

## **Educational Websites**

Please see the list of educational websites currently in use at the School District of Lodi. Each site description has a link to privacy policies and any other pertinent information. All sites have been thoroughly researched and tested for safety and educational effectiveness. Most sites are managed through an educational platform and are overseen by classroom teachers and/or the Technology Integrator. Since technology and information is always changing, so is this list. New websites and programs will be added periodically while others may be removed.

### **Padlet**

- Padlet is an online collaboration tool for both staff and students. Padlet helps generate ideas, facilitates brainstorming, and creates a shared virtual learning environment.
