and step increases), increased employee benefit costs for health insurance and a statutory 6.9% increase, from 12.95% to 13.85%, in employer retirement plan contributions.

General Operating Fund spending in 2009-10 provided for the continuation of district programs and services. General Operating Fund expenditures by function are shown in the following chart. 77.82% of expenditures are instruction related: regular program instruction, special program instruction, and direct instructional support. 16.48% of expenditures are for school administration, operations and maintenance of district facilities. 5.70% of expenditures are for district-wide services and community obligations.

| Total | 100.00% | 100.00% | 100.00% | 100.00% | 100.00% |

An analysis of the district's General Operating Fund ending fund balance is shown in the following chart. Over the nine year period 2001-2002 to 2009-10, the fund balance of the General Operating Fund has fluctuated from a low of (\$199,947) to a high of \$26,592,527 to its current amount of \$17,522,615

There are many factors that caused this fluctuation over time. First, the Colorado School Finance Act allows school districts to pass mill levy override elections up to a maximum of 25% of total program funding. The override percentage increased from 20% to 25% beginning with

the 2009-10 fiscal year. The district passed mill levy override elections in November 1991, November 1998 and November 2002 of \$7,062,468, \$10,600,000 and \$15,000,000 respectively. With the 1998 Referendum, a stabilization fund was established to fund the growing personnel costs that were expected to exceed the fixed revenue stream over time. This stabilization fund was continued and supplemented with the 2002 referendum. Previously, it was standard practice to spend 100% of each override on new programs and then seek voter approval of additional revenues when the fund was depleted. With Colorado's financial issues and the district's stable enrollment, the district changed this practice, halting the use of fund balance for ongoing costs and used the existing stabilization fund to fully fund GAAP budgeting as part of the establishment of Board Policy DB Fund Balance Requirements.

As part of the development of the 2010-11 Revised Budget, the preliminary allocation of the \$17,522,615 General Operating Fund ending fund balance is as follows:

| 1/CUUIICU 1/C3C17C3. | Rec | uired | Reserves: |
|----------------------|-----|-------|-----------|
|----------------------|-----|-------|-----------|

| \$ 6,319,661 |

In November 2006, voters approved the sale of \$296,800,000 of general obligation bonds to fund critical repairs and capital improvements to the district's infrastructure as identified in the

district's May 2006 Educational Facilities Master Plan. The bonds were issued in two installments; \$120,000,000 in February 2007 and \$176,800,000 in February 2009.

The 2009-10 fiscal year was the fourth year of work on these projects. \$217,882,505 has been spent on these projects from inception through June 30, 2010.

Additional information on the district's capital assets can be found in Note 4 of this report.

At June 30, 2010, the district had total bonded debt outstanding of \$385,285,000 backed by the full faith and credit of the district. Additionally, the district had long-term debt obligations for certificates of participation and compensated absences in the amount of \$3,710,000 and \$5,404,014 respectively, outstanding at the end of the current fiscal year. The certificates of participation are collateralized by specific buildings owned by the district.

Boulder Valley School District RE-2 Long Term Debt

| | <u>June 30, 2010</u> | June 30, 2009 |
|-------------------------------|----------------------|---------------|
| General Obligation Bonds | \$385,285,000 | \$397,400,000 |
| Certificates of Participation | 3,710,000 | 4,255,000 |
| Compensated Absences | 5,404,014 | 4,802,006 |
| | | |
| | \$394,399,014 | \$406,457,006 |

In September 2009, the district issued \$53,645,000 of general obligation bonds to refund a portion of its existing debt. The refunding is expected to reduce total debt service payments over the next nine years by \$9,200,000.

The district maintains a "AA" rating from Standard & Poor's and Fitch Ratings and a "Aa3" rating from Moody's Investors Services for its general obligation debt.

State statue limits the amount of general obligation debt a government may issue to 20% of its total assessed valuation. The Boulder Valley School District's legal debt limit is \$975,733,037. At June 30, 2010, the district's total outstanding general obligation bonds are under the legal debt limit by \$590,448,037.

Additional information on the district's long-term obligations can be found in Note 7 of this report.

Economic Factors and Next Year's Budget

Approximately 85 percent of the General Operating Fund revenues come from state level decisions. For the first time in recent memory, the Colorado State Legislature approved a School Finance Act (SFA) that actually decreased the statewide per pupil funding. In 2009, personal income decreased by 2.1 percent from 2008. This means the minimum General Fund increase in the appropriation for school finance for FY 2010-11 is not required as specified within Amendment 23, therefore funding does not reflect the general expectations approved with the passage of Amendment 23 to the Colorado Constitution in November of 2000.

The district is projecting net School Finance Act per pupil revenue (PPR) for 2010-11 of \$6,721 after accounting for a \$2 per pupil rescission to pay for school finance staff at the Colorado Department of Education (CDE). Total program funding, defined by the School Finance Act, is projected to be \$185.6M, a decline of \$7.6M from the 2009-10 Revised Budget (net of the Fiscal Emergency Required Reserve). Included in this figure is the impact of the timing of tax collections over two fiscal years, a reduction of almost \$1,000,000 in 2010-10 from the state-determined per pupil revenues.

Although the School Finance Act specifies how much money a school district will receive per pupil, the funded pupil count drives total school district operating revenue. The School Finance Act describes the calculation of funding on a per pupil basis; the number of full-time students enrolled in a district determines the amount of funding the district receives. The funded pupil count refers to the number of full-time students enrolled in a district on October 1, the official count day. Not all students (kindergartners for example) attend school on a full-time basis. Thus, the funded pupil count is different from total enrollment, district membership or headcount, all interchangeable terms.

When projecting student enrollment, the budget implications are substantial if expected growth is not realized. If a shortfall in actual enrollment occurs as compared to projections, this information is generally received after the close of the first quarter of the fiscal year, and many staffing and programmatic changes cannot be made without significant impact to students. For this reason, the district generally utilizes a reasonable, yet conservative projection methodology to reduce the risk of a funding shortfall compared to expected revenues.

Requests for Information

This financial report is designed to provide a general overview of the Boulder Valley School District RE-2's finances for all those with an interest in the district. Questions concerning any of the information provided in this report or requests for additional information should be addressed to:

William A. Sutter, Interim Chief Financial Officer Boulder Valley School District RE-2 6500 East Arapahoe P.O. Box 9011 Boulder, Colorado 80301

Amounts reported for governmental activities in the statement of net assets are different because:

Capital assets used in governmental activities are not current financial resources and therefore, are not reported in the funds.

Other long-term assets are not available to pay for current year expenditures and therefore, are deferred in the funds.

An internal service fund is used by management to charge the costs of employee health and dental insurance to individual funds. The assets and liabilities of the internal service fund is included in governmental activities in the statement of net assets.

Long-term liabilities, including bonds payable (\$385,285,000), bond premium (\$8,827,630), certificates of participation (\$3,710,000), compensated absences (\$5,404,014), debt issuance costs \$2,271,980, loss on refunding \$2,293,549 and accrued interest payable (\$1,431,866) are not due and payable in the current year and therefore, are not reported in the funds.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCE OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES Year Ended June 30, 2010

Amounts reported for governmental activities in the statement of activities are different because:

| Net Change in Fund Balances | \$ | (66,229,780) |
|---|----|--------------|
| Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures. However, for governmental activities those costs are shown in the statement of net assets and allocated over their estimated useful lives as annual depreciation expense in the statement of activities. This is the amount by which capital outlay \$74,629,972 exceeded | | |
| depreciation expense (\$9,300,235) and loss on disposal (\$163,055) in the current year. | | 65,166,682 |
| Revenues that do not provide current financial resources are deferred in the governmental fund | | |
| financial statements but are recognized in the government-wide financial statements. | | 1,449,293 |
| Repayments of debt principal \$9,870,000 and changes in compensated absences (\$602,008) are | | |
| expenditures in the governmental funds, but they reduce long-term liabilities in the | | |
| statement of net assets and do not affect the statement of activities. | | 9,267,992 |
| Bond proceeds provide current financial resources to governmental funds, but issuing debt increases | | |
| long-term liabilities in the statement of net assets and does not affect the statement of activities. | | |
| This amount is the net effect of these differences in the treatment of long-term debt related items: | | |
| debt issued (\$53,645,000), bond premium (\$2,385,564), amortization of loss on refunding (\$295,856), debt issuance costs \$453,110, amortization of debt issuance costs (\$144,493), amortization of bond | | |
| premium \$842,337, payment to escrow agent \$57,792,146 and change in accrued interest payable \$130,646. | | 2,747,326 |
| An internal comics fund is used by management to charge the costs of appleyes health and dental | | |
| An internal service fund is used by management to charge the costs of employee health and dental insurance to individual funds. The net revenue of the internal service fund is included in governmental | | |
| activities in the statement of activities. | | 2,968,407 |
| Change in Net Assets of Governmental Activities | \$ | 15,369,920 |
| Change in Net Assets of Covenimental Activities | Ψ_ | 13,303,320 |

NOTES TO FINANCIAL STATEMENTS
June 30, 2010

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of Boulder Valley School District RE-2 (the "district") conform to generally accepted accounting principles as applicable to governmental units. The Governmental Accounting Standards Board ("GASB") is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. Following is a summary of the more significant policies.

Reporting Entity

The financial reporting entity consists of the district and organizations for which the district is financially accountable. All funds, organizations, institutions, agencies, departments and offices that are not legally separate are part of the district. In addition, any legally separate organizations for which the district is financially accountable are considered part of the reporting entity. Financial accountability exists if the district appoints a voting majority of the organization's governing board and is able to impose its will on the organization, or if the organization provides benefits to, or imposes financial burdens on, the district.

Based upon the application of this criteria, the district includes five charter schools within its reporting entity. The charter schools are public schools authorized by State statutes to provide alternatives for parents, pupils and teachers. The charter schools are fiscally dependent on the district and their exclusion would render the district's financial statements incomplete. Since the charter schools have separately elected boards, the balances and transactions of the charter schools are discretely presented in the financial statements. Separate financial statements for the Peak to Peak Charter School may be obtained by contacting the School at 800 Merlin Drive, Lafayette, Colorado 80026. Separate financial statements for the remaining charter schools are not available.

Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all nonfiduciary activities of the district and its component units. For the most part, the effect of interfund activity has been removed from these statements. Exceptions to this general rule are charges for interfund services that are reasonably equivalent to the services provided. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support. Likewise, the *primary government* is reported separately from certain legally separate *component units* for which the district is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of the given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to students or other customers who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues. Internally dedicated resources are reported as general revenues rather than as program revenues.

NOTES TO FINANCIAL STATEMENTS June 30, 2010

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Government-Wide and Fund Financial Statements (Continued)

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the district's government-wide financial statements.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources* measurement focus and the accrual basis of accounting, as are the proprietary and trust fund financial statements. Revenues are recorded when earned and expenses are recorded when the liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Agency funds utilize the accrual basis of accounting.

Governmental fund financial statements are reported using the *current financial resources* measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collected within the current year or soon enough thereafter to pay liabilities of the current year. For this purpose, the district considers revenues to be available if they are collected within 60 days of the end of the current year and within 90 days of the end of the current year for grants.

Taxes, intergovernmental revenues, grants, and interest associated with the current year are considered to be susceptible to accrual and so have been recognized as revenues of the current year. All other revenues are considered to be measurable and available only when cash is received by the district.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, are recorded only when payment is due.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary (enterprise and internal service) fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the option of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The district has elected not to follow subsequent private-sector guidance.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the fund's principal ongoing operations. Operating expenses for enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

NOTES TO FINANCIAL STATEMENTS June 30, 2010

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

When both restricted and unrestricted resources are available for use, it is the district's practice to use restricted resources first, then unrestricted resources as they are needed.

In the fund financial statements, the district reports the following major governmental funds:

The *General Fund* is the district's primary operating fund. It accounts for all financial resources of the district, except those required to be accounted for in another fund.

The Bond Redemption Fund accounts for property taxes restricted for the payment of long-term debt obligations of the district.

The *Grants Fund* is provided to maintain a separate accounting for fully funded Federal, State and local grant programs.

The *Building Fund* reports bond proceeds and other revenues to be used for major building repairs and renovations.

Additionally, the district reports the following fund types:

The *Nutrition Services Enterprise Fund* accounts for the financial activities associated with the district's breakfast and lunch program.

The *Internal Service Funds* account for the district's employee health and dental insurance programs, which are partially self-insured by the district.

The *Private-Purpose Trust Funds* account for the activities of various scholarship accounts. The district holds all resources in a purely custodial capacity.

The Agency Fund is used to account for resources used to support each school's student and fundraising activities. The district holds all resources in a purely custodial capacity.

Assets, Liabilities and Fund Balances/Net Assets

Cash and Investments - The district utilizes the pooled cash concept whereby cash balances of each of the district's funds and component units are pooled and invested by the district. It is the intention of the investment pool to maximize interest income, and securities are selected according to their risk, marketability, and diversification. Investments are reported at fair value.

For purposes of the statement of cash flows, the district considers all highly liquid investments with an original maturity of three months or less to be cash equivalents. Investments in pooled cash are considered to be cash equivalents.

Accounts Receivable - All receivables are reported at their gross value and, where appropriate, are reduced by the estimated portion that is expected to be uncollectible. Property taxes levied in the current year but not received at year end are identified as property taxes receivable and are presented net of an allowance for uncollectible taxes of 1% of the total levy.

NOTES TO FINANCIAL STATEMENTS June 30, 2010

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Assets, Liabilities and Fund Balances/Net Assets (Continued)

Interfund Receivables and Payables - During the course of operations, numerous transactions occur between individual funds. The resulting receivables and payables are classified on the balance sheet as due from other funds and due to other funds because they are short-term in nature. Any residual balances outstanding between governmental and business-type activities are reported in the government-wide financial statements as internal balances.

Inventories - Materials and supplies inventories are stated at average cost. Nutrition Services Fund inventories consist of purchased and donated commodities. Purchased inventories are stated at average cost. Donated inventories, received at no cost under a program supported by the federal government, are valued based upon the cost furnished by the federal government.

Inventory is recorded as an asset when individual items are purchased and as an expenditure when consumed.

Prepaid Expenses - Payments made to vendors for services that will benefit subsequent years are recorded as prepaid expenses. A current asset for the prepaid amount is recorded at the time of payment, and an expense is reported in the year in which the services are consumed.

Capital Assets - Capital assets, which include property and equipment, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements and the proprietary funds in the fund financial statements. Capital assets are defined by the district as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materiality extend assets lives are not capitalized.

Property and equipment of the district and its component units is depreciated using the straight line method over the following estimated useful lives.

Land Improvements25 yearsBuildings50 yearsEquipment and Vehicles5 to 20 years

NOTES TO FINANCIAL STATEMENTS June 30, 2010

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Assets, Liabilities and Fund Balances/Net Assets (Continued)

Unearned Revenues - Unearned/deferred revenues include grant funds that have been collected but the corresponding expenditures have not been incurred. Property taxes and grants earned but not available are reported as deferred revenue in the fund financial statements.

Compensated Absences - District policy allows unlimited accumulation of sick time and accumulation of vacation time to a maximum of 40 days for certain personnel classifications. Accrued sick leave is paid to those eligible employees upon termination of employment at varying rates based upon longevity and classification. Accrued vacation is paid to those eligible employees upon termination of employment.

These compensated absences are recognized as current salary costs when earned in the proprietary funds and when due in the governmental funds. A long-term liability has been recorded in the government-wide financial statements for the accrued compensated absences.

Long-Term Debt - In the government-wide financial statements, and proprietary funds in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund statement of net assets. Debt premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the debt using the straight-line method.

In the fund financial statements, governmental funds recognize the face amount of debt issued as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as current expenditures.

Net Assets/Fund Balances - In the government-wide financial statements and the proprietary funds in the fund financial statements, net assets are restricted when constraints placed on the net assets are externally imposed. In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose.

Revenues

Property Taxes - Property taxes for a calendar year are certified in arrears on December 10 and attached as a lien on the property the previous January 1. For example, property taxes owed in 2010 are certified to the county in December 2009 and are available for collection on the levy date, January 1. Property taxes are payable in full by April 30 or in two equal installments due February 28 and June 15. Property tax receipts collected by the county are generally remitted to the district in the subsequent month.

NOTES TO FINANCIAL STATEMENTS June 30, 2010

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Revenues (Continued)

State Revenues - The district receives unrestricted state equalization revenues and the charter schools receive capital construction funding as required by state statutes.

Interest Income - Interest income earned on pooled cash is recorded as revenue in the General Fund. Interest income from the Bond Redemption Fund and certain Trust and Agency Fund accounts is recorded when earned in the related fund.

NOTE 2: CASH AND INVESTMENTS

At June 30, 2010, the district had the following cash and investments:

| Cash on Hand Deposits Investments | \$ 22,548 5,467,809 187,594,095 |
|--|---|
| Total | \$ 193,084,452 |
| Cash and investments are reported in the financial statements as follows: | |
| Primary Government Cash and Investments Primary Government Restricted Cash and Investments Fiduciary Funds Cash and Investments Charter School Cash Held by District | \$ 82,495,383 105,563,202 3,285,981 1,739,886 |
| Total | \$ 193,084,452 |

Deposits

The Colorado Public Deposit Protection Act (PDPA) requires all local government entities to deposit cash in eligible public depositories. Eligibility is determined by state regulations. Amounts on deposit in excess of federal insurance levels must be collateralized by eligible collateral as determined by the PDPA. The PDPA allows the financial institution to create a single collateral pool for all public funds held. The pool is to be maintained by another institution, or held in trust for all uninsured public deposits as a group. The fair value of the collateral must be at least equal to 102% of the uninsured deposits. At June 30, 2010, the district had bank deposits of \$6,257,849 collateralized with the securities held by the financial institutions' agents but not in the district's name.

NOTES TO FINANCIAL STATEMENTS June 30, 2010

NOTE 2: CASH AND INVESTMENTS (Continued)

Investments

The district is required to comply with state statutes and district policy which specify investment instruments meeting defined rating, maturity, and concentration risk criteria in which local governments may invest, which include the following. State statutes do not address custodial risk.

- Obligations of the United States and certain U.S. Agency securities
- · Certain international agency securities
- General obligation and revenue bonds of U.S. local government entities
- · Bankers' acceptance of certain banks
- Commercial paper
- Written repurchase agreements collateralized by certain authorized securities
- · Certain money market funds
- · Guaranteed investment contracts
- · Local government investment pools

The district had the following investments at June 30, 2010:

| | | | Inve | 'ears) | | | |
|----------------------------------|------------|-------------------|-------------|--------|------------|----|-------------|
| | | | Less | | | | Fair |
| Investment Type | S&P Rating | S&P Rating Than 1 | | | 1 - 5 | | Value |
| U.S. Agency Securities | AAA | \$ | 30,410,505 | \$ | 21,719,215 | \$ | 52,129,720 |
| Commercial Paper | AAA | | 15,979,240 | | - | | 15,979,240 |
| Wells Fargo Money Market Funds | AAAm | | 23,633 | | - | | 23,633 |
| Local Government Investment Pool | AAAm | | 119,461,502 | | | | 119,461,502 |
| Total | | \$ | 165,874,880 | \$ | 21,719,215 | \$ | 187,594,095 |

Interest Rate Risk - Interest rate risk is the risk that changes in market interest rates will adversly affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensivity of its fair value to changes in market interest rates. To manage exposure to this risk, the District's investment policy limits investment maturities to five years or less. Colorado revised statute 24-75-601 also limits most investment maturities to five years or less.

Credit Risk - State statutes limit investments in U.S. Agency securities and commercial paper to the highest rating issued by two or more nationally recognized statistical rating organizations ("NRSROs"). State statutes also limit investments in money market funds to those that maintain a constant share price, with a maximum maturity in accordance with Rule 2a-7, and have either assets of \$1 billion or the highest rating issued by a NRSRO.

Concentration of Credit Risk - State statutes generally do not limit the amount the district may invest in one issuer. The district's investment in the following securities is in excess of 5% of its total portfolio: Federal Farm Credit Bank, 10.05%, Federal Home Loan Mortgage Corporation, 8.12%, and Federal Home Loan Bank 6.58%.

NOTES TO FINANCIAL STATEMENTS June 30, 2010

NOTE 2: CASH AND INVESTMENTS (Continued)

Investments (Continued)

Local Government Investment Pool - At June 30, 2010, the district had \$119,461,502 invested in the Colorado Local Government Liquid Asset Trust (Colotrust), an investment vehicle established for local government entities in Colorado to pool surplus funds. The State Securities Commissioner administers and enforces the requirements of creating and operating Colotrust. Colotrust operates similarly to a money market fund with each share equal in value to \$1.00. Colotrust is rated AAAm by Standard and Poor's. Investments of Colotrust are limited to those allowed by state statutes. A designated custodial bank provides safekeeping and depository services in connection with the direct investment and withdrawal functions. The custodian's internal records identify the investments owned by the participating governments.

Restricted Cash and Investments

Cash and investments of \$726,944 and \$59,896, representing required reserves for the Certificates of Participation and employee flexible spending benefits, respectively, have been restricted in the General Fund. In addition, \$104,776,362, representing unspent bond proceeds, have been restricted in the Building Fund.

NOTE 3: INTERFUND BALANCES AND TRANSFERS

| Due from Other Funds | Due to Other Funds | | Balance |
|------------------------------|--------------------|----|-----------|
| General Fund General Fund | | | |
| Total | | \$ | 3,409,886 |

The General Fund has temporarily covered the negative cash balance in the Grants Fund and Nutrition Services Fund.

| Transfers In | Transfers Out | | Balance |
|-------------------------|---------------|-----------|-----------|
| Capital Reserve Fund | General Fund | \$ | 3,918,109 |
| Transportation Fund | General Fund | | 1,363,003 |
| Nutrition Services Fund | General Fund | | 225,000 |
| Total | | <u>\$</u> | 5,506,112 |

The General Fund transfers a portion of its funding to the Capital Reserve Fund to be used for capital purposes. The General Fund subsidizes the student transportation program reported in the Transportation Fund. The General Fund transferred cash to the Nutrition Services Fund due to the additional expenditures incurred during the restructuring of the nutrition services program.

NOTE 5: ACCRUED SUMMER SALARIES

Salaries and benefits of certain contractually employed personnel are paid over a twelve month period from September to August, but are earned during a school year of approximately nine to ten months. The salaries and benefits earned, but unpaid, at June 30, 2010, were \$22,689,220 and \$823,613 for the district and charter schools, respectively. This accrued compensation is reflected as a liability in the accompanying financial statements.

NOTE 6: SHORT-TERM DEBT

During the year ended June 30, 2010, the district borrowed \$61,403,305 from the state-sponsored interest-free loan program to provide cash flow throughout the fiscal year. The loan was paid in full by June 30, 2010, from property taxes received primarily from February through June.

NOTE 7: LONG-TERM DEBT

Following is a summary of long-term debt transactions of the district for the year ended June 30, 2010.

| | Balances 6/30/09 | Additions | Payments | Balances 6/30/10 | Due Within One Year |
|-------------------------------|---------------------|---------------|---------------|---------------------|------------------------|

NOTES TO FINANCIAL STATEMENTS June 30, 2010

NOTE 7: LONG-TERM DEBT (Continued)

General Long-term Debt Refunding

On September 9, 2009, the district issued \$53.645 million in General Obligation Refunding Bonds with an average interest rate of 3.15 percent. These funds were used to refund all of the district's General Obligation Bonds, Series 1999 with an average interest rate of 4.89 percent. The net proceeds of \$57.792 million (after payment of \$453 thousand in underwriting and other issuance costs) plus other available moneys were deposited with the Escrow Bank and used to purchase federal securities to provide funds sufficient to pay all outstanding interest and principal on December 1, 2009.

The refunding resulted in a difference between the reacquisition price and the net carrying amount of the old debt of \$1.36 million. This difference, reported in the accompanying financial statements as a deduction from bonds payable, is being charged to operations through the year 2018 using the straight line method. The district completed the refunding to reduce its total debt service payments over the next 9 years by \$9.2 million and to obtain an economic gain of \$8.04 million. In prior years, the district defeased certain general obligation bonds by placing proceeds of new bonds in irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the district's financial statements. On June 30, 2010, \$2.445 million of bonds outstanding were considered defeased.

Certificates of Participation

On November 1, 2003, the district issued \$7,275,000 Certificates of Participation, Series 2003. Principal payments are due annually on June 1 and interest payments are due on June 1 and December 1, through 2016. Interest accrues at rates ranging from 2.5% to 4%. Proceeds of the Certificates were used to currently refund the district's outstanding Certificates of Participation and to finance the installation of artificial turf on the athletic fields at various district facilities. Future debt service requirements of the Certificate of Participation are as follows.

| Year Ended June 30, | Principal | Interest | Total | |
|---------------------|--------------|------------|--------------|--|
| | | | | |
| 2011 | 565,000 | 137,208 | 702,208 | |
| 2012 | 580,000 | 118,563 | 698,563 | |
| 2013 | 605,000 | 98,263 | 703,263 | |
| 2014 | 625,000 | 76,332 | 701,332 | |
| 2015 | 655,000 | 52,582 | 707,582 | |
| 2016 | 680,000 | 27,200 | 707,200 | |
| | | | | |
| Total | \$ 3,710,000 | \$ 510,148 | \$ 4,220,148 | |

NOTES TO FINANCIAL STATEMENTS June 30, 2010

NOTE 7: LONG-TERM DEBT (Continued)

Component Units

The Peak to Peak Charter School has entered into a capital lease agreement with Prairie View, Inc., a component unit, to construct facilities. The Colorado Educational and Cultural Facilities Authority ("CECFA") has issued Charter School Revenue and Refunding Bonds on behalf of Prairie View, Inc. The School makes monthly payments to Prairie View, Inc., and Prairie View, Inc., makes similar payments to CECFA.

