Dear Lodi families,

The School District of Lodi uses Securly web filtering to provide our district with the eyes and the ears we need to maintain student safety at all times, across all of our schools, and on all of our different devices.

Securly does the following for our district:
- Monitors safety on social media/search engines
- Maintains our age-appropriate internet
- Alerts us to online bullying and self-harm incidents
- Keeps our schools CIPA compliant

Because we find this service so valuable, the School District of Lodi is partnering with Securly to help you manage all of your child's devices in your home, the same we we use Securtly in the school district - and raise money for our schools while doing it.

If your student is bringing home an iPad or ChromeBook from school it is already tied to Securly, even when it is in your home. However, students and their siblings have other devices that connect to your home internet that are not currently protected by Securly, *for example*, smartphone, laptop, iPad, tablet, and or any number of Gaming devices. By purchasing a Seculry Home Hub (below) and hooking up all of your student's devices to it, you can monitor and protect your child's online experiences the same we do at school.

Securly Home Hub

Manages all Wifi devices (both school and personal) through one simple device. Connect and manage your Securly Home hub and parent portal with your smartphone from anywhere.

Activity Feed for All

Get a real time view of online activity for all devices in your home.

Custom Filtering Rules

Securly Home Hub comes preconfigured with a setup that is similar to what the school district uses, but you can easily tell your Hub which sites are allowed or not allowed and it will take care of the rest.

Pause for All

If for any reason you want your home Wifi turned OFF, your Hub will shut the internet down with one tap on your Smartphone - from anywhere at anytime.

Try the Hub and Raise Funding for Your School
The Hub is $5.99 per month and takes three minutes to set up. For every Hub sold, the School District of Lodi receives $1 per month!

How to Sign Up
For more information and to get your free Hub go to https://www.securly.com/hub.
