Pack of multi-colored highlighters
Black 1-inch 3-ring binder (for band, orchestra, and choir ONLY)
[Chromebook](#) or laptop (not required but highly encouraged)

During the first week of school, each class may have a few additional, subject-specific organizational materials that will be suggested.

Most of these school supplies should remain in your backpack or locker as you will use them during class time. Students are encouraged to reuse and recycle. If you have these supplies at home, feel free to put them in your backpack and use them.

All students will be provided with an International Academy Student Planner. You do not need to buy one.

Recommended For Home - access to a printer and a supply of ink. It is physically impossible for all students to print their homework in the computer lab each morning. Access to a printer makes for much less stressful mornings to start your child's day. Okma students are allocated about 30 pages credit a month to print for in-class school work. (Homework should be printed at home). A printer release fob can be purchased for \$4 in the media center for ease in print release. This allows a student to print to the lab (via cloud print) and it be held in a queue until it is released with the fob. Students may purchase additional print credit if they use up the allotment.

**We are a Google Apps for Education School and most assignments will be completed using GoogleDocs in Google Classroom.*