In August 2006, Justice High School entered into a loan agreement to purchase facilities. The note requires a payment of \$20,000 each July 15 and subsequent monthly payments of \$4,000 including interest at 6.5%. The balance of the note is due and payable on September 1, 2011.

In September 2007, Boulder Prep High School entered into a loan agreement to purchase facilities. The loan requires monthly principal and interest payments of \$1,803 with interest at 7.125% The final payment on the note is due in February 2032.

In June 2009, Summit Middle School entered into a loan agreement to finance facility improvements. The note requires 22 monthly interest payments with interest computed at a variable rate based upon the Wall Street Journal Prime Rate plus 1%, currently 5%. The note requires annual principal payments of \$70,000 due December 30, 2010, December 30, 2011, December 30, 2012, December 30, 2013 and a final payment of \$70,400 due on December 30, 2014.

Changes in long-term debt of the Charter Schools for the year ended June 30, 2010, were as follows:

| | Balances | | | | Balances | | Due Within | | |
|-------------------|------------------|----|-----------|----|-----------|----|-------------|----|----------|

NOTE 8: RISK MANAGEMENT

The district is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; injuries to employees; and natural disasters. The district plans to provide for or restore the economic damages of those losses through risk retention and risk transfer.

Joint School District Worker's Compensation Self-Insurance Pool

The district, along with Aurora, Cherry Creek, and Littleton School Districts, combined to form the Joint School District Pool for Workers' Compensation (the JSD Pool) which is a public entity risk pool currently operating as a common risk management and insurance program for the school district members noted above. The JSD Pool is administered by a Board of Directors consisting of one individual from each of the four school districts, generally the district's chief financial officer.

The board exercises control over the Pool and has contracted the management of the Pool operations to third parties. The participating districts make annual contributions to the JSD Pool based on the size of their respective payrolls. The contributions are retroactively adjusted based on the districts' actual loss experience.

Each member of the JSD Pool is responsible for the first \$100,000 of each loss. Losses between \$100,000 and \$400,000 are pooled between the member districts, and losses in excess of \$400,000 are reinsured for up to statutory limits.

There is no current or long-term debt associated with the JSD Pool. The contributions are determined on an actuarial basis and are sufficient to provide for the estimated claims and losses as determined by the actuarial computation. No settlements exceeded insurance coverage for each of the past three fiscal years.

NOTES TO FINANCIAL STATEMENTS June 30, 2010

NOTE 8: RISK MANAGEMENT (Continued)

Colorado School Districts Self-Insurance Pool

The Colorado School Districts Self-Insurance Pool (CSDSIP), sponsored by the Colorado Association of School Boards (CASB), operates as a self-insurance pool comprised of various school districts and other related public educational entities within the State of Colorado. The CSDSIP is administered by the Pool Board which is comprised of eight members. The eight members include the president, vice president, and executive director of CASB, with the remaining five members being appointed by the Board of Directors of CASB. The district pays an annual premium to the CSDSIP for various types of property and liability insurance coverage. The Pool Agreement provides that the CSDSIP will be self-sustaining through member premiums and will reinsure through a duly authorized insurer. The reinsurance covers claims against the CSDSIP in excess of specific claim amounts and in the aggregate in an amount and at limits determined by the CSDSIP to be adequate to protect the solvency of the CSDSIP.

Health and Dental Self-Insurance

Under the district's employee health insurance plan and dental insurance plan, the district provides coverage for its employees. Claims liabilities are reported in each fund respectively if information available prior to the issuance of the financial statements indicates that it is probable that the liability has been incurred at the date of the financial statements and the amount of loss can be reasonably estimated. Changes in claims payable for the employee health insurance plan and dental insurance plan were as follows:

| | Health | Dental |
|---------------------------------|--------------|-------------|
| | Insurance | Insurance |
| Claims Payable, June 30, 2008 | \$ 3,452,935 | \$ 301,849 |
| Claims Incurred and Adjustments | 14,450,833 | 1,820,847 |
| Payments | (14,840,504) | (1,778,757) |
| Claims Payable, June 30, 2009 | 3,063,264 | 343,939 |
| Claims Incurred and Adjustments | 11,623,037 | 2,039,309 |
| Payments | (11,554,941) | (1,908,793) |
| Claims Payable, June 30, 2010 | \$ 3,131,360 | \$ 474,455 |

Claims payable at June 30, 2010 are expected to be liquidated within the next fiscal year.

NOTE 9: DEFINED BENEFIT PENSION PLAN

Plan Description - The district contributes to the School Division Trust Fund (SDTF), a cost-sharing multiple-employer defined benefit pension plan administered by the Public Employees' Retirement Association of Colorado (PERA). The SDTF provides retirement and disability, annual increases, and death benefits for members or their beneficiaries. All employees of the district are members of the SDTF. Title 24, Article 51 of the Colorado Revised Statutes (CRS), as amended, assigns the authority to establish benefit provisions to the State Legislature.

