

# First Grade Unit 9- Two Digit Addition and Subtraction & Year End Review

## In this unit students will:

- Measure length using same-size units with no gaps or overlaps
- Express length as a whole number of units
- Solve number stories by adding and subtracting
- Subtract multiples of 10 from multiples of 10
- Understand adding 2-digit numbers and multiples of 10
- Subtract multiples of 10 from multiples of 10
- Compare and order numbers
- Record comparisons using  $>$ ,  $=$ , or  $<$
- Understand place value
- Distinguish between defining and non-defining attributes
- Build composite shapes
- Describe the whole as a number of shares

## Ideas for Home:

- Say a 2-digit number. Ask your child to mentally find 10 more and 10 less.
- Have your child tell time to the hour or half hour.
- Find and describe geometric shapes in everyday objects.
- Give your child 3 numbers. Ask your child to make the smallest number and the largest number out of those numbers (Ex: 7, 4, 8 --478 and 874)
- Collect data by asking your child questions such as- how many trees are in this park? How many cars are on this street? Etc.. Then have your child graph this data.

- Please note: The activities above are not homework. They are suggestions for supporting learning at home. Please consult with your child's teacher for homework and specific suggestions

## Websites:
