

First Grade Unit 7- Subtraction Strategies & Shape Attributes

In this unit students will:

- Apply properties of operations to add or subtract
- Understand subtraction as an unknown-addend problem
- Add within 10 fluently
- Subtract within 10 fluently
- Add doubles automatically
- Subtract doubles
- Add combinations of 10 automatically
- Subtract combinations of 10
- Find the unknown in addition and subtraction equations
- Understand subtraction as an unknown-addend problem
- Relate counting to addition and subtraction
- Add and subtract within 20 using strategies
- Distinguish between defining and non-defining attributes
- Tell and write time using analog clocks

Ideas for Home:

- Use fact triangle cards to practice addition and subtraction facts at home.
- Look for shapes around the house, at the supermarket, in architectural features, on the playground, and on street signs. Have your child name the shape and describe the attributes of the shape.
- Draw a name-collection box with a number on the tag. Ask your child to write 10 addition facts and 10 subtraction facts for the given number.

Please note: The activities above are not homework. They are suggestions for supporting learning at home. Please consult with your child's teacher for homework and specific suggestions related to your child's needs.
