

Kindergarten Unit 3-Number Representations and Comparisons

In this unit students will:

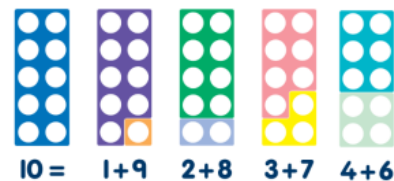

- Sort, count, compare, and graph pattern blocks by shape
- Use ten frames to explore number pairs that add up to 10
- Compare and describe objects of varying lengths
- Use positional language to follow and give directions
- Use numeral recognition, counting, and one-to-one correspondence when playing games/ solving problems
- Represent how successive numbers refer to quantities that are one larger
- Practice number writing and other numeration skills

Ideas for Home:

Discuss the attributes of each pattern block (how many sides, color, name,)

Practice making sums of 10 using pennies, toothpicks, marbles, etc.

Please note: The activities above are not homework. They are suggestions for supporting learning at home. Please consult with your child's teacher for homework and specific suggestions related to your child's needs.