NOTES TO FINANCIAL STATEMENTS June 30, 2010

NOTE 9: DEFINED BENEFIT PENSION PLAN (Continued)

PERA issues a publicly available annual financial report that includes financial statements and required supplementary information for the SDTF. That report may be obtained by writing to PERA of Colorado, 1301 Pennsylvania Street, Denver, Colorado 80203 or by calling PERA at 303-832-9550 or 1-800-759-PERA (7372).

Funding Policy - The contribution requirements of plan members and the district are established under Title 24, Article 51, Part 4 of the CRS, as amended. The contribution rate for members was 8%. The district's contribution rate for calendar years 2008, 2009, and 2010 was 12.05%, 12.95%, and 13.85% of covered salary, respectively. A portion of the district's contribution (1.02% of covered salary) is allocated to the Health Care Trust Fund (See Note 10). The district's contributions to the SDTF for the years ended June 30, 2010, 2009, and 2008 were \$24,366,046, \$22,461,866, and \$19,961,504, respectively, equal to the required contributions for each year.

NOTE 10: POSTEMPLOYMENT HEALTHCARE BENEFITS

Plan Description - The district contributes to the Health Care Trust Fund (HCTF), a cost-sharing multiple-employer post-employment healthcare plan administered by PERA. The HCTF provides a health care premium subsidy to PERA-participating benefit recipients and their eligible beneficiaries. Title 24, Article 51, Part 12 of the CRS, as amended, assigns the authority to establish the HCTF benefit provisions to the State Legislature. PERA issues a publicly available annual financial report that includes financial statements and required supplementary information for the HTCF. That report may be obtained by writing to PERA of Colorado, 1301 Pennsylvania Street, Denver, Colorado 80203 or by calling PERA at 303-832-9550 or 1-800-759-PERA (7372).

Funding Policy - The district was required to contribute at a rate of 1.02% of covered salary for all PERA members as set by statute. No member contributions are required. The contribution requirements for the district are established under Title 24, Article 51, Part 4 of the CRS, as amended. The apportionment of the contributions of the HCTF is established under Title 24, Article 51, Section 208 of the CRS, as amended. The districts' contributions to the HCTF for the years ended June 30, 2010, 2009, and 2008 were \$1,853,864, \$1,831,754, and \$1,694,815, respectively, equal to the required contributions for each year.

NOTE 11: COMMITMENTS AND CONTINGENCIES

Claims and Judgments

The district participates in a number of federal and state programs that are fully or partially funded by grants received from other governmental units. Expenditures financed by grants are subject to audit by the appropriate grantor government. If expenditures are disallowed due to noncompliance with grant program regulations, the district may be required to reimburse the grantor government. At June 30, 2010, significant amounts of grant expenditures have not been audited by the grantor agency, but the district believes that disallowed expenditures, if any, based on subsequent audits will not have a material effect on the overall financial position of the district.

NOTES TO FINANCIAL STATEMENTS June 30, 2010

NOTE 11: COMMITMENTS AND CONTINGENCIES (Continued)

Litigation

Several claims are presently pending against the district, but district management believes the final settlements of these matters will not have a materially adverse effect on the financial position of the district.

Construction Commitments

At June 30, 2010, the district had construction commitments totaling \$42,417,975, primarily for building renovations to be funded with bond proceeds.

Tabor Amendment

In November 1992, Colorado voters passed Article X, Section 20 (the "Amendment") to the State Constitution which limits state and local government tax powers and imposes spending limitations. The district is subject to the Amendment.

Fiscal year 1993 provides the basis for limits in future years to which may be applied allowable increases for inflation and student enrollment. In November, 1999, voters within the district authorized the district to collect, retain, and expend all excess revenues and other funds received from every source, without limitation, in the 1999-2000 budget year and each subsequent budget year thereafter without future voter approval, notwithstanding the limitations of the Amendment. The Amendment is subject to many interpretations, but the district believes it is in substantial compliance with the Amendment.

The Amendment requires all governments to establish a reserve for emergencies. At June 30, 2010, net assets of \$7,671,642 and \$614,506 for the district and the charter schools, respectively, were restricted to satisfy the reserve requirement.

NOTE 12: STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

Accountability

At June 30, 2010, the Summit Middle School had negative net assets of \$9,201, the Grants Fund had negative fund balance of \$1,422,177, and the Nutrition Services Fund had negative net assets of \$364,156. These negative balances are expected to be eliminated with future revenues.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION June 30, 2010

NOTE 1: STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

Budgets

The district follows the following procedures in establishing the budgetary data reflected in the financial statements:

- In March, the Superintendent submits to the Board of Education a preliminary proposed budget for the period commencing the following July 1. The budget includes proposed expenditures and the means of financing them.
- Public hearings are conducted at regular Board of Education meetings to obtain taxpayer comments.
- In June, the budget is legally adopted by the Board of Education.
- In October, a revised budget is legally adopted by the Board of Education.

Colorado Budget Law requires that all funds have legally adopted budgets and appropriations. Budgets for all funds are adopted on a basis consistent with generally accepted accounting principles ("GAAP"). Total expenditures for each fund may not exceed the amount appropriated. Appropriations for a fund may be increased provided they are offset by unanticipated revenue. All appropriations lapse at the end of each fiscal year. Authorization to transfer budget amounts between programs and/or departments within any fund and the reallocation of budget line items within any program and/or department rests with the Superintendent. Revisions and/or supplemental appropriations that alter the total expenditures of any fund must be approved by the Board of Education.

Boulder Valley School District RE-2 STATISTICAL SECTION TABLE OF CONTENTS

This section of the Boulder Valley School District RE-2's Comprehensive Annual Financial Report presents detailed data as a context for understanding the information in the financial statements, note disclosures, and required supplementary information.

| Contents | Tables | Pages |
|--|--------|----------|
| Financial Trends These tables contain trend information to help the reader understand how the district's financial condition has changed over time. | 1- 4 | 81 - 84 |
| Revenue Capacity | | |
| These tables contain information to help the reader assess the district's largest revenue source: property taxes. | 5 - 7 | 85 - 87 |
| Debt Capacity | | |
| These tables present information to help the reader assess the affordability of the district's current levels of outstanding debt and the district's ability to issue additional debt in the future. | 6 - 9 | 88 - 89 |
| Demographic and Economic Information | | |
| These schedules offer demographic and economic indicators to help the reader understand the environment within which the district's financial activities take place. | 10 -14 | 90 - 94 |
| Operating Information | | |
| These tables contain service data to help the reader understand how the information in the financial report relates to the services the district provides and the activities it performs. | 15-17 | 95 - 101 |

| Total Direct and Overlapping Debt | | | \$ 624,820,592 |

Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the district. This schedule estimates the portion of outstanding debt of the overlapping governments that is borne by the taxpayers of the district. This process recognizes that, when considering the district's ability to issue and repay long-term debt, the entire debt burden borne by the taxpayers should be taken into account.

Notes:

- (1) Balances as of December 31, 2009
- (2) Balance as of June 30, 2010
- (3) The Percentage Applicable to the district is calculated by taking the percentage of the government's assessed value which is located within the boundaries of the district.

Board of Education Boulder Valley School District RE-2 Boulder, Colorado

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate discretely presented component units and remaining fund information of the Boulder Valley School District RE-2 as of and for the year ended June 30, 2010, which collectively comprise the basic financial statements of the Boulder Valley School District RE-2, and have issued our report thereon dated October 27, 2010. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Boulder Valley School District RE-2's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Boulder Valley School District RE-2's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Boulder Valley School District RE-2's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the Boulder Valley School District RE-2's financial statements will not be prevented, or detected and corrected, on a timely basis.

Our consideration of the Boulder Valley School District RE-2's internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Boulder Valley School District RE-2's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of the Board of Education, management, federal awarding agencies and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.

Swandenty Coupany Ul October 27, 2010

Board of Education Boulder Valley School District RE-2 Boulder, Colorado

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE WITH REQUIREMENTS THAT COULD HAVE A DIRECT AND MATERIAL EFFECT ON EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

Compliance

We have audited the Boulder Valley School District RE-2's compliance with the types of compliance requirements described in the U. S. Office of Management and Budget (OMB) *Circular A-133 Compliance Supplement* that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2010. The Boulder Valley School District RE-2's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of the Boulder Valley School District RE-2's management. Our responsibility is to express an opinion on the Boulder Valley School District RE-2's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Boulder Valley School District RE-2's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the Boulder Valley School District RE-2's compliance with those requirements.

In our opinion, the Boulder Valley School District RE-2 complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2010.

Internal Control Over Compliance

Management of the Boulder Valley School District RE-2 is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the Boulder Valley School District RE-2's internal control over compliance with the requirements that could have a direct and material effect on a major federal program to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Boulder Valley School District RE-2's internal control over compliance.

A deficiency in the Boulder Valley School District RE-2's internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of the Boulder Valley School District RE-2's internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of the Board of Education, management, federal awarding agencies and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.

Board of Education Boulder Valley School District RE-2 Boulder, Colorado

INDEPENDENT AUDITORS' REPORT ON SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate discretely presented component units and remaining fund information of the Boulder Valley School District RE-2 as of and for the year ended June 30, 2010, which collectively comprise the basic financial statements of the Boulder Valley School District RE-2, and have issued our report thereon dated October 27, 2010. These financial statements are the responsibility of the Boulder Valley School District RE-2's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and the provisions of Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Boulder Valley School District RE-2's basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the basic financial statements. The information in this schedule has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS Year Ended June 30, 2010

NOTE 1: BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal awards is presented in accordance with the requirements of OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, using the accrual basis of accounting. Therefore, some amounts presented in this schedule may differ from amounts presented in the financial statements.

INDEPENDENT AUDITORS' REPORT ON AUDITOR'S INTEGRITY REPORT

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate discretely presented component units and remaining fund information of the Boulder Valley School District RE-2 as of and for the year ended June 30, 2010, which collectively comprise the basic financial statements of the Boulder Valley School District RE-2, and have issued our report thereon dated October 27, 2010. These financial statements are the responsibility of the Boulder Valley School District RE-2's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Boulder Valley School District RE-2's basic financial statements. The accompanying auditor's integrity report is presented for purposes of additional analysis as required by State of Colorado statutes and is not a required part of the basic financial statements. The information in this schedule has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.
